

Interested in a Career in the Minerals Industry

Each year the AusIMM New Zealand Branch **fully** sponsors a group of its Student and Graduate Members to attend the annual AusIMM New Leaders Conference held in Australia. The next New Leaders Conference (<http://www.ausimm.com.au/newleaders2010/>) will be held in Kalgoorlie on the 6th - 7th of April 2010 and we now invite applications for sponsorship to attend.

If you would like the chance to learn about opportunities in the Australasian minerals industry (particularly job wise), meet young like-minded people in the industry, listen to some interesting paper presentations, and socialise with potential future colleagues, submit a 1 page application before the **5th of January 2010** that includes the following information:

- Education/study history and current status (detail your degree and interests, and research project if you are doing one)
- Career ambitions
- Reasons why you would benefit from this opportunity to attend the conference

While members will be chosen to attend the conference, non-members can apply provided that they also submit a (free) membership application at the same time. Becoming a member of the AusIMM as a student is exceptionally valuable as it opens the door to a career in the minerals industry. Some of the benefits of becoming a Student Member are:

- Free Membership
- Scholarship opportunities
- Sponsorship to international conferences and discounted rates for AusIMM New Zealand Branch events
- Opportunities to network with professionals in the industry
- Access to job opportunities
- Up-to-date information regarding the minerals industry

For more information, or to apply for student membership, or to send your New Leaders Conference application (by **5th January, 5pm**) contact Campbell Ryland rylca186@student.otago.ac.nz or Hugh Davies hdavies@golder.co.nz

Cheers

Campbell Ryland and Hugh Davies
