

RESEARCH AND ENTERPRISE

Updates and Announcements from week commencing 27 July 2026

Transition Research Fund (TRF) 2027

Internal selection process for TRF Programmes (new)

TRF Programmes will be 5-year research programmes with a minimum value of \$1M (excl. GST) per annum. UoO can submit up to 12 Programme proposals. There is an internal selection process to determine which 12 proposals will be submitted to MBIE in the round opening on 30 September 2026. The selection will be made by assessing Expressions of Interest (Eoi) documents.

Key dates: internal selection process for TRF Programmes

Register Intent - 12 noon Mon 27 July

Cut-off for registering your intent to submit a Programme Eoi. You can register at any time up until this date. No further internal registrations will be accepted after this date.

Please email your RA or BDM to register your intent to submit an Eoi and provide the following information:

- Proposed application title
- Pillar alignment and opportunity(s)
- Collaborators/End-users (indicative)

Note: Applicants can only submit one Eoi as PI.

Internal Eoi templates are being finalised and will be made available shortly to those who have registered their interest.

Eoi Submission Date - 12 noon Mon 17 August:

Expressions of Interest to be submitted to research@otago.ac.nz.
No Eois will be accepted after this date.

Information on internal processes for Talent Development and Projects will follow in the coming weeks along with more detail on the internal assessment for Programmes.

As provided previously:

Big Picture: What's Changing: NZ research funding is moving to a mission-led system aligned to national priorities "pillars". There is a shift from "fit to scheme/mechanism" to fit to pillar + impact story.

Key message: TRF is a transitional, impact-led fund. Marsden and Endeavour funds no longer exist in the new system. The TRF is not designed to replace these, it is designed to be a transition to future funding models.

Pillars (high-level priorities)

- Primary Industries & Bioeconomy
- Technology for Prosperity
- Environmental Sustainability & Resilience
- Healthy People & Thriving Society

Each of the Pillars have five or six identified Challenges with an associated **Opportunity**.

TRF proposals MUST align to one pillar (even if work spans multiple pillars) and associated “opportunity” with a clear narrative of impact.

Three Funding Mechanisms for TRF:

- Talent Development (only for proposals aligned to the Technology for Prosperity pillar; not limited to early career researchers)
- Projects (innovative, high-impact research)
- Programmes (larger, collaborative and longer-term initiatives)

I want to apply - what do I do next?

1. Read the [Science Investment Plan](#) to understand high-level pillars and opportunities **then**
2. Contact your RA or BDM to register your interest by 27 July.

Please refer to the following links for details:

ORIS Project Closure and Ongoing RAS Support - NEW

As the Otago Research Information Systems (ORIS) project comes to a close, we would like to sincerely thank everyone who has supported, contributed to, and engaged with the implementation of the Research Administration System (RAS). Your feedback, patience, and willingness to embrace new ways of working have played an important role in the successful implementation of RAS.

As part of the transition from project delivery to business-as-usual support, the ORIS project inbox (orisproject@otago.ac.nz) has now been retired, and is no longer monitored.

Systems support remains available. If you require technical assistance with RAS, please submit your request through AskOtago. We recommend saving [this link](#) for future reference, as it will populate the AskOtago form specifically for RAS, ensuring your request is directed to the Research Systems Team, who will continue to provide ongoing support.

For more information on system use and process, please refer to the RAS Sharepoint or contact Research & Enterprise. Thank you once again for your support throughout the ORIS project. We look forward to continuing to support the University community as RAS becomes part of our ongoing services.”

The Rosalind Franklin Prize for Excellence in Ovarian Cancer Research - NEW

The Rosalind Franklin Prize for Excellence in Ovarian Cancer Research is an annual prize awarded to an individual in recognition of their outstanding contributions to basic science, translational, or clinical research in ovarian cancer. [Ovarian Cancer Research Prizes | OCRA](#)

Nominations are due by 5:00pm ET on August 12, 2026 and must come from a member of the scientific research community. Online submission [here](#).

Neurological Foundation webinar

An online information session will be held on Friday 4th September from 1-2pm. This will be recorded and available on the Neurological Foundation website.

<https://us06web.zoom.us/j/9793901471?omn=85139294089&from=addon>

Neuromuscular Research Trust Expression of Interest

Register your interest in this [round](#) by filling out an expression of interest [form](#). Once the round opens on 1 September 2026 you will be emailed proposal information and an application form.

Southern Connections – the Future of Digital Health event

HiNZ is holding a one day digital health workshop - 29th July 2026, Dunedin Town Hall. Read more about this and register [here](#)

New Zealand Association of Scientists (NZAS) 2026 Science Medals

Applications are invited for the following [NZAS science medals](#) - Marsden Medal, Shorland Medal, Hill Tinsley Medal, Cranwell Medal, Scientific Workers Medal. To apply, complete the [Airtable application form](#) by 03 August 2026. Applicants can apply directly or can be nominated.

Royal Society Te Apārangi postgraduate scholarships

Two postgraduate scholarships are now open for application, with a closing date of **31 August 2026**:

[RHT Bates Postgraduate Scholarship](#) - Study award of \$6,000 for a PhD in the Physical Sciences and Engineering in a New Zealand university, with a focus on information/image processing

[The Sir Hugh Kawharu Masters Scholarship for Innovation in Science](#) - a \$10,000 scholarship for study by Māori at masters level in the sciences.

Details of how to apply can be found here: <https://www.royalsociety.org.nz/what-we-do/funds-and-opportunities>

Frontiers Planet Prize

The 5th edition of the [Frontiers Planet Prize](#) is now open. Three prizes of USD 1 million awarded to breakthrough research enabling healthy lives on a healthy planet. If you are interested or want additional information, contact the Office of the DVC Research and Innovation at dvc.research@otago.ac.nz.

Horizon Europe

To learn more, please refer to this [special research news](#) which has been updated for 2026, this [document](#) and the [Funding and Tenders Portal](#).

FUNDING OPPORTUNITIES from Week Commencing 27 July 2026

TYPE	AF	Awards and Fellowships
	RE	Research projects and Equipment grants
	TC	Funding for Travel and Conferences (attendance/registration)
	Oth	Other grants (including research support for proposal development, dissemination of findings through hui or stakeholder meetings, running conferences/workshops, etc)

ONLINE APPLICATIONS Where applications are to be submitted through an online portal, please note that a budget is still required via the financials tab in RAS and must be submitted to your Research Advisor by the due date detailed below.

DUE DATE (Internal Deadline):

Applicable to **all Researchers**, please register your interest in a fund (via RAS) early with your Research Advisor, so that support can be provided. Submit your application and completed RAS budget to your Research Advisor by the internal due date.

NEW	TYPE	FUNDING BODY	FUNDING OPPORTUNITY	INTERNAL DUE DATE
	RE	Cancer Research Trust New Zealand	• Project Grant • Special Purpose Grant	28-Jul-2026

Other funding opportunities – discuss with Research Advisor if interested in applying

- AINSE refer [here](#) for upcoming and open opportunities
- **Fulbright New Zealand** – Fulbright NZ offers a variety of awards throughout the year, some in conjunction with Ngā Pae o te Māramatanga. Refer [here](#) for open and upcoming opportunities. Professor Phil Bremer is the Fulbright New Zealand Campus Advisor for the University of Otago. Find Phil's contact details [here](#).
- **Gates Foundation grand challenges** - [Grant Opportunities | Global Grand Challenges](#)

If you have any queries or would like further information regarding any of these Funding Opportunities, **please contact your Research Advisor**. Contact details are available on the Research and Enterprise [Website](#).

To subscribe to Research News

Email research@otago.ac.nz, with subject line: 'Subscribe to Research News' **NB:** Research News is intended for University of Otago staff and students.

GENERAL INFORMATION REGARDING RESEARCH FUNDING AT OTAGO

When you need to contact us

Staff are reminded that **every application for external research funding must come through Research and Enterprise, via your Research Advisor**. Please contact for advice. All grant applications and proposals should be submitted by academic staff. Please inform your Research Advisor if you intend to apply as Principal Investigator for *any* contestable funding, whether advertised here or not, at the beginning of the development of your application. The same situation exists if you have been approached by researchers at another institution/organisation to collaborate on a funding proposal where Otago is not the lead institution and/or is not submitting the proposal.

Requirement for Field of Research (FOR) and Socio-Economic Objective (SEO) codes

Universities are required to report to the Ministry of Business, Innovation and Employment on FOR and SEO codes for all research and commercial projects, see [MBIE requirements](#). A link to the codes is provided in the help section in RAS. Please talk to your Research Advisor or Business Development Manager if you have any queries regarding the codes. In RAS, these codes must be entered in the initial set-up steps of applications/projects.

The [UoO Policy Document on Externally Funded Research](#) outlines both the need for and the usage of the budget builder.

Panui Rangahau Māori – Māori Research Consultation

For researchers submitting to NTRCC work within your divisions, department, and your [Research Advisors](#) to develop your Vision Mātauranga Policy statements and to progress developing your ideas toward ethics approval. Document your thoughts regarding VM, relevance to Māori, and pathways to impact on society, this is all valuable

thinking even in early stages. Your [Research Advisors](#) will be able to provide support in the first instance or may choose to escalate if necessary.

For Christchurch researchers: the Māori Health Advancement Programme for researchers at UOC has two components: a professional development programme and a new research review process. For all information about how to complete the professional development programme and complete the research review process please head to this page: <https://www.otago.ac.nz/christchurch/services/researchoffice/maoriconsultation>

For any queries or pātai please email the Kaitohutohu Rangahau Māori/Māori Research Advisor at: maorihealthadvancement.uoc@otago.ac.nz

Ethics and Regulatory Consents

The University requires that any research involving human participants and/or animals is conducted in accordance with the highest ethical standards. Where appropriate, compliance includes ethical approval from the relevant ethics committee. Please refer to our [Ethics and Regulatory Consents](#) webpage for further information.

Human Ethics applications and assessment via Conduit

All applications for Human Ethics consents and amendments (Health, Minimal Risk Health Research (MRHR), Category A Non-Health, Category B Low Risk Non-Health) must now be made via Conduit. This system replaces all previous methods of applying for Human Ethical consents. Note that applications for Animal Use protocols will remain via IARMS. Access the web-based system via [this link](#) and using your Otago University log in and password.

For recorded online training sessions, further resources and more information about Conduit on this SharePoint site: <https://otagouni.sharepoint.com/sites/Conduit/SitePages/training-home.aspx> The Research Integrity Office (who manage the Human Ethics application process) are happy to talk through questions or queries you may have about ethics applications. Contact them on humanethics@otago.ac.nz

Checklist for submitting grant proposals

Remember to include:

- **Copy of the application** (*signed by applicant, and HoD/Dean if requested by funder*)
- **Completed budget (in RAS)**
- **Evidence of Māori Research Consultation**
- **Ethical / Regulatory approvals** (*if required and already approved*)

Research and Enterprise then obtains the authorised signature of the University for you (if required), copies the application (when required), and sends it to the funding body by the due date.

University of Otago Bridging Scheme Register and Continuation of Research Achievement Grant (CRAG) for External-Grant-Funded Research-Only Staff

Further information about the **Bridging Scheme** which provides a mechanism to protect the continued contributions of Research-Only Principal Investigators can be found [here](#).

The **Continuation of Research Achievement Grant (CRAG)** supports highly productive research leaders within the University in the event of significant grant failure. Application Forms and Guidelines can be found [here](#).
