Library update

The library is now operating in two locations (see below) and staff will be delighted to see you there, or to assist you over the phone. Much of the book collection is available and many resources are also available online to CDHB computers. All the articles in the attached list are available so long as you are using a computer on the CDHB intranet. Articles can also be downloaded using the computer in the library. Please bring a USB flashdrive with you. If you intend to undertake some postgraduate study in 2012, keep an eye out for the database training sessions that library staff will be offering in January.

Locations:
Ward 30, Riverside, Christchurch Hospital: See page 2 for hours of opening in Ward 30
Princess Margaret Hospital Library:
Monday to Friday, 8.30am to 5.00pm

Contact details:
Ward 30: Ext 80500 (364 0500)
or Ext 80504 (364 0504)
or Mobile:021 056 0216
Email librarycml.uoc@otago.ac.nz

PrMH Library: Ext 66698 (337 7698)

Clinical Protocols

The 8th edition of the Royal Marsden Manual includes over 350 evidence-based clinical procedures related to every aspect of care, from handwashing to cardiopulmonary resuscitation. The library has the online version, with the print version on order. The online copy can be used from any computer on the CDHB or the UOC network.

Books and Authors

This database is excellent for those who know the feeling of finishing a thrilling novel and hoping for something similar. But what is that next book? Books & Authors is a free resource with easy-to-follow menus that allow users to search by author, title, series, awards and other criteria. Each book retrieved has a „read-a-likes” tab, linking to other similar titles.
