

## Accessing Your Results (and sending them to us)

About 8 weeks after you have sent in your sample, start checking the Genographic website to see if your results are ready: <https://genographic.nationalgeographic.com/>  
Click on the “Sign In” link in the top right hand corner of the screen.

Note that you do not already have an account if this is the first time you are logging in, so in the “Genographic Project Sign In” box, go down past “Don’t have an account?” and click on the blue link “Create a Genographic Project Account or Continue Anonymously”. You will need to enter your GPID number (the number that was in your box when you collected your sample), and use this to either create an account with a new user name and password of your choosing (write this down somewhere safe!) or enter anonymously, just by using your GPID number.

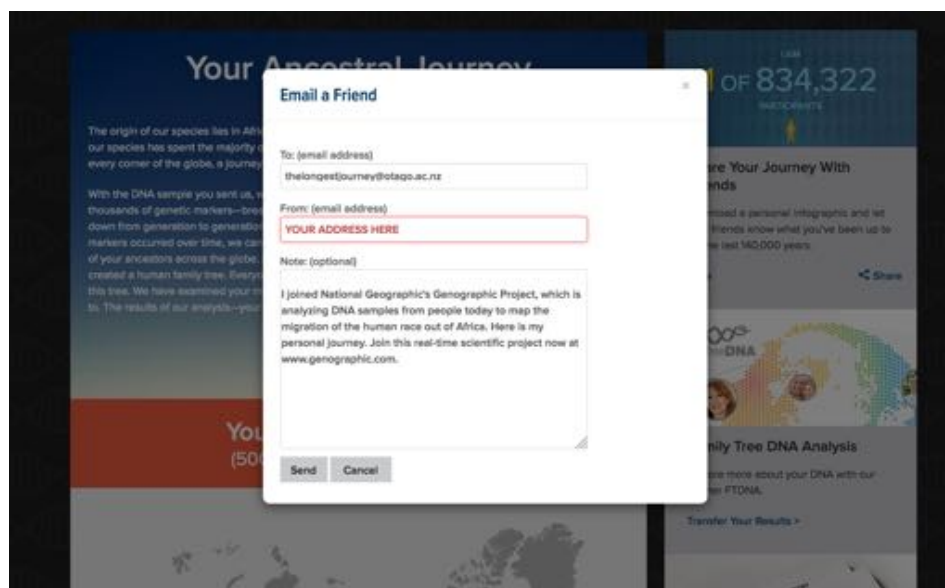

Once you are logged in, you will see a page like this:

“Click” on the share icon under “Share Your Journey with Friends” and then click on the little envelope icon, which will bring up a screen (below) for you to enter our email address:

[thelongestjourney@otago.ac.nz](mailto:thelongestjourney@otago.ac.nz)

Include your email address in the “From” section.

Then just push “Send”!
