

Te Kura Kairūri School of Surveying

Lunchtime Seminar Series

Offshore Wind Energy in NZ

Giacomo Caleffi, NZ Senior Business Development Manager
Copenhagen Infrastructure Partners

An overview of offshore wind, including benefits, layout considerations and main components and impacts of an offshore wind farm. Discussion of one of the most advanced offshore wind ventures in Aotearoa, the South Taranaki Offshore Wind project by Taranaki Offshore Partnership.

Giacomo Caleffi is the NZ Senior Business Development Manager leading the development of offshore wind projects in Aotearoa New Zealand by Taranaki Offshore Partnership, a Joint Venture of NZ Super Fund and Copenhagen Infrastructure Partners. Prior to joining COP, Giacomo was the Chair of the NZ Offshore Wind working group and worked as structural engineer on several offshore wind projects around the world (UK, Germany, US, Taiwan) for engineering consultancies Ramboll, Arup and ISC. Giacomo is based in Wellington.

Thursday 13th July 2023 (12pm – 1pm)

L1 Lecture Theatre | School of Surveying, 310 Castle Street
