

# VIDARIS NEWSLETTER

## STUDY ENDING

This will be the last newsletter for the study. In three weeks' time all of the appointments for VIDARIS will be finished.

The next time we will be in contact with you will be in December. This is when your individual results will be posted out to you and you will find out whether you have been on Vitamin D or placebo.

As there is a lot of data to analyse we won't know the study findings until next year. We aim to have a seminar to present the study findings to which all the participants will be invited. We antici-

pate this will be around March/April.

## THANK YOU

The VIDARIS team wants to thank you for participating in the study over these last 18 months. Studies such as these would be impossible without people willing to volunteer their time.

We wish you all a very Happy Christmas and

Best Wishes for 2012. Like you, we look forward to knowing what the study findings will be.

## COLDS AND FLU SYMPTOMS

If you haven't had your last appointment and develop cold or flu symptoms, even the day before or on the day you finish the study, please contact us.

## HOW TO CONTACT US

Karina Barney	378 6542
Penelope Fleming	378 6543
Sarah Godfrey	378 6546
Kelly Watson	378 6545

## Study Co-ordinator Sandy Slow Contact details:

Sandy Slow	378 6544
