POSTGRADUATE

Tropical Infectious Disease

GENA719

Travel Medicine Postgraduate Diploma Core Paper

Primary Health Care Postgraduate Certificate/Diploma Elective paper

This paper is aimed at primary health-care practitioners wishing to increase their knowledge in tropical medicine. By the end of this course it is expected that the students will have a good general understanding of tropical infectious diseases, their epidemiology, diagnosis and management.

Relevant tropical diseases include:

- Arboviruses
- Malaria
- Helminthic infections
- Tuberculosis
- HIV
- Food and water borne disease
- Tropical STI's and vaccine preventable disease
