

RESEARCH AND ENTERPRISE

Updates and Announcements from week commencing 7 September 2026

Transition Research Fund (TRF) 2027 - Updated

Key internal dates for the 3x funding mechanisms are provided below.

The University can submit up to 12 Programme proposals, 41 Talent Development proposals and 44 Project proposals. There is an internal selection process to determine which proposals will be submitted to MBIE for each mechanism.

R&E Support: Due to the volume of EOI registrations, R&E BDMs and RAs are not available to provide one-on-one support for the preparation of TRF EOIs.

The RA/BDM selected during the RAS registration process should be considered a placeholder. R&E support will be allocated to applicants who progress to the external application stage.

Reminder: Projects

EOI registration deadline: 12 noon Monday 7 September

This deadline is rapidly approaching. Please note the following:

- Please allow sufficient time to [complete RAS registration](#). Incomplete registrations with 'In Draft' status will be considered ineligible if not rectified by **12 noon Monday 7 September**
- Applicants should keep an eye out for emails from the Research Office research@otago.ac.nz regarding incomplete registrations prior to the deadline and take any required action promptly.

Reminder: Talent Development (Registration closed)

EOI submission deadline: 12 noon Monday 7 September

This deadline is rapidly approaching. Please note the following:

- EOI submissions must be accompanied by the **Principal Investigator CV**. Please use either the Standard or Narrative CV available [here](#)
- All submissions should be provided in **Word format & submitted in RAS by 12 noon Monday 7 September**
- If you have prematurely completed your EOI workflow approval in RAS ahead of attaching your EOI form & CV, *the Research Office will no longer reset the workflow for you*. Researchers must ensure their EOI and CV attachments are attached to the workflow by the advertised deadline. The Research Office do not have the capacity to continue to reset these.
- **Instructions on how to submit a TRF EOI in RAS are available [here](#)**

The Research Office will not follow up with PIs for any missing documentation. Applications submitted without the appropriate attachments and/or incomplete EOI workflow step will be marked as non-compliant, and this will be taken into account for assessment, along with any word count issues – it may make you ineligible at the discretion of the assessment panel.

Update: Programmes (Submission closed)

- 28 Programme EOI applications have been submitted to R&E
- Assessment panel will meet Friday 11th September (Panel information will be communicated to Programme applicants in due course)

- **Result outcomes are expected to be communicated by 25th September.** This has been extended from the previously communicated week of 14th September, based on the panel meeting date.
- **Applicants will not automatically be moved into the Project mechanism if unsuccessful. Applicants must independently [register for a project](#) in RAS if wanting to secure a back-up option by **12 noon Monday 7 September****
- R&E welcome feedback to research@otago.ac.nz from registered applicants who did not submit an EOI, as to why submission did not occur.

What will the MBIE template look like for a full application?

We will now not be provided the MBIE Call for Proposals or templates for the TRF 2027 registration and full application until early October.

Please refer to the following links for details:

[2027 Transition Research Fund Gazette 23 Jun 2026](#)

[Transition Research Fund Investment Plan 2027](#)

[Transition Research Fund 2027 overview](#)

We are waiting for more information from MBIE - likely release dates below with caveats:

- Planned date for the publication of Pillar Investment Plans (PIPs) is Wednesday 30 September. Subject to, and dependent on, approval by the Minister. As with any Ministerial decision, this is subject to last minute change or delay and not something over which MBIE has direct control.
- Planned date for Gazette Notice amendment publication is Thursday 1 October - also a Ministerial document and subject to the same caveats and dependent on the PIPs publication date being met.
- MBIE plans to publish the Call For Proposals on the same day as the Gazette Notice amendment is published.

MBIE plans for sector engagement in October about TRF

MBIE intend to hold three online mechanism webinars (e.g. “roadshows”) for the TRF in October.

Indicative dates (subject to change) are:

- Programmes – October 13
- Talent Development – October 15
- Projects – October 21

Each webinar will have some good time allocated for live Q&A.

These dates are based on current timelines, with the planned date for Gazette Notice amendment publication on Thursday 1 October, and dependent on the PIPs publication date being met.

- MBIE intend to publish the Call for Proposals (and all associated documentation) on October 1.
- The first webinar is planned for October 13 as there is likely to be sector-facing comms for the publication of the PIPs in the week of October 5th.

New page dedicated to the Transition Research Fund

A dedicated [Transition Research Fund page](#) is now available on the Research Hub: Health Sciences.

The page provides a central location for official MBIE resources, together with Research Office timelines, guidance, and key information for each of the three funding mechanisms.

Ongoing RAS Support link

As part of the transition from project delivery to business-as-usual support, the ORIS project inbox (orisproject@otago.ac.nz) has now been retired, and is no longer monitored. Systems support remains

available. For technical assistance with RAS, submit your request through AskOtago. [This link](#) will populate the AskOtago form specifically for RAS.

FUNDING OPPORTUNITIES from Week Commencing 7 September 2026

TYPE	AF	Awards and Fellowships
	RE	Research projects and Equipment grants
	TC	Funding for Travel and Conferences (attendance/registration)
	Oth	Other grants (including research support for proposal development, dissemination of findings through hui or stakeholder meetings, running conferences/workshops, etc)

ONLINE APPLICATIONS Where applications are to be submitted through an online portal, please note that a budget is still required via the financials tab in RAS and must be submitted to your Research Advisor by the due date detailed below.

DUE DATE (Internal Deadline):

Applicable to **all Researchers**, please register your interest in a fund (via RAS) early with your Research Advisor, so that support can be provided. Submit your application and completed RAS budget to your Research Advisor by the internal due date.

NEW	TYPE	FUNDING BODY	FUNDING OPPORTUNITY	INTERNAL DUE DATE

Other funding opportunities – discuss with Research Advisor if interested in applying

- **AINSE** refer [here](#) for upcoming and open opportunities
- **Fulbright New Zealand** - Fulbright NZ offers a variety of awards throughout the year, some in conjunction with Ngā Pae o te Māramatanga. Refer [here](#) for open and upcoming opportunities. Professor Phil Bremer is the Fulbright New Zealand Campus Advisor for the University of Otago. Find Phil's contact details [here](#).
- **Gates Foundation grand challenges** - [Grant Opportunities](#) | [Global Grand Challenges](#)

If you have any queries or would like further information regarding any of these Funding Opportunities, **please contact your Research Advisor**. Contact details are available on the Research and Enterprise [Website](#).

To subscribe to Research News

Email research@otago.ac.nz, with subject line: 'Subscribe to Research News' **NB:** Research News is intended for University of Otago staff and students.

GENERAL INFORMATION REGARDING RESEARCH FUNDING AT OTAGO

When you need to contact us

Staff are reminded that **every application for external research funding must come through Research and Enterprise, via your [Research Advisor](#)**. Please contact for advice. All grant applications and proposals should be submitted by academic staff. Please inform your Research Advisor if you intend to apply as Principal Investigator for *any* contestable funding, whether advertised here or not, at the beginning of the development of your application. The same situation exists if you have been approached by researchers at another institution/organisation to collaborate on a funding proposal where Otago is not the lead institution and/or is not submitting the proposal.

Requirement for Field of Research (FOR) and Socio-Economic Objective (SEO) codes

Universities are required to report to the Ministry of Business, Innovation and Employment on FOR and SEO codes for all research and commercial projects, see [MBIE requirements](#). A link to the codes is provided in the help section in RAS. Please talk to your Research Advisor or Business Development Manager if you have any queries regarding the codes. In RAS, these codes must be entered in the initial set-up steps of applications/projects.

The [UoO Policy Document on Externally Funded Research](#) outlines both the need for and the usage of the budget builder.

Panui Rangahau Māori – Māori Research Consultation

For researchers submitting to NTRCC work within your divisions, department, and your [Research Advisors](#) to develop your Vision Mātauranga Policy statements and to progress developing your ideas toward ethics approval. Document your thoughts regarding VM, relevance to Māori, and pathways to impact on society, this is all valuable thinking even in early stages. Your [Research Advisors](#) will be able to provide support in the first instance or may choose to escalate if necessary.

For Christchurch researchers: the Māori Health Advancement Programme for researchers at UOC has two components: a professional development programme and a new research review process. For all information about how to complete the professional development programme and complete the research review process please head to this page: <https://www.otago.ac.nz/christchurch/services/researchoffice/maoriconsultation>

For any queries or pātai please email the Kaitohutohu Rangahau Māori/Māori Research Advisor at: maorihealthadvancement.uoc@otago.ac.nz

Ethics and Regulatory Consents

The University requires that any research involving human participants and/or animals is conducted in accordance with the highest ethical standards. Where appropriate, compliance includes ethical approval from the relevant ethics committee. Please refer to our [Ethics and Regulatory Consents](#) webpage for further information.

Human Ethics applications and assessment via Conduit

All applications for Human Ethics consents and amendments (Health, Minimal Risk Health Research (MRHR), Category A Non-Health, Category B Low Risk Non-Health) must now be made via Conduit. This system replaces all previous methods of applying for Human Ethical consents. Note that applications for Animal Use protocols will remain via IARMS. Access the web-based system via [this link](#) and using your Otago University log in and password.

For recorded online training sessions, further resources and more information about Conduit on this SharePoint site: <https://otagouni.sharepoint.com/sites/Conduit/SitePages/training-home.aspx> The Research Integrity Office (who manage the Human Ethics application process) are happy to talk through questions or queries you may have about ethics applications. Contact them on humanethics@otago.ac.nz

Checklist for submitting grant proposals

Remember to include:

- **Copy of the application** (*signed by applicant, and HoD/Dean if requested by funder*)
- **Completed budget (in RAS)**
- **Evidence of Māori Research Consultation**
- **Ethical / Regulatory approvals** (*if required and already approved*)

Research and Enterprise then obtains the authorised signature of the University for you (if required), copies the application (when required), and sends it to the funding body by the due date.

University of Otago Bridging Scheme Register and Continuation of Research Achievement Grant (CRAG) for External-Grant-Funded Research-Only Staff

Further information about the **Bridging Scheme** which provides a mechanism to protect the continued contributions of Research-Only Principal Investigators can be found [here](#).

The **Continuation of Research Achievement Grant (CRAG)** supports highly productive research leaders within the University in the event of significant grant failure. Application Forms and Guidelines can be found [here](#).
