Library update

The library continues to operate from both Christchurch Hospital and the PMH. Staff will be delighted to see you at either location or to assist you with any phone or email queries. Much of the book collection is available and many online resources (including books, journals and databases) are also available on CDHB computers.

For anyone undertaking further undergraduate or postgraduate study in Semester 2, don’t hesitate to ask library staff about database or Endnote training or to query what other training is available.

TRIP Database
www.tripdatabase.com/index.html

This free database lets you search for evidence-based information in a number of ways, and most of the information you find will be in full-text format. The main search page is good for searching one key term, whereas choosing the ‘Advanced Search’ link gives you a few more options on where and how you search. Results are broken down into areas such as guidelines, systematic reviews, evidence-based synopses and patient information. If you would like advice or help on using TRIP, then contact us at Canterbury Medical Library on extension 80504, or visit us in Ward 30, on the 4th floor of the Riverside building.
