

VIDARIS NEWSLETTER

EASTER

We hope you all had a happy Easter and you managed to get some rest and relaxation.

POSITIVE FEEDBACK

The study leaders have had a teleconference with the Data Monitoring Committee. The committee oversees the data integrity of the study. They are amazed at the way VIDARIS has managed to keep going in these exceptional circumstance. Other studies in similar situations have been severely compromised. So again, a big thank you to you all for being so helpful and for not letting the earthquakes affect your willingness to stay in the study.

URIs.

We are moving into autumn and the weather is getting colder. If you are due for an appointment and you have symptoms of a cold or a flu can you please let your project assistant know before the appointment. That way we can come prepared!

CHANGE OF ADDRESS AND CONTACT DETAILS.

Many of you have moved houses and workplaces and many are in the process of doing so. If you have new contact details can you please send a quick email to your project assistant with the new details. If it is easier just reply to this email and I will forward it on. It is important that we have this new contact information.

APPOINTMENTS

Many of you will have had or be having your 12 month appointments. Some of you are still at the 11 month stage and others are having their 13 month appointments. The 12 month appointments take a little longer as there is a blood test at this stage of the study.

HOW TO CONTACT US

Karina Barney	378 6542
Penelope Fleming	378 6543
Sarah Godfrey	378 6546
Kelly Watson	378 6545

Study Co-ordinator Sandy Slow Contact details:

Sandy Slow	378 6544
After hours	0800 VIDARIS 0800 8432747
