ICC Cricket World Cup 2019

<https://www.cricketworldcup.com/>

This year's World Cup will be held in England and Wales, and starts in late May, running for around 6 weeks. Because of the time difference, only the most avid cricket fans in New Zealand will watch the games live, so this website will be a good place to visit and catch up with all the news. There are squad lists, information about which teams are playing and where, and the site is also searchable.
