

Webster Centre for Infectious Diseases
QMB Satellite Symposium 2017:

National Symposium of Infectious Diseases and Antimicrobial Resistance: Key opportunities and emerging therapies

7-8th September 2017, Rydges Hotel, Queenstown

This satellite meeting will be focused on genomic strategies to combat and understand infectious diseases, antimicrobial resistance, drug discovery and emerging therapies and diagnostics. Sessions will cover microbial pathogen genomes, infection and immunity, tuberculosis, drug discovery and novel therapeutics and vaccines, GAS and viral pathogenesis.

Confirmed speakers (to date) include:

Eng Eong Ooi, Duke-NUS Medical School, Singapore

John Blanchard, Albert Einstein College of Medicine

Michael Kelso, University of Wollongong, Australia

Suzanne Gebhard, University of Bath, UK

Elizabeth Hartland, Doherty Institute, University of Melbourne

Nigel French, Massey University

Jacelyn Loh, University of Auckland

Deborah Williamson, Doherty Institute, University of Melbourne

Htin-Lin-Aung, University of Otago

David Murdoch, University of Otago, Christchurch

Amy Chung, Department of Microbiology and Immunology, University of Melbourne

Mike Taylor, University of Auckland

Gary Evans, Ferrier Research Institute

David Goldstone, University of Auckland

Matloob Husain, University of Otago

Rob Fagerlund, University of Otago

This meeting will be a great opportunity for those working in the field of microbiology and infectious diseases, pathogenomics, drug discovery and viral pathogenesis to present their research and facilitate collaborations. The official meeting website can be found at <http://www.queenstownresearchweek.org/infectious-diseases/>
