GUIDE TO ENROLMENT 2021

How to use this guide

The information in this Guide is in three main sections.

SECTION ONE

General information > pages 1–44

This section will lead you through the step-by-step process of enrolling at the University of Otago.

These steps include:

- things to consider when choosing your programme of study
- University and programme entry requirements
- creating your eVision account (through which you manage all of your study-related activities from admission to graduation)
- selecting your papers
- paying your fees
- useful information and contacts for University resources and support services.

SECTION TWO

Qualifications > pages 45–106

This section details particular qualifications and their required papers (bachelors', honours, diplomas and masters' degrees).

SECTION THREE

Paper prescriptions > pages 107–209

This section lists the available papers and provides a short description and content, teaching period and location, and other relevant details such as prerequisites.

Welcome

This publication provides you with all the information you will need to enrol at the University of Otago. It tells you what you need to do to complete your degree and it lists the papers that are available in 2021. You will need this information to plan your course and complete your application.

This publication also provides information about university life and describes some of the support services that are available at Otago. Please keep this guide handy because it will be a useful resource throughout the year. It should contain all you need to know, but please contact us if you still have any questions.

The University of Otago offers students excellence in teaching and research, an outstanding campus environment, and a large number of support services and recreational opportunities. The University takes pride in the achievements of its staff, students, and graduates.

While Otago prides itself on its face-to-face teaching and on-campus experience, and will continue to provide excellence in this way in the future, we have adapted extremely well in 2020 to a fully online environment for teaching during the COVID-19 pandemic. There is no doubt that our staff and students will benefit from additional innovative teaching practices that have developed as a result of the enforced change.

So whether you are enrolling for the first time or are a returning student, whether you will be studying in Dunedin or elsewhere, we welcome you to the University of Otago and to the unique learning experience that we offer.

See the Academic Key Dates page for a current list

Enrolling at Otago

To enrol at Otago you must complete the following process.

THINGS TO CONSIDER

1 Are you eligible for admission to the University?

To be eligible for admission you must:

- meet the age requirement (be at least 16 years old by the first day of classes in your period of study)
- hold (or expect to gain) a university entrance qualification
- meet language requirements.

See pages 8–12 or otago.ac.nz/entrance

Applies to: New students

2 What do you want to study?

Otago offers a wide range of study options.

Things to consider are:

- what you intend to study including your programme, specialisation (major subject or endorsement (if applicable), minor subject), and paper choices
- when you intend to start
- where you intend to study.

See pages 13–14 or otago.ac.nz/qualifications

Applies to: All students

3 What are the programme entry requirements?

Different types of programmes have different entry requirements.

- General bachelors' degrees are subject to the Entry Pathway system
- Specialised bachelors' degrees have their own specific entry requirements and admission procedures.

See pages 15–18 or otago.ac.nz/plan

Applies to: New or recommencing students; returning students applying for a new programme

COURSE ENROLMENT

7 University Admission

University staff will process your application including:

- verifying your identity
- checking your University Entrance qualification
- confirming that you meet age and language requirements.

They may also request any additional documentation that may be required.

See page 24 or otago.ac.nz/submitted

Applies to: New or recommencing students

8 Programme Admission

The Department or Division responsible for your programme will:

- assess your application
- request any additional documentation that may be required.

The University will inform you of the outcome and (if appropriate) make you an offer via eVision. Accept this offer to proceed to course enrolment.

See page 24 or otago.ac.nz/submitted

Applies to: New or recommencing students; returning students applying for a new programme

9 Review your details and supply extra information

Every year you must provide information required by the New Zealand Government and/or the University (e.g. study address, emergency contact details).

See page 26 or otago.ac.nz/enrolment

Applies to: All students

PAYMENT

13 Arrange payment of your fees

You can find all the information you need to organise payment in the Finance section of your eVision portal.

See pages 32–33 or otago.ac.nz/fees

Applies to: All students

A **new student** is someone who has never previously enrolled at Otago.
A **returning student** is someone who was enrolled at Otago in 2019 and/or 2020.
A **recommencing student** was last enrolled at Otago in 2018 or earlier.

APPLICATION

4 What are the application due dates?

While you can start the application process via eVision as early as May (see step 5), you must submit your application by certain due dates.

Make sure to take note of the due date that applies to the programme you're interested in – some programmes will not accept late applications.

See page 21 or
otago.ac.nz/important-dates

Applies to: New or recommending students; returning students applying for a new programme

5 Create your eVision account

eVision is the University's student management system, and is your one-stop shop for study-related information.

To create your eVision portal go to otago.ac.nz/qualifications select the programme you wish to take, click the  button and provide the required details.

See page 22 or
otago.ac.nz/qualifications
or log into evision.otago.ac.nz

Applies to: New students

6 Complete and submit your application

To continue with your application log into your eVision portal

- Under **My programmes and papers:**
 - Click **Complete application** (new students)
 - Click **Apply for another programme** (existing students)
- Complete each step until  appears
- Submit your application.

See page 22–23 or
otago.ac.nz/submitting

Applies to: New and recommending students; returning students applying for a new programme

10 Select and submit your papers

eVision will guide you through the process of selecting papers. Once you've selected your papers, and applied for any special permissions you may need, submit your paper selection for course approval.

See pages 27–29 or
otago.ac.nz/select

Applies to: All students

11 Course approval

Your paper selection will be reviewed and you will be advised via your eVision portal whether your paper selection has been approved or if any changes are required. If you do need to make changes, you will need to repeat step 10.

See page 30 or
otago.ac.nz/study/enrolment/course-approval

Applies to: All students

12 Complete the declaration

To finalise your enrolment you must complete the course enrolment declaration via eVision. You will receive a portal alert when this is available, and you will need to complete it by the date advised to avoid a late fee.

See page 31 or
otago.ac.nz/declaration

Applies to: All students

THINGS TO CONSIDER

1 Are you eligible for admission to the University?

This section outlines the admission requirements for new students.

Criteria for admission

To be eligible for admission at a New Zealand university you must:

- meet the age requirement – you must be at least 16 years old by the first day of classes in your period of study
- hold a university entrance qualification
- meet language requirements (see page 12).

Note: Students enrolling for Foundation Studies or solely for Interest Only are not required to hold a university entrance qualification.

University admission versus programme entry requirements

A university entrance qualification is essential for admission to the University. However, not all students with a university entrance qualification will necessarily be admitted. Programme entry requirements must also be met before an offer of place is made.

University entrance qualifications

The tables on the following pages describe the minimum requirements that you must meet in order to be considered for admission to a New Zealand university. To be offered a place at Otago you must also meet entry requirements for your chosen programme (see page 15). If you have previously undertaken tertiary study, your admission will also be subject to the Academic Progress Policy.

Scholarships

Scholarships are a good way to fund study and are open to a wide range of students. Not all scholarships depend on previous academic achievements.

The University of Otago offers entrance and undergraduate scholarships that recognise academic excellence, leadership qualities, ethnicity, financial hardship, disability and excellence in sporting or cultural pursuits. Applications open in July, and you will be considered for any scholarship that is open when you apply.

There is also a range of donor- and trust-funded entrance scholarships with applications opening at various times throughout the year. See our website for more information.

Other overseas entrance qualifications	<ul style="list-style-type: none"> • an approved overseas entrance qualification other than those specified above (e.g. US High School Diploma together with acceptable SAT scores). Contact AskOtago (see page 44) for more advice on specific qualifications.

Note: A non-refundable administration fee will normally be charged for applications under the overseas secondary qualifications category.

Prior tertiary study

If you have studied overseas or at another New Zealand tertiary institution, the University will consider your admission based on previous academic performance. Your previous records will be assessed under the Academic Progress Policy (see page 40) as if you had been enrolled at the University of Otago. The possibilities for this type of admission are listed below. Copies of supporting documentation (e.g. transcripts) must be supplied when you apply.

You have previously studied at, or are transferring from, another New Zealand university	Your entrance qualification will normally transfer from that university.
You have a tertiary degree	<p><i>Admission ad eundem statum at graduate level</i></p> <p>You may be considered for admission at graduate level if you have completed a degree or equivalent qualification overseas or at a non-university tertiary institution in New Zealand.</p> <p><i>Note: A non-refundable administration fee will normally be charged for applications under this category.</i></p>

Recognition of Prior Learning (RPL)	<p>You can seek RPL credit on the basis of non-credentialled learning, only in Māori Studies or Surveying. Please contact the relevant School.</p> <p><i>Note: A non-refundable administration fee will normally be charged for applications under this category.</i></p>

International students

If you are an international student contact AskOtago for specific advice on admission requirements or visit:

otago.ac.nz/international

Admission from Foundation Studies

Admission ad eundem statum at entrance level

You may be eligible for admission if you have completed the University of Otago's Foundation Studies Certificate, or another approved Foundation Studies programme in New Zealand. Contact AskOtago for advice on approved programmes, or to check if your intended Foundation Studies programme is suitable for admission.

Note: A non-refundable administration fee will normally be charged for applications under this category.

Special Admission – 20 years of age or over

You may be eligible for admission in this category if you:

- are aged 20 years or over on the first day of classes in the teaching period you wish to begin study
- are a New Zealand citizen, or
- are a New Zealand permanent resident or an Australian citizen or permanent resident, studying in New Zealand
- do not otherwise qualify for admission
- meet language requirements (if your first language is not English or Māori). See table on page 12.

Notes: If you are applying for programmes subject to the Entry Pathway system there are some extra requirements when applying for Special Admission. Please see page 17 for further information.

If you do not meet the normal age requirements but are otherwise adequately prepared for university study you may, in exceptional circumstances, apply for Special Admission. Restrictions may apply.

Special Admission is not available to international students.

A non-refundable administration fee will normally be charged for applications under this category.

Discretionary Entrance – under 20 years of age

You may be eligible for admission under Discretionary Entrance (on the basis of NCEA Level 2 or equivalent results or other academic achievement), if you are:

- a New Zealand citizen or permanent resident, or
- an Australian citizen or permanent resident (you must have completed your most recent year of schooling in New Zealand), and
- under 20 years of age on the first day of classes in the teaching period you wish to begin study, and
- not otherwise qualified for admission.

The minimum criteria normally required to be considered for discretionary entrance are:

- a minimum of 80 NCEA credits at Level 2 or higher with at least 16 credits in each of your top 4 subjects.
Each of these subjects should also include some merit and/or excellence credits. Three subjects must be from the approved list; and
- literacy and numeracy requirements as for NCEA.

You will need to provide a personal letter of application. A supporting letter of recommendation from your school is also required if you are applying directly from secondary school.

Discretionary Entrance if you have completed the equivalent of Year 13 overseas

If you have completed your Year 13 overseas you may be considered for Discretionary Entrance. You will need to provide evidence as outlined above and confirmation of your exchange. This could be in the form of a certificate showing the completion of an approved exchange programme or a letter from your overseas secondary school.

Discretionary Entrance and NCEA Level 3

You cannot be considered for Discretionary Entrance to take semester 1 or full-year papers if you have sought admission on the basis of NCEA Level 3 or equivalent or are undertaking Year 13 study beyond 1 June in the year immediately preceding enrolment. However you may apply to start in semester 2.

Discretionary Entrance in Year 13 or for Summer School

If you are undertaking Year 13 study you may be considered for Discretionary Entrance to take papers while still attending secondary school or to take Summer School papers. If you do not gain University Entrance via NCEA Level 3 or equivalent in the January immediately after application, you must withdraw from the University at the end of the Summer School. You may apply for re-admission in semester 2 or subsequently.

Notes: Discretionary Entrance is not granted automatically. You will need to show you are capable of undertaking university study, either by NCEA Level 2 or equivalent results, or other academic achievement (normally one semester of successful full-time academic study at NQF Level 4).

A non-refundable administration fee will normally be charged for applications under this category.

Applicants wishing to take the not-for-credit Jumpstart Physics course do not need to apply for Discretionary Entrance as enrolment in this course is separate from your application for formal university study.

Language requirements

If you are seeking admission to the University you must be competent in the use and understanding of written and spoken English.

You fulfil language requirements if you meet the admission criteria for:

- NCEA*
- University Entrance (via Bursary or older New Zealand UE qualifications)
- Discretionary Entrance
- Cambridge Assessment International Education*
- IB – International Baccalaureate* (studied in New Zealand)
- Australian secondary school ranking.

**Students studying NCEA and IB in New Zealand cannot use results from tests such as IELTS or TOEFL.*

If you do not meet the criteria for any of these methods of admission, and your first language is not English or Māori, you must normally provide results in one of the assessment methods listed in the table below.

- The minimum entry requirements listed below form part of the matriculation requirements for admission to the University. Admission to some courses may require higher levels of attainment.
- Other evidence of language proficiency may be considered to satisfy the admission requirements and will be evaluated on a case-by-case basis.
- The University does not accept responsibility for academic failure which can be attributed to a student's lack of competence in English.

Course advice and degree planning

Taking some time to organise your study plans or talking with Otago's course advice experts will help you map out your degree with confidence. Our experts can:

- help you make decisions
- show you where and how to start
- organise your plans
- help ensure you complete your qualification in a reasonable time
- match your course with your goals.

First-year and current students

If you aren't sure that you are doing the right course, are considering a change, or simply want to check in with someone, talking with an experienced student adviser can help get you on a track that's right for you.

Student advisers will talk with you to answer your questions, listen and offer advice on:

- study options
- personalised degree structures
- changing your course of study
- student support services that you may not be aware of.

Appointments are usually 30 minutes, so there's plenty of time to talk through all your questions. You can also come back as many times as you need.

Future students

Our Schools' Liaison team provides course advice to get you started. They can also tell you all about living and learning here at Otago.

You'll find liaison staff at careers expos and information evenings throughout the country. They also visit every secondary school in New Zealand twice a year:

- terms 1 and 2 – to talk about the opportunities for living and learning at Otago
- terms 3 and 4 – to help plan your studies.

Choose your programme

The University offers over a hundred different qualifications grouped into the following categories: bachelors' degrees, honours degrees, and postgraduate programmes.

General bachelors' degrees

A general bachelor's degree is a first or undergraduate degree which normally takes at least three years of full time study (or the equivalent in part-time study). For a list see page 15.

Every degree (with three exceptions – see below) needs a minimum of 360 points (typically twenty 18-point papers) and usually has a pyramid structure (e.g. 180 points at 100-level, 108 points at 200-level, and 72 points at 300-level). Most require the selection of one or more major subjects and many allow minor subjects as well. There is generally a wide range of papers to choose to enable you to tailor the programme to your areas of interest.

Exceptions to the normal pattern are three four-year degrees: the Bachelor of Arts and Science degree, the Bachelor of Arts and Commerce, and the Bachelor of Commerce and Science. Each of these three degrees requires at least 480 points and two major subjects – one each from those available for the two general areas for the degree (Arts and Science, Arts and Commerce, or Commerce and Science).

Admission to these programmes is by way of the Entry Pathway system (see pages 15–17).

otago.ac.nz/general-bachelors

Specialised bachelors' degrees

Specialised bachelors' degrees usually relate to a particular field of study and have their own specific entry requirements and individual admissions procedures. They generally have a restricted choice of papers associated with their particular subjects and structures. For a list see page 15.

For some specialised bachelors' degrees, admission to the programme is at first-year level. For others, admission is at second-year level (or sometimes even third-year), with the initial year of study normally consisting of a first-year course that is subject to the Entry Pathway system. For example, if you wish to enrol for the Bachelor of Pharmacy programme, you will initially apply for the Health Sciences First Year course, and will then apply to be admitted to the Bachelor of Pharmacy programme in your next year of study.

If you are considering applying to one of the specialised degree programmes, you should check the specific requirements for admission in the regulations for your intended programme on the University's website or in the University Calendar.

otago.ac.nz/specialised-bachelors

Honours degrees

In most subjects, the honours degree is a postgraduate degree, requiring an additional year of study after you have completed a general three-year bachelor's degree (e.g. BA/BA(Hons)). Honours degrees usually involve more papers in the major subject of your degree, and a research report or dissertation.

In other cases (particularly professional programmes), the honours degree is an undergraduate degree requiring additional work but taking no longer than the corresponding general degree.

All honours programmes have specific entry requirements. For more information see:

otago.ac.nz/honours

Postgraduate study

The University offers a wide variety of other postgraduate programmes:

- postgraduate certificates (especially in Health Sciences disciplines)
- one-year postgraduate diplomas
- masters' degrees (see otago.ac.nz/masters)
- Doctor of Philosophy (PhD) (see otago.ac.nz/phd)
- other doctoral degrees.

Further information about postgraduate study can be obtained from the relevant school or department or online from:

otago.ac.nz/qualifications

otago.ac.nz/postgraduate

Graduate diplomas

Graduate diplomas require at least one further year of study after you have completed your bachelor's degree. Most of the required papers are normally at undergraduate level, with at least 72 points above 200-level.

At Otago, most graduate diploma students study for the Diploma for Graduates (DipGrad).

For more information see:

otago.ac.nz/qualifications

Certificate of Proficiency

If you wish to take a paper that is additional to your degree requirements, or not being credited to a University of Otago qualification, or repeat a paper you have already passed to obtain a higher grade, you may be permitted to enrol for that paper for Certificate of Proficiency (COP). It is not a formal qualification and a physical certificate is not awarded.

Application processes for papers at undergraduate level and due dates are as for general degree programmes.

THINGS TO CONSIDER

3 What are the programme entry requirements?

In addition to holding a university entrance qualification (see pages 8–11), you will need admission to a specific programme or group of programmes, or be eligible to continue in those programmes, to be able to enrol in each year of study.

Admission to your programme depends on whether it is:

- a general undergraduate programme or course subject to the Entry Pathway system
- a specialised bachelor's degree programme
- a postgraduate programme.

The entry requirements that apply to programmes under the Entry Pathway system are detailed on page 16.

Specialised bachelors' degree programmes have their own specific entry requirements and admission procedures. They generally have a restricted choice of papers associated with their particular subjects and structures.

For information on the programme entry requirements for specialised bachelors' degrees see:

otago.ac.nz/specialised-bachelors

Postgraduate programmes are normally for students who have already completed a bachelor's degree. They also have their own specific entry requirements. See:

otago.ac.nz/postgraduate

For due dates see pages 4–5.

Student categories

All students, both domestic and international, fall into one of the following categories:

- **new students** (never previously enrolled at the University of Otago)
- **returning students** (enrolled at the University of Otago in 2019 and/or 2020)
- **recommencing students** (last enrolled at the University of Otago in 2018 or earlier).

New international students should contact the International Office for advice on admission to their intended programmes.

New and recommencing domestic students will be assessed for admission under the Entry Pathway system except when applying for specialised qualifications which have their own specific entry requirements.

All returning students may normally enrol again, subject to the standard provisions of the University's Academic Progress Policy and the admission regulations for the specific programmes they are applying for.

Entry Pathways

Admission to general bachelors' undergraduate programmes and courses for new and recommencing domestic students is by way of the Entry Pathway system.

Two pathways

There are two Entry Pathways:

- Preferential Entry which guarantees a place for high-calibre students (subject to gaining a university entrance qualification and fulfilling minimum age and language requirements), and
- Competitive Entry.

It is expected that most students admitted through the Entry Pathway system will enter via the Preferential Entry pathway. As long as enrolment patterns remain similar to previous years, a reasonable number of places will also be available via the Competitive Entry pathway.

The selection process includes an enhanced admission system for Māori and Pacific applicants. Particular consideration may also be given to applications from prospective students with disabilities if they supply the relevant information on the form provided for that purpose, available on request from AskOtago (see page 44).

Preferential Entry

Preferential Entry is available under the categories in the table below. Applicants who have previously undertaken substantial study at tertiary level will normally be considered on the basis of their tertiary GPA rather than their secondary school results.

In addition, application must be made to the University by:

- **10 December 2020** for study commencing in the Summer School or semester 1
- **15 June 2021** for study commencing in semester 2.

Preferential Entry automatically converts to a guaranteed place at Otago when you also meet university entrance requirements (including minimum age and language requirements). If you don't have Preferential Entry when you first apply you may qualify later when your examination results become available or you accept a place in a residential college.

The University may in limited circumstances agree to grant Preferential Entry to any applicant who does not meet any of the criteria below but who has achieved an appropriate standard in other recognised qualifications or study, or who has otherwise demonstrated strong ability to achieve to a high standard in study at the University.

Requirements for gaining Preferential Entry

No previous tertiary study undertaken

NCEA	NCEA Level 2 with merit or excellence gained in Year 12 or earlier, or NCEA Level 3 with merit or excellence, or NCEA Entry Score of 140 or above (see page 18)
Cambridge Assessment International Education	CAIE Entry Score of 140 or above (see page 18)
IB – International Baccalaureate	Diploma awarded with 26 points or more
Australian qualifications	ATAR of 80 or above OP of 10 or below
Older NZ qualifications	University Entrance by accrediting and/or an A or B Bursary or Scholarship
Other	Accepted a place in a residential college owned by or affiliated to the University of Otago, or Accepted a University of Otago undergraduate scholarship, or Māori applicant, or a Pacific applicant of Polynesian, Melanesian, or Micronesian descent, who has not previously studied at a tertiary institution but who holds or is studying towards a New Zealand university entrance qualification (you may be required to provide verified evidence of your iwi affiliations and/or of family ancestry originating from at least one relevant Pacific nation).

Previous tertiary study undertaken

Previous study at Otago or other New Zealand or overseas university	GPA of 4 (B-) for your most recent equivalent two full-time years of tertiary study
Previous study at a non-university tertiary institution	Considered on a case by case basis depending on the programme and level of study

Competitive Entry

New and recommending students who cannot initially be placed on the Preferential Entry pathway will be placed on the Competitive Entry pathway.

If you don't meet the criteria to transfer to the Preferential Entry pathway (see more information in the box to the right) you will remain on the Competitive Entry pathway and will be competing against other applicants. Applicants will be ranked primarily according to academic performance and will be offered places, in order of priority, if there are places available (subject to meeting minimum university entrance, age and language requirements).

Applications for admission via Special Admission or Discretionary Entrance will be considered under the Competitive Entry pathway only.

See page 11 for more details on Discretionary Entrance.

Special Admission

If you are applying via Special Admission to undertake a general bachelors' degree programme you must normally provide a brief curriculum vitae containing details of any work experience or other activity undertaken which you feel may help us assess your suitability for admission to the University, and information (and, where possible, supporting documentation) in relation to any qualifications held.

In addition, you will be asked to provide an essay of between 500 and 600 words on a topic that will be provided by the University. Instructions will be sent for the essay once you've submitted an application.

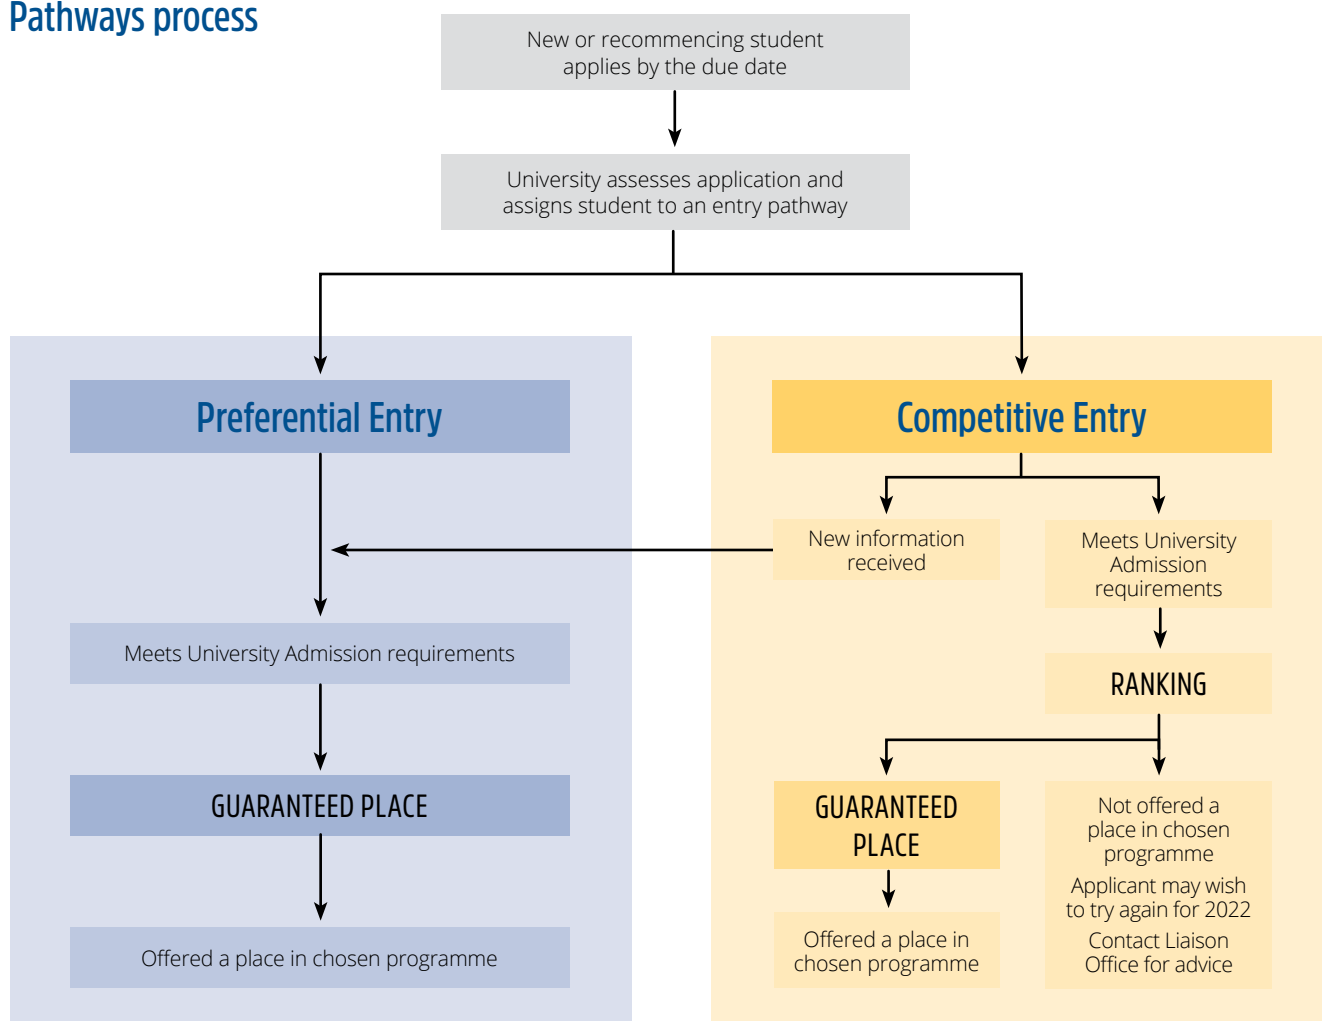

From Competitive to Preferential

If you're placed on the Competitive Entry pathway when you first apply you may qualify to be switched to the Preferential Entry pathway as further information becomes available (for example, when your examination results become available or you accept a place in a residential college). If this occurs, you will be notified via eVision.

It is expected that the majority of students will ultimately meet the criteria for Preferential Entry.

Pathways process

Entry scores

For most students being considered under the Entry Pathway system, an entry score is calculated, based on results for examinations taken in their final year at secondary school. These scores will be used to determine eligibility for Preferential Entry or rankings for Competitive Entry.

Calculating your NCEA entry score

- Your entry score will be calculated using your 80 best credits in up to five university entrance subjects taken at Level 3 (achievement standards only).
- No more than 24 credits in any subject can be used in the entry score calculation. Credits will be weighted according to the level of attainment.
- If you achieve fewer than 80 credits at Level 3 or above in up to five university entrance subjects, the entry score will be based on the credits achieved.

The entry score will be calculated by awarding points as follows:

- Excellence 4 points; Merit 3 points; Achieved 2 points

Example of entry score for an NCEA Level 3 student

Approved subject (Best 24 credits per subject)	Excellence credits	Merit credits	Achieved credits
English	3	8	6
Calculus	-	6	8
History	-	10	9
Music	8	6	4
Classical Studies	6	-	10
Subtotals	17	30	37
Best 80 credits	17	30	33
Calculate points	68 pts (17x4)	90 pts (30x3)	66 pts (33x2)
Entry score	224		

Note: Excellence and Merit credits are counted first, then Achieved credits as required to a maximum of 80 credits. In this example, only 33 of the Achieved credits may be counted.

Specialised degrees, honours degrees and postgraduate qualifications

If you are seeking admission for the first time to a programme that has its own specific entry requirements, you will not be assessed under the Entry Pathway system. Instead, you should check the specific requirements in the regulations for your intended programme on the University's website or in the University Calendar.

otago.ac.nz/qualifications

otago.ac.nz/calendar

In many cases the numbers of students who can be admitted are limited, and in all cases selection is primarily on the basis of academic merit.

Depending on the programme, applicants will be assessed on the basis of their school record (programmes with admission at first year), or on their standard of achievement in one or more years of university study (e.g. the Health Sciences First Year course for professional degrees in Health Sciences, or a completed degree for postgraduate study).

In some cases an audition, the submission of a portfolio of work or a research proposal might be required. Admission is subject to approval by the relevant Pro-Vice-Chancellor or Admissions Committee.

Calculating your Cambridge International entry score

- Your entry score will be calculated based on the New Zealand Cambridge International score table below.
- You can count no more than six subject units over the last two years of study, in subjects at AS, A2 or A level from subjects matching the NCEA University Entrance approved subjects.
- An A level counts as two subject units and an AS level counts as one subject unit. You can include only your six best subject units when calculating your entry score.

The entry score will be calculated by awarding points as follows:

Level	A	B	C	D	E
A	120 pts	100 pts	80 pts	60 pts	40 pts
AS	60 pts	50 pts	40 pts	30 pts	20 pts

Example of entry score for a student studying Cambridge International

Subject	Level	Subject Units	Grade	Tariff points	Entry score
English Language	A	2	B	100	100
Physics	AS	1	B	50	50
Biology	AS	1	B	50	50
Chemistry	AS	1	C	40	40
Mathematics	AS	1	D	30	30
French*	AS	1	D	30	nil*
Entry score	270				

* In this example, French is not included as only 6 subject units may be used to calculate the entry score.

Programme structure

While some degrees, such as Bachelor of Teaching, or the Health Sciences programmes usually have a set programme of papers, within the general bachelors' degrees (e.g. BA, BSc, BCom) there are many different ways to put a programme of study together.

Major subjects and endorsements

For many qualifications the name of the degree or diploma shows the area of specialisation (e.g. LLB, BPhy) and there may be restricted choice or even no choice in the papers taken.

For many others, however, the title of the qualification is more general (e.g. BA, BSc) but there is a choice of specialisations called either major subjects or endorsements.

With a few exceptions, most general bachelors' degrees need to have at least one major subject, which is the subject chosen as your main area of study.

In most general bachelors' degrees there is a requirement to take further papers, in addition to the papers required for your major subject, to achieve the necessary 360 points to complete the programme. These papers can often come from outside the major subject you have selected.

Double majors

With a double major, two major subjects are included in a bachelor's degree programme.

Two separate sets of 300-level papers are required but there may be some overlap of papers at 100- and 200-level. A double major programme may require more than 360 points in some cases and can extend beyond three years. A double major typically requires an increase in the number of 300-level papers from four to eight (which can involve a demanding workload if they are all taken in one year of study).

Varying numbers of compulsory papers are needed for major subjects, but if two separate groups of nine papers are needed for two major subjects, then those 18 papers plus two further papers will satisfy the degree requirements in most cases. Some combinations of subjects, particularly if minor subjects are also taken, might mean that more than 20 papers are needed.

Double majors produce a greater depth of knowledge in specific areas, but may reduce the variety of papers included in a programme. You are strongly recommended to seek advice before enrolling in a double major programme.

Minor subjects

In addition to a major subject, it is possible to have one or more lesser specialisations in other subjects recognised as minor subjects in BA, MusB, BPA, BTheol, BSc, BAppSc, BCom, BHealSc, BACom, BASc or BComSc programmes.

A minor subject need not be one normally associated with the degree concerned (e.g. Management may be taken as a minor subject in a BA programme). The requirements for minor subjects are on pages 98–105.

A minor subject generally involves a set of five papers worth 90 points, with at least three papers above 100-level, including one at 300-level. You cannot count papers towards both a major and a minor unless they are compulsory for both subjects at 100- or 200-level.

Double degree programmes and cross credits

It is often possible to study for two degrees concurrently in a double degree programme. In such cases, it is normally possible to cross credit (share) several papers between the two qualifications, so your overall workload is reduced. You may cross credit up to:

- 126 points between two three-year degrees (e.g. BSc, BCom)
- 180 points between a three-year and a four-year degree (e.g. BCom, LLB)
- 234 points between two four-year degrees (e.g. BASc, LLB).

Credit for study elsewhere

If you have successfully undertaken studies at another tertiary institution, you may be eligible for credit towards an Otago degree. For further information contact AskOtago.

ask.otago.ac.nz

Workload

A full-time course is generally between 54 (usually three papers) and 72 points (usually four papers) in any one semester or 108 and 144 points in any one year. If you intend to enrol for papers worth more than 162 points in a year, or 90 points in a semester, you must get permission from the Pro-Vice-Chancellor of the Division concerned.

In general, 1 point represents 10 hours of formal instruction or independent study, which can be a combination of lectures, tutorials, laboratories, assignments and reading. Some professional, honours and postgraduate programmes may differ from this.

Any course with a workload of fewer than 54 points in any one semester or 108 points in any one year is considered part-time. Part-time students are not normally eligible to receive student allowances.

Timetable

It is also important to consider your timetable when choosing papers to study. Timetable information for each paper is available on the paper page on the website via otago.ac.nz/papers

The University Web Timetable Viewer is available at: otago.ac.nz/timetables

Interest Only

Interest Only enrolment enables you to attend certain classes for your own general interest without undertaking any form of assessment or receiving any result or credit. It is not normally available if you are also taking courses for credit in the same enrolment period.

If you are enrolled for Interest Only you will normally be permitted to attend lectures only and would not normally attend tutorials, practical classes, or laboratories. You will not submit any assignments or sit any tests or final examinations.

If you wish to apply for a paper for Interest Only enrolment in 2021 you should contact AskOtago for assistance with completing the application process. Further information is available at:

otago.ac.nz/interest

Summer School

Summer School will run from 11 January to 19 February 2021, followed by an examination period from 20 to 25 February. Summer School offers a unique opportunity to broaden, redirect or speed up your degree, or to study something of particular interest. Many papers are unique to Summer School, while others are core components of degree programmes.

See page 210 for a list of Summer School papers. Further and updated information about Summer School is also available at:

otago.ac.nz/summerschool

The process for selecting a Summer School paper is the same as for semester 1 and 2. In Paper Selection you should choose both the Summer School paper, and any semester 1 and 2 papers you wish to take, and submit for course approval as soon as possible.

Summer School papers are equivalent to papers taught in other semesters, but because they are taught in just six weeks, the learning is very intense. For this reason, enrolling in Summer School papers is not normally recommended to students for whom this would be their first experience of university study.

One 18-point paper is considered full-time study. Able students may take up to 36 points.

THINGS TO CONSIDER

4 What are the application due dates?

It is important to apply for admission by the due date for your intended programme. Dates for first time enrolments for new and recommencing students, and returning students applying for a new programme or programmes are given below. A number of qualifications have earlier application dates than for general bachelors' degree programmes and for some late applications may not be considered.

Undergraduate

31 August	Bachelor of Teaching programme (first year)
15 September	Bachelor of Dental Technology (first year) Bachelor of Oral Health (first year) Bachelor of Radiation Therapy (first year) Bachelor of Dental Surgery (second year) Bachelor of Medicine and Bachelor of Surgery (second year) Bachelor of Medical Laboratory Science (second year) Bachelor of Physiotherapy (second year) Bachelor of Pharmacy (second year)
1 October	Bachelor of Laws (second year)
1 November	Bachelor of Social Work (third stage)
15 November	Bachelor of Surveying (second year)
10 December	New and recommencing students, and returning students applying for a new programme commencing in Summer School or semester 1 subject to the Entry Pathway system
15 June	Students taking only semester 2 papers for a programme subject to the Entry Pathway system

Postgraduate

10 December	Postgraduate honours Postgraduate diplomas and certificates Masters' degrees
-------------	--

No specific due dates Doctor of Philosophy (PhD)

For further information about postgraduate study see:

otago.ac.nz/honours
otago.ac.nz/masters
otago.ac.nz/postgraduate
otago.ac.nz/phd

If you are applying to enrol for the first time in a postgraduate or specialised degree programme with its own selective entry requirements, the due date for applications might be earlier than for applications to later years of the programme or for general degree programmes.

A **new student** is someone who has never previously enrolled at Otago.

A **returning student** is someone who was enrolled at Otago in 2019 and/or 2020.

A **recommencing student** was last enrolled at Otago in 2018 or earlier.

APPLICATION

5 Create your eVision account

eVision is the University's student management system through which you will complete all the steps in the application and enrolment processes.

If you've never applied to or studied at Otago

- Start at the Qualifications webpage otago.ac.nz/courses/qualifications/apply and select the programme you wish to take.
- When you're ready, click the  button, which is displayed only while a programme is open for applications, to begin your application. This will take you to the initial eVision login screen.
- Select  and provide the requested details. The University will use the email address you provide to contact you.

You will receive a message acknowledging your application to create a portal. This will be followed by an email to confirm that you now have access to your portal, using the email address and password you have provided.

If you are a returning or recommencing student or have previously applied to study at Otago

You should already have an eVision account.

If you're not sure, follow the process to create a new account (see left) and we will contact you if you already have a login.

A **returning student** is someone who was enrolled at Otago in 2019 and/or 2020.

A **recommencing student** was last enrolled at Otago in 2018 or earlier.

Start your application

If you're a new student

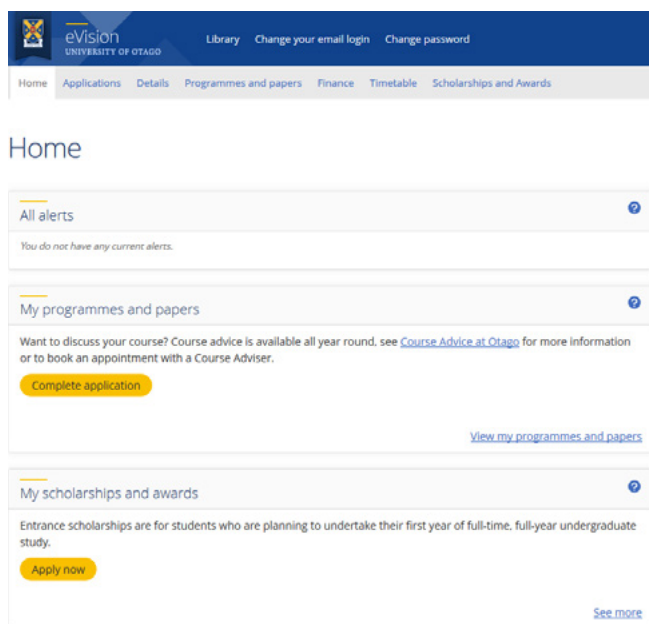

To complete your application, log into your eVision portal and click on .

You'll be presented with a number of steps and instructions (see next page). Complete each step until a check mark appears in the circle on the left-hand side. You may need to upload additional information such as evidence of previous study. For more details about submitting documents see page 25.

When the instruction changes from **Complete this step** to **Review this step** it means you have completed the step but are still able to edit the information. Once you submit the application, you won't be able to edit the information until your application has been processed.

If you are a returning or recommencing student

If you want to add a new programme, log into your eVision portal. Go to **My programmes and papers** (see right) and click **Apply for another programme** to provide the information for your application.

Major and minor subjects

Most general bachelors' degree programmes require you to select a major subject. It's not necessary to select more than one. You may also specify one or more minor subjects, but it's not normally mandatory to do so.

Help

If you have a query on a section click on the  in eVision for more details.

APPLICATION

6 Complete and submit your application

You need to complete all of the steps below using the yellow buttons then submit your application.

Welcome to your application

Complete all of the steps below using the yellow buttons.

When you're done

You will receive a confirmation email from the University acknowledging that your application has been submitted.

When the yellow button changes from **Complete this step** to **Review this step** you have completed the step but are still able to edit the information if needed.

In the last section of the application you will be asked to agree to a **formal declaration**. The declaration is a legal statement that you will abide by the University's rules. Once you have read and agreed, you can submit your application, which is ready for processing by the University. A message will appear on screen confirming that your application has been submitted.

APPLICATION

7 University admission

Once you have submitted your application you have started the enrolment process at Otago. Your application will now be assessed by the University for admission.

University staff will process each new student's application for university admission, which includes:

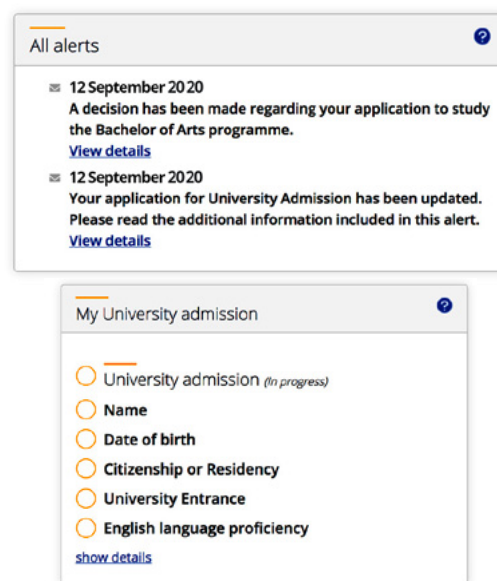

- verifying your identity and citizenship/residency status
- checking whether you hold or are eligible for a University Entrance qualification
- checking that you meet minimum age and language requirements.

If you need to provide any additional information or documentation, you'll be contacted via eVision and/or the email address you used when you applied.

If you are still at school and expecting to gain University Entrance through NCEA, CAIE or IB, in most cases the University will receive your results automatically when they are released. However, you may still need to provide evidence of identity or other information.

You will be able to see the status of your application for university admission and/or any entry pathway programmes under My University admission and My Programmes and Papers.

You'll be informed of the outcome of your application via eVision.

8 Programme admission

University staff will assess your application against the admission criteria and may request further supporting documentation through your eVision portal.

You will normally either: receive an offer of a place in your chosen programme(s), or be placed on the Competitive Entry pathway to await further consideration or assessment. Your place may be conditional upon providing further information, completing further steps, or gaining university admission.

It is important that you respond to any offer you receive. Accepting your offer will allow you to proceed to course enrolment.

Keep informed

Both steps 7 and 8 are completed by the University and you will be advised of the outcome via your eVision portal. To see if there have been any updates to your application, check whether the University has sent you an alert.

Communications from the University will be sent via eVision and/or to the email address you used when you applied. Returning or recommencing students will be contacted via their student email address.

You can check the progress of your application and find out if there is anything further you need to do, such as providing additional supporting information, through your eVision portal.

It is important that you check eVision and your email regularly throughout the application process.

Supporting documents

In the majority of cases, the University will use your National Student Number to collect the information it needs to identify you. However, this is not always possible.

If you're new to Otago

If the University is unable to match your details against the National Student Index (NSI), you may be asked to provide physical certified documentary evidence of your name, date of birth, and citizenship or residency status.

If you're a New Zealand or Australian citizen, and have never changed your name, an original or certified copy of one of the following will normally provide all the information required:

- the page of your passport showing your name and other details
- your citizenship certificate
- your birth certificate (if born in New Zealand).

A copy of your driver's licence will not be accepted as it does not provide evidence of your citizenship or residency status.

If you're not a New Zealand or Australian citizen, and have never changed your name, certified copies of both of the following will provide all the information required:

- the page of your passport showing your name and other details, and
- your residence visa/permit or student visa, or an original or certified copy of a statement from Immigration New Zealand confirming your citizenship and residency status.

Have you changed your name?

If the name on the NSI, your birth certificate, passport, or citizenship certificate differs from your current name, or the name in which you gained any qualifications relevant to your admission, you must also provide an original or certified copy of one or more of the following as formal evidence of each change:

- Marriage or civil union certificate
- Certificate of dissolution of marriage or civil union
- Deed poll
- Statutory declaration issued by a Registrar of Births, Deaths and Marriages

Note: Any document concerning a change of name must include both your previous name and the new name.

Having your documents certified

For all documents giving evidence of name, date of birth, name changes, citizenship or residency status, please:

Either

Take the original document and a photocopy to a person of suitable authority to be certified in English. They must indicate the authority with which the copy is certified as true and print their name under their signature on each page (see example).

Or

Bring the original copy to AskOtago in the Information Services Building, where a photocopy of the document will be made and certified for you.

Authority JUSTICE OF THE PEACE

Date 12.09.2020

JUSTICE OF THE PEACE FOR NEW ZEALAND

Documents should be certified as true copies of originals by an authorised person (i.e. a person listed in the Oaths and Declarations Act 1957 as able to take declarations) such as:

- Justice of the Peace
- Barrister or Solicitor of the High Court

The following may also certify documents:

- Court Registrar or Deputy Registrar
- Notary Public
- AskOtago or other University of Otago administrative or liaison staff
- Member of Parliament

In New Zealand you can check the Yellow Pages for a list of Justices of the Peace in your area. If you're from a remote area and do not have access to anyone in the approved categories, contact AskOtago for advice.

Have you studied at other tertiary institutions?

If you have been at another tertiary institution you should upload your transcript via your eVision portal when you apply, or as soon as possible after results become available.

As Otago cannot normally request records from other institutions on behalf of students and cannot match this information on the NSI, it is your responsibility to provide your transcript. If you have completed papers at a tertiary institution you may apply for credit on the basis of passes achieved; a fee is charged for such applications. Submit your application via the **My Details** section in eVision once you have been accepted for enrolment.

Submitting your documents

You can submit any identification documents at AskOtago or post them to Group Leader Student Administration, Student Experience, University of Otago, PO Box 56, Dunedin 9054.

ENROLMENT

9 Review your details and supply extra information

While eVision allows you to update, or request changes to your personal and contact details (e.g. name, citizenship, email address) at any time, you are given the chance to review this information during course enrolment.

The University must also collect “Information required for study” annually for the New Zealand Government and/or University purposes. Answering these questions is mandatory and can cover such things as your study address and emergency contact details.

If you're an international student studying in New Zealand, you will need to answer additional questions about your visa and apply for StudentSafe travel and health insurance.

Study address

It is important that you confirm your study address so we can contact you if needed.

Submit for course approval

Once you have selected all your papers, eVision shows you a summary of your course, which includes any warnings about your choices such as a high workload and timetable clashes.

Your provisional timetable will be generated showing you the times and days for all of your classes. It will also tell you if you have any timetable clashes. It is important to note that this information is provisional, and timetable information may change between the selection of your papers and the start of classes for each semester.

Note: Not all papers are timetabled through eVision. Papers offered through the Christchurch, Wellington and Southland campuses, as well as some postgraduate and other papers may be timetabled separately.

You're also given the opportunity to view your **Course Fee Assessment** detailing your course tuition fees based on your current paper selection and enrolment fee status.

Once you have submitted your papers for approval you can review your selection by going to **My Programmes and Papers**. If you re-enter paper selection, you'll need to resubmit your papers for approval regardless of whether you have made any changes.

Timetable clashes

A timetable clash is when you have two (or more) teaching events scheduled at the same time. Paper selections that include timetable clashes may not be accepted.

To make changes to your papers select **Change papers** at the end of the **Review and confirm** screen.

Note: The University does not encourage timetable clashes. You need to carefully consider the effect on your workload and should only apply if the timetable clash is absolutely necessary.

Special permission and departmental permission

Requests for special permission are likely to be for papers:

- where you don't have a prerequisite or corequisite
- that are not normally available for the programme you are completing
- where you wish to repeat a paper to achieve a better grade
- where you wish to repeat a special topic paper (with different content).

11 Course approval

Once you have submitted your choice of papers for approval, it will be reviewed to ensure that it meets the requirements for your chosen programme. If everything is fine, your selection of papers will be approved and you will receive a message in your eVision portal advising this.

In some cases, a staff member will contact you to discuss your course selection to make changes to papers, or to allow for exceptions to your programme or workload.

They may also recommend that you discuss your course with an adviser. Our course advice website has more details on what that may involve:

otago.ac.nz/courseadvice

Review the outcome of course approval

You will be advised via your eVision portal whether your course has been approved or whether changes are required. You can review your course, along with notes about any changes and information about your fees.

ENROLMENT

12 Complete the declaration

To complete course enrolment you need to accept the declaration in your eVision portal.

Completing the declaration will allow you to access University resources.

The declaration becomes available from 1 January. Once your course has been approved, and you have been granted admission to the University, you will be able to view and complete the declaration. International students will also require a current visa before being able to view and complete the declaration.

You will receive an alert in your eVision portal when the declaration is available to complete.

To complete the declaration, select the **Course Enrolment** button in your eVision portal and complete the **Declaration** step.

Read, then accept the declaration which is a legal statement that you will abide by the University's rules (e.g. payment of fees). Accepting the declaration completes your course enrolment and allows you access to University resources. You can now proceed to pay your fees and obtain your student ID card.

You will need to complete the declaration by the due date given in your eVision alert to avoid a late fee.

It is important that you confirm your study address when you complete the declaration so we are able to contact you if needed.

Student ID card

Your student ID card will allow you to access a range of resources and systems. You need to wait at least one working day after completing the Declaration before your card can be issued. For more information see:

PAYMENT

13 Arrange payment of your fees

Once your course is approved, if you are required to pay fees, your invoice will be available on the **My Account** page of your eVision portal with all the information you need to organise payment. Fees should be paid, or loan arrangements finalised, before you begin your studies.

Fees-free study

Most domestic students who are new to tertiary education will be eligible for one year of fees-free study at the University of Otago in 2021.

For information about fees-free study, and to find out how to check your eligibility, please visit our website:

otago.ac.nz/fees-free

Most fees fall under the following categories: tuition fees, student services fee, and non-tuition (administration) fees. Fees are charged on a year-by-year basis.

Tuition fees

Tuition fees for 2021 will not be finalised until November 2020. Once the fees have been set, they will be available at:

otago.ac.nz/tuition-fees

The tuition fees listed below are for 2020 and for domestic students only. Tuition fees for international students are available at: otago.ac.nz/international/fees

Domestic tuition fees (2020) (per 1.0 EFTS)

Undergraduate (excluding Honours)

Arts, Languages, Theology, Mathematics, Education	\$6,027
Commerce, Teaching	\$5,755
Law (excluding Honours)	\$6,723
Computer Science, Geography, Information Science, Music, Science	\$7,202
Physical Education	\$7,202 to \$8,326
Health Sciences, Pharmacy, Surveying	\$8,326
Dentistry	\$16,011
Medicine	\$16,011
Physiotherapy – Years 2-3 inclusive	\$7,202
Physiotherapy – Year 4	\$8,405

Postgraduate Taught

Arts, Languages, Theology, Mathematics, Commerce	\$8,189
Law (Honours)	\$7,856
Computer Science, Geography, Information Science, Science	\$9,398
Health Sciences	\$11,430
Dentistry (MDS)	\$37,439

Postgraduate Thesis and Honours

Arts, Languages, Theology, Mathematics	\$6,853
Commerce	\$6,608
Law (thesis only)	\$7,410
Computer Science, Geography, Information Science, Music, Science	\$8,002
Health Sciences, Pharmacy, Surveying	\$10,150
Medicine	\$10,150
Dentistry thesis (Non clinical)	\$10,357

Generally, your total tuition fee is made up of the collective fees for each paper for which you are enrolled.

The fee for the subject category of a paper and its EFTS value will determine the fee of the paper. For example, if an Accounting paper has a value of 0.15 EFTS, multiply \$5,755 by 0.15 to get the fee for the paper (\$863.25). The degree/diploma/course has no bearing on this calculation. In practice, a year's course may comprise papers from more than one subject category, such as a mixture of Commerce and Science papers.

Pro rata fees for thesis students

You should note that the fees you will be expected to pay upon initial enrolment for your thesis study will be calculated on a pro rata basis according to the date you commence your studies. For example, if you commence your studies on 1 May, your fee will be 8/12ths of the usual fee. The accuracy of this date is very important. If your starting date changes after you have finalised your enrolment, please notify Student Administration at masters@otago.ac.nz

You will be charged full fees in subsequent semesters or years of study. A similar pro rata calculation will be made upon completion of your studies, depending on the actual date of submission of your thesis. Please note that you are normally required to be enrolled at the time of submitting your thesis.

Important dates

You must pay your total fees account to the Revenue Management Office no later than:

15 January 2021 for Summer School papers

10 February 2021 for study beginning in the first semester

10 July 2021 for study in the second semester only

You won't have access to all University resources if you're listed as a debtor to the University.

Non-tuition fees

Administration fees

The following non-refundable fees (GST inclusive) may be charged (where applicable):

Fee for late payment of fees	\$100
Plus additional charge per month or part thereof	\$25
Late paper submission	\$120
Late declaration completion	\$120
Application for Special Admission	\$93
Application for Discretionary Entrance	\$93
Application for admission ad eundem statum	\$93
Credit for study elsewhere	\$93
Extramural enrolment	\$93
Final Examination Only enrolment (per paper)	\$93
Reinstatement of enrolment after cancellation	\$59
Tuition refund fee (for students who withdraw from their entire course)	\$100

Notes: Fees listed above are for 2020 and are subject to change. A complete list of administration fees is available at otago.ac.nz/fees

Student services fee

The University of Otago is required by Government regulation to ensure a range of services is available to students and these are funded through the charging of the student services fee.

Category	2020 Student Services Fee (GST inclusive)
Dunedin	\$830.02
Wellington	\$165.51
Christchurch	\$265
Southland	\$136.68
Distance (not living within commuting distance of an Otago campus)	No fee
Summer School	\$138.33

Notes: Fees listed above are for 2020 and are subject to change.

The Otago University Students' Association (OUSA) membership is voluntary in 2020 and there is no charge for membership.

Further details regarding the student services fee is available at: otago.ac.nz/ssf

While the student services fee is compulsory, some exemptions may apply to you. More information is available at: otago.ac.nz/exemptions

Paying your fees

You can pay your fees in any of the following ways:

- by internet banking or telegraphic transfer
- by EFTPOS (subject to individual bank limits and available in Dunedin only)
- by Government student loan
Applications for Government student loans are available from StudyLink. Please apply online at: www.studylink.govt.nz
Ensure that you authorise the direct transfer of your compulsory fees from your loan account to the University
- by internet banking or telegraphic transfer
- by scholarship, staff study assistance and third party payments.

If your tuition fees are to be covered by a University of Otago scholarship and it has not been applied to your fee account, this means internal processing may not yet be completed. Please note University of Otago scholarships are not applied to your tuition fee account until you have completed course declaration.

Late payment fee

If you pay your fees or have authorised payment by direct transfer from your Government student loan after the due date for payment, you may be charged a \$100.00 late payment fee plus \$25.00 per month thereafter until the debt is paid in full (subject to change).

Fee changes if changing your course

If you change your course after applying, your fees will be adjusted automatically, and a refund or further invoice will be sent to you as appropriate.

Any change of course may affect your Government student loan and/or student allowances entitlement. The University's complete fees policy, including details concerning withdrawals and refunds, is published at:

otago.ac.nz/tuition-fees

Fees receipts

Tuition fee receipts are available in your eVision portal once payment has been received. To request a tuition fee receipt for student visa application purposes please email student.finance@otago.ac.nz

Changing your course

If you wish to change your course after you have completed the course enrolment declaration, you will normally need to complete a Change of Course form.

The information below applies only after you have completed the course enrolment declaration. If you need to make changes before completing this step, you can do so via your eVision portal.

Adding, deleting or swapping papers

If you wish to add, delete, or swap papers, you should do so by completing the online Change Request form, or collecting a Change of Course form from AskOtago (see page 41). For more information see otago.ac.nz/changingyourcourse

Adding, deleting or withdrawing from papers has implications for your fees, StudyLink loans and allowances, and academic record. It may also affect your immigration status if you're an international student.

Adding papers

You can add papers to your course of study by the relevant deadlines. You should check for possible timetable clashes before adding papers by viewing timetable information on the University's Web Timetable Viewer at otago.ac.nz/timetables

Additional papers will be added to your academic record and will increase the fees you're required to pay or count towards your fees-free entitlement.

Deleting papers

If you delete an individual paper from your course of study by the relevant deadlines you will be entitled to a refund of tuition fees for that paper and it will be removed from your academic record. Deleted papers do not count towards fees-free entitlement.

If you choose to discontinue your study and delete all of your papers by the relevant deadline, your tuition fees paid will be refunded, less a Tuition Refund fee.

Withdrawal from papers

You can withdraw from a paper after the deadline for deletion but you won't normally be eligible for any refund of fees and your liability for any unpaid fees will remain. Withdrawn papers count towards fees-free entitlements.

If you withdraw from a paper by the relevant deadlines the paper will continue to be listed on your academic record but will have "Withdrawn" noted beside it.

Changing your major and minor subjects

If you wish to make a change to your major or minor subjects, you should do so by completing the online Change Request form, or collecting a Change of Course form from AskOtago. For more information see otago.ac.nz/changingyourcourse

It's your course

Through eVision you can check the papers you are enrolled for and whether or not any requested changes have been processed. It is your responsibility, and in your best interest, to ensure that your course of study is in accordance with the relevant regulations in the University Calendar (and summarised in this Guide in most cases) and that your enrolment correctly records the papers you are taking.

Important dates

There are strict deadlines for completing changes to your course.

Adding papers to your course by 5pm on:

- 18 January 2021 for Summer School papers
- 5 March 2021 for semester 1 and full year papers
- 16 July 2021 for semester 2 papers

Deleting papers from your course by 5pm on:

- 18 January 2021 for Summer School papers
- 19 March 2021 for semester 1 papers
- 26 March 2021 for full year papers
- 30 July 2021 for semester 2 papers

Withdrawing from papers by 5pm on:

- 3 February 2021 for Summer School papers
- 7 May 2021 for semester 1 papers
- 17 September 2021 for semester 2 and full year papers

Changing your programme

If you wish to change your programme (i.e. add or change qualifications, whether or not any papers are being changed) you will first need to apply via eVision for each new programme.

Once you have received and accepted an offer to the new programme, you can add papers by completing the online Change Request form, or collecting a Change of Course form from AskOtago (see page 41).

Exceptional circumstances

Deletions or withdrawals after the normal deadlines will be permitted only in exceptional circumstances that are beyond your control and which prevent you from completing your course.

If you wish to submit an application for withdrawal from a paper or papers due to exceptional circumstances, you should follow the application process described on the Exceptional circumstances webpage:

otago.ac.nz/exceptional-withdrawal

Applications must include independent supporting documentation, such as a medical certificate (which should be provided within 14 days of the application).

Withdrawals in exceptional circumstances after the deadline for deletion will be listed on your academic record but have “Withdrawn Exceptional” noted beside them. No result is recorded for these papers, and they do not count towards your official Otago grade point average.

In the case of withdrawals in exceptional circumstances after the normal deadlines for deletions and before the deadlines for ordinary withdrawals, a partial tuition fee refund (up to a 50% maximum) may be applied. If you are studying under fees-free provisions papers withdrawn under exceptional circumstances will normally continue to be counted towards your fees-free entitlement.

Withdrawal from papers in exceptional circumstances may affect your eligibility for StudyLink loans and allowances or, if you are an international student, your immigration status.

Abandoning study

If you choose not to attend classes or submit assessments or sit examinations, and do not use a Change of Course form to have a withdrawal officially recorded by the deadline (see page 34), you will remain enrolled but will be likely to have a result of “Fail” on your academic record for the papers concerned. Your liability for any unpaid fees will remain.

International students

Please remember if you withdraw from your course, or decide to drop a paper, your immigration status may be affected. Please see the Student Visa Co-ordinator or an International Student Adviser at the International Office to discuss your plans before making any changes to your course.

Course advice

If you want to make changes to your course, but are unsure about any aspect of your study, we have dedicated student advisers who are here to help.

For more details or to make an appointment contact AskOtago (see page 44) or see the course advice website:

otago.ac.nz/courseadvice

There may be times when the University needs to contact you. Communications from the University in relation to your application and enrolment may be made through:

- eVision
- email, either to the personal email address you provided when you created your eVision account (for new students), or to your student email address if you are a returning or recommencing student
- by phone (call or text).

It is important that you ensure your contact details are kept up-to-date and that you check both your eVision portal and the relevant email address throughout the application and enrolment processes.

Once you have completed your declaration you will be advised of your student email address (new students). You should use this to communicate with the University rather than your personal email address.

Preparatory and bridging courses

The following pre-university courses offer students assistance in particular areas to prepare for university study. These courses cannot be credited towards a degree or other qualification.

Preparatory Courses in Chemistry

Recommended for students with limited background in the subject and are intended as preparation for 100-level Chemistry.

CHEM 150 Concepts in Chemistry is an 18-point course running during Summer School. The first four weeks are distance taught, and the remaining two weeks are taught on the Otago campus. The course comprises a mix of theoretical and practical aspects of Year 12 and Year 13 chemistry. Only students who have achieved less than 14 credits of Level 2 chemistry (or its equivalent) will normally be eligible to enrol for this course. CHEM 150 is the recommended preparatory course for students intending on enrolling for CHEM 191 The Chemical Basis of Biology and Human Health, as part of the Health Sciences First Year programme at Otago.

Introductory Chemistry is for anyone who wants a basic understanding of chemical principles. It is also of value to those wishing to catch up on secondary school level chemistry before embarking on 100-level chemistry courses at university. The course, which comprises a mix of Year 12 and Year 13 chemistry, can be started at any time and completed at the student's own pace. Its distance-taught format means there are no accommodation costs – you do not have to attend the University of Otago to take this course. The course is not-for-credit, which means that it cannot be credited towards a university degree.

Normally students who have completed the Introductory Chemistry course will not then be approved to enrol for CHEM 150.

English for Speakers of Other Languages

The University of Otago Language Centre offers the following courses:

- General English, IELTS, TOEIC, English for Academic Purposes (Term 2 only), and English for Otago. Success in the General English programme will meet the language requirements for entry to Foundation Year.
- English for Otago has two papers: English for Undergraduate Academic Purposes and English for Postgraduate Academic Purposes. Success in these papers meets the language requirements for entry to the University.

Some of our courses are also available online.

Beginning study after you have left formal education some time ago can be a little daunting. We invite you to meet with staff from HEDC Student Learning Development to get your studies off to a great start. You can attend an informal drop-in session run in the first few weeks of semester. These one-hour sessions give you an opportunity to network with other students and provide a friendly introduction to some aspects of university life, such as:

- transitioning to university (what to expect)
- note-taking
- managing the first assignment
- balancing life and study.

University of Otago Foundation Year

The University of Otago offers a 26-week Foundation programme consisting of 10 academic papers. Students who successfully complete the two 13-week semesters are awarded the Foundation Studies Certificate. This certificate guarantees students entry to their chosen University of Otago first-year course (except those with limited intakes) and is recognised by all New Zealand universities as an entrance qualification.

There are three intakes each year: February to October; June to February and October to June. Students may study any one of the four academic streams which align with the four University of Otago academic divisions:

- Business/Commerce
- Health Sciences
- Arts/Humanities
- Sciences/Applied Science/Life Science.

Students wishing to study Health Sciences must start in either February or June. All other students may start in any of the three intakes.

To be admitted into Foundation Year students must meet the English language and academic requirements. Students who do not meet these requirements may be able to complete a General English and/or Bridging programme as a pathway to Foundation Year. The Bridging Programme is a six-week course designed for students who need to increase their chances of success in Foundation Year.

Foundation Year streams provide outstanding academic preparation for studies in all disciplines offered at the University of Otago. Data collected over recent years shows that students who pass the Foundation Studies Certificate consistently outperform other students in their first year at university.

Lectures and Science/Health Science laboratories are held on campus in university facilities alongside undergraduate classes. Foundation Year tutorials are taught in the dedicated, state-of-art University Plaza building situated on the university campus. Maximum class size is 18 students. Weekly one-on-one consultations are an integral part of the programme. Domestic and international students are integrated in all classes and in recent years this has been in a pleasing 50:50 balance.

Online delivery

Foundation programmes are available online via Zoom, Microsoft 365 Teams and Blackboard. Students are issued with comprehensive curriculum books for each paper at the beginning of the semester.

New Accelerated Programme in Commerce and Arts

A new one-semester Accelerated Foundation Programme will start in October, 2020. This 14-week course is for students with superior English language skills (minimum overall IELTS 5.5 with at least 5.5 in reading & writing or equivalent) and completion of high school year 12 with minimum B average in 3 relevant subjects. Applicants will be accepted on a case by case basis.

Students will study 8 papers during this intensive course which includes a one-week recess for mid-term assessments and a further week at the end of term for final exams. Successful students will be awarded our standard Foundation Studies Certificate which is recognised by all New Zealand universities as an entrance qualification.

Student Support

Students in the Foundation programmes are offered full student support services, a comprehensive orientation and a weekly programme of student activities and events. A student ID card gives access to University of Otago resources including libraries, 24-hour computer suites; modern gymnasias at Unipol, student health, clubs and societies, student cafés and provides discounts on shopping, entertainment and travel.

A homestay placement service arranges quality homestay accommodation for all students.

Further information, including tuition, homestay and other costs, can be viewed at:

University of Otago Foundation Year Scholarship Programmes

Tū Kahika

Tū Kahika is an annual scholarship for young Māori who aspire to study toward a career in health. Tū Kahika students are supported through the 26-week Foundation course to prepare for further tertiary study the following year in either Health Sciences First Year (HSFY) or other health-related programmes.

At its core Tū Kahika is about whānau. Students are provided with a wide range of support to gain essential university study skills and successfully complete the Foundation Year.

Tū Kahika students receive:

- guaranteed subsidised accommodation in a University of Otago residential college (Arana or Studholme)
- \$10,000 towards accommodation expenses
- comprehensive support into university study and student life
- added academic, cultural and pastoral support
- preparedness for further tertiary health sciences study
- professional and cultural development.

POPO Foundation Scholarship Programme

The POPO Foundation Programme (PFP) Scholarship is a Health Sciences support programme for Pacific students. PFP students are supported through the 26-week Foundation course to prepare for further tertiary study the following year in either Health Sciences First Year (HSFY) or other health-related programmes.

POPO students receive:

- a guaranteed place in a University of Otago residential college
- a subsidy towards the accommodation fees at a University of Otago residential college
- private tutorials and mentoring programme
- a dedicated full-time programme co-ordinator.

Useful information

The following information will be useful to you during your course of study.

Communications from the University

Important information is sent out during the year to enrolled students. It is your responsibility to ensure you receive this by checking the following main communication channels regularly:

- Your student email address
- Your eVision portal
- Learning management systems used in your papers (e.g. Blackboard, Moodle)
- The University of Otago website
- The student app

Once you have received your University email address you should use this, rather than your personal email address, to communicate with the University. It is also important that you keep your physical address details in eVision current.

For more information see the University's Student Communications Policy, available at:

otago.ac.nz/study/communications

Student ID cards

In most cases, you will have completed the enrolment process including the online course enrolment declaration, before your arrival on campus, allowing you to obtain your student ID Card as soon as you arrive.

Students must obtain a University identification card from the ID Card Office in the Information Services Building, in person for on-campus students or, if you are not studying in Dunedin, by mail using the Distance student ID card application form, or online for returning students. You will need this card to access many of the University's facilities. Your ID card will provide proof of identity, enable you to borrow items from the Library, provide after-hours building access and on-campus computing, and allow you to access a variety of student services including Student Health and Unipol. You will need your ID card at examination time as proof of identity. For further information contact AskOtago.

Your username is printed on the card and together with your password provides electronic access to library databases, catalogues, and course materials. If you have been previously enrolled at Otago, your password will remain the same. If you forget your password contact the ITS Service Desk (see page 43).

Preliminary lectures and teaching timetable

Departments will hold preliminary lectures for many, but not all, first semester and full year papers on Friday 26 February 2021 to give you information about the papers for which you are enrolled.

Not all papers have preliminary lectures and they are not held for second semester papers. A timetable of preliminary lectures is available at otago.ac.nz/prelims

Students will normally be able to access their personal timetable on eVision and the student app before the semester begins but information on lecture times can also be found by searching individual papers at otago.ac.nz/subjects

Textbooks

A list of prescribed textbooks will be available on the University Book Shop's website from mid-November for Summer School papers and mid-February for other papers. Both new and second-hand prescribed textbooks are usually available from the UBS in Dunedin and may be purchased over the counter or on their website.

Textbook Department, University Book Shop (UBS)

A book exchange for the buying and selling second-hand textbooks is organised by the Student Christian Movement at the beginning of each academic year. Details are advertised on campus.

Code of Student Conduct

The Code is under review; please check the website for the most up-to-date version.

The purpose of the Code of Student Conduct is to promote the University's academic aims and a sense of community through the cultivation of mutual respect, tolerance and understanding. To this end, the University expects that students will not engage in behaviours that endanger their own or others' safety and well-being.

Students are expected to conform to the standards contained in this Code of Student Conduct off-campus as well as on-campus.

The University reserves the right to pursue through its disciplinary procedures matters that are also being, or may also be, addressed by the legal system or under the University's Ethical Behaviour Policy processes.

The basic rules of conduct require that no student shall:

1. disrupt any teaching, study or research or the administration of the University either wilfully or by engaging in conduct which ought reasonably to have been foreseen would cause disruption;
2. wilfully obstruct any member or employee of the University in academic work or in the performance of duties;
3. wilfully misuse, damage or deface, steal or wrongfully convert to the student's own use any property of the University or of any member of the University;
4. wilfully acquire by theft or deception the benefits of any service provided by the University or any academic advantage;
5. engage in actions that:
 - (a) amount to assault or which result in, or can be reasonably expected to result in, harm to a person or persons; or
 - (b) are unreasonably disruptive to other members of the University or the local community; or
 - (c) result in, or can be reasonably expected to result in, damage to property of any person; or
 - (d) are otherwise unlawful;
6. threaten, intimidate or harass another person or group;
7. fail to comply with the proper directives of a University official, including refusing to identify oneself;
8. lie to, or misrepresent information to, the University or any University official;
9. fail without good reason to co-operate with the University's disciplinary procedures;
10. fail without reasonable cause to comply with any penalty imposed under the Discipline Statute;
11. be party to or attempt to commit an act of misconduct as set out in the foregoing rules.

Note: Secondary rules of conduct include regulations concerning the Library, computer use, traffic and parking and other rules and regulations promulgated from time to time under the authority of the Council.

Explanatory notes

The actions proscribed in clause 5 encompass a wide range of antisocial behaviour, including but not limited to:

1. Vandalism and behaviours that result in property damage
2. Setting fires without regard for personal safety or the security of property
3. Throwing or firing projectiles, including glass bottles
4. Generating noise that is unreasonably disruptive to others
5. Assault
6. Non-consensual physical contact of a sexual nature
7. Threats, intimidation or harassment directed towards another person or group

8. Abusive behaviour directed at others based on race, religion, gender, disability, age, economic status, ethnicity, national origin, sexual orientation or gender identity
9. Organising any initiation event or ceremony that jeopardises your fellow students' well-being, personal safety, or encourages breaking the law.
10. Theft or attempted theft of property and/or possession of stolen property
11. Forging documents and signatures.

Privacy of personal information

The University will collect, use, store, and disclose personal information relating to students in accordance with the provisions of the Privacy Act 1993. Where practicable all such personal information is obtained directly from students, or from their nominated agents. Additionally, information may be obtained or verified through relevant government or education agencies, including the New Zealand National Student Index.

Information will be stored on University files and databases and all practicable security measures will be maintained. A unique identifier will be assigned to each student, which will be used in conjunction with a secondary means of identification or password/PIN.

Staff members and other personnel within the University or within agencies under contract to the University will have access to students' personal information for purposes relevant to normal University operations including but not limited to: student recruitment, marketing, admission, enrolment, study, academic progress, tuition fees and charges, establishing and maintaining academic and graduation records, assessment, academic agreements (exchange and study abroad partners, scholarship providers or sponsors, programme delivery partners), academic advice and support, student services, discipline, security and safety, Library and IT services, managing students' association membership and records, managing records of graduates, and other alumni, and managing and improving the quality of services provided by the University.

In order to conduct its proper business and as required under the Education Act 1989 and other laws, regulations, and contractual agreements by which it is bound, the University may use the student information it holds and may disclose information to external agencies such as government departments, bodies responsible for course moderation and professional accreditation or membership, agencies for financial support and pastoral care, and university student and alumni associations.

Such agencies include, but are not limited to:

- the Ministry of Education (information will be recorded on the National Student Index and used in an authorised information matching programme with the New Zealand Birth Register and may also be supplied to Statistics NZ)
- the Ministry of Social Development (including Work and Income New Zealand and StudyLink)
- the Inland Revenue Department
- Te Puni Kōkiri
- Immigration New Zealand (for students who are not New Zealand citizens)
- Other education organisations for the verification of academic records
- relevant professional bodies
- course moderation or accreditation bodies
- the Tertiary Education Commission
- the Ministry of Trade and Enterprise
- Education New Zealand

Information provided to external agencies is either student-specific (typically name, date of birth, current contact details and academic or graduation details) or cohort-specific (aggregated or statistical information that does not identify individuals).

Where provision or disclosure of information is voluntary or falls outside the scope of information that the University is permitted to collect, store, use and disclose under the Privacy Act 1993, students will be advised and their consent will be obtained prior to the provision or disclosure of information.

The University will make information held about students available to them upon request and in accordance with the Privacy Act 1993, which also describes the conditions under which information may be withheld. Students have the right to request correction of personal information held in accordance with the provisions of the Privacy Act 1993. If a student withholds information or provides incomplete, false or misleading information the University may decline or cancel the admission or enrolment and may withhold the academic record if its veracity cannot be confirmed.

This Privacy Statement operates in conjunction with any specific privacy statement or declaration made in connection with the collection by, or supply to, the University of individual items of information.

Examinations and final results

There are three main examination periods during the university year:

Summer School	20–25 February 2021
Semester 1	9–23 June 2021
Semester 2	20 October–13 November 2021

Final written examinations may be held by departments outside these periods, as advised by the teaching department concerned.

Personal examination timetables and final results are accessed online via eVision.

For more information about examination timetables and other related examination topics, visit:

otago.ac.nz/exams

Final Examination Only enrolment

In many papers (but not all), if you have completed your course work satisfactorily but have failed to pass the paper, you may apply for Final Examination Only (FEO) enrolment. This means that you may sit the examination at the end of the next teaching period that the paper is offered but you may not attend teaching sessions or receive assistance from academic staff. This concession is granted only once for a particular paper, and only for the teaching period in which the paper is offered next.

If your application is approved, a fee will be charged, but you will not have to pay tuition fees again. For details of how to apply for Final Examination Only enrolment and to download the application form, see the website:

otago.ac.nz/final

The closing dates for applications are:

10 January 2021	for papers next offered in Summer School
1 March 2021	for papers next offered as full-year or first semester papers
31 July 2021	for papers next offered as second semester papers

If you change your mind, you can cancel your FEO enrolment by emailing student-records@otago.ac.nz before the dates indicated on the website.

Academic Progress Policy

A student who fails to make satisfactory progress (i.e. pass half or more of the points enrolled for in a calendar year) will be placed on Conditional Enrolment and may enrol for a prescribed course of study only, in the next year of enrolment. If such a student then passes fewer than half of the points in the Conditional Enrolment year, they will be suspended from enrolment at the University for the subsequent two calendar years.

This policy will be applied to students transferring from other tertiary institutions as if their previous study had been undertaken at the University of Otago. Students suspended under the academic progress policies (or equivalent) of other tertiary institutions will not be permitted to transfer to the University of Otago until such time as that suspension has passed.

Full details of the policy can be found at:

otago.ac.nz/progress

For more details on how academic progress is assessed see the Terminology pages 215–218.

Major subjects and endorsements, and minor subjects

For most qualifications you need to specify at least one subject of specialisation (whether definite or potential) when enrolling.

For undergraduate degrees, this can be called either a major subject (for BA, MusB, BSc, BAppSc, BCom, BHealSc, BBiomedSc, BACom, BASc and BComSc) or an endorsement (BTchg, BTheol, MusB). The Diploma for Graduates can also have endorsements. One or more lesser specialisations, called minor subjects, can also be specified for some degrees (BA, MusB, BPA, BTheol, BSc, BAppSc, BCom, BHealSc, BACom, BASc and BComSc) although some subjects may not be included in MusB, BPA, or BTheol programmes) – see pages 98–105 for details of the papers required in each case.

In the list below, the name of each subject is given, together with the qualification or qualifications for which it may be taken as a major subject (M) or endorsement (E). Subjects available as minor subjects are also indicated (m).

All of the major subjects for BA may also be taken as one of the two major subjects for BASc or BACom. All of the major subjects for BCom may also be taken as one of the two major subjects for BACom or BComSc. All of the major subject for BSc or BAppSc (other than those marked with asterisks and not also available for BSc) may also be taken as one of the two major subjects for BASc or BComSc.

Many specialised or professional bachelors' degrees don't have major subjects specified as the discipline of each qualification is included in its title (Bachelor of Dental Surgery, Dental Technology, Laws, Medical Laboratory Science, Medicine and Surgery, Oral Health, Performing Arts, Pharmacy, Physiotherapy, Social Work, Surveying).

Many of the subjects listed below, and a variety of additional subjects, are available as subjects or endorsements for postgraduate qualifications (see entries elsewhere in this Guide or the University website for details).

Programme structures – examples

The three examples below show how some typical degree programmes can be constructed.

Structure for BSc – major subject Biochemistry (no minor subject specified)

100-level BIOC 192, CELS 191, CHEM 191;
one of BIOL 112, 123, HUBS 191, 192

200-level BIOC 221, 222, 223

300-level BIOC 351, 352, 353, 360

With Head of Department approval, one 300-level BIOC paper may be replaced by another relevant 300-level paper

Plus 162 further points (GENE 211 strongly recommended); must include 54 points at 200-level or above. Up to 90 points may be taken from outside Science.

Total 360 points

Programme structures – requirements

The rest of this section summarises the requirements for most bachelors' and honours degrees, undergraduate diplomas, and many (but not all) postgraduate qualifications, grouped according to the academic Divisions responsible for them.

Bachelor of Arts – BA

otago.ac.nz/courses/ba.html

Normal BA programme structures are set out below. Some variations may be possible. For further details consult the University Calendar or the Head of Programme or Head of School teaching your major subject.

- Every BA programme requires a minimum total of 360 points (normally 20 papers).
- Must include major subject requirements for at least one of the subjects in the following lists.
- Would normally have no more than 180 points at 100-level and must have at least 72 points at 300-level for each major subject.
- May include a specified minor subject. See pages 50 and 98 for details.
- Normally at least 270 points must be for papers in Arts and Music Schedule C (see page 106); the programme may include up to 90 points for papers from any other undergraduate degree, but this limit may be exceeded if additional points are needed to fulfil a major or minor subject requirement.

Papers at 100- to 300-level are normally worth 18 points each.

200-level GEOL 251, 252; one of GEOL 221, 261, 262, 263, 264, 265, 272, 273, 274, 275, 276; one of GEOL 221, 261, 262, 263, 264, 265, 272, 273, 274, 275, 276, EMAN 204, GEOG 282, 284, 288, 289, 298, OCEN 201, PHSI 243, SURV 208

300-level GEOL 344, 353; one of GEOL 302, 321, 341, 361, 362, 363, 364, 365, 372, 373, 374, 376; CHEM 304, GEOG 388, 389, 390, 394, 395, 398, OCEN 323

Plus 144 further points; must include 36 points at 200-level or above. Up to 90 points may be taken from outside Science.

Total 360 points

Human Nutrition

100-level BIOC 192, CELS 191, CHEM 191, HUBS 191, 192, HUNT 141

200-level HUNT 241, 242, 243

300-level HUNT 341, 342, 343; one of HUNT 345, 346

Plus 144 further points; (POPH 192 recommended). Must include 54 points at 200-level or above. Up to 90 points may be taken from outside Science.

Students intending to proceed to the Master of Dietetics programme should include HUNT 231 or HUNT 244 (taken from 2019), HUNT 331, PHSL 251, and one of STAT 110, STAT 115 or POPH 192 in their degree programmes.

Bachelor of Science – BSc continued

Information Science

100-level COMP 101, 160*

200-level INFO 201, 202, 203, 204

300-level INFO 301, 302;
two further 300-level INFO papers

Note: INFO 310 is the prerequisite for INFO 301

Plus 180 further points (it is recommended that BSNS 112 or STAT 110 be included); must include 36 points at 200-level or above. Up to 90 points may be taken from outside Science.

Total 360 points

**In exceptional circumstances (such as having prior programming experience) and with approval from the Head of Department, the COMP 160 requirement may be waived or the paper replaced with COMP 150.*

Land Planning and Development

100-level MATH 160, SURV 101, 102

200-level ENGL 228, SURV 203, 204, 205, 206, 208, 297

Note: ENGL 228 should be taken in the second semester of the first year of study

300-level SURV 303, 304, 455;
at least 36 points from SURV 306, 309, 319, 329, 450, 453, 454, PMAN 401

Plus 108 further points. Up to 90 points may be taken from outside Science.

Total 360 points

Mathematics

100-level MATH 160, 170

200-level COMO 204, MATH 201, 202, 203

300-level Four 300-level MATH or COMO papers

Plus 180 further points; must include at least one 18-point STAT paper; 54 points at 200-level or above. Up to 90 points may be taken from outside Science. COMO 101 highly recommended. COMP 150, 160, ENGL 127, STAT 260, 270, PHIL 222, COMP 242 recommended.

Total 360 points

Microbiology

100-level CELS 191, CHEM 191, HUBS 191

200-level MICR 221, 222, 223, GENE 221

300-level Four of MICR 331, 332, 334, 335, 336, 337

Plus 162 further points; must include 36 points at 200-level or above. Up to 90 points may be taken from outside Science.

Neuroscience

100-level CELS 191, HUBS 191, PSYC 111;
either CHEM 191 or PHSI 191;
one further paper from BIOC 192, BIOL 112 or HUBS 192, CHEM 191, PHSI 191

Note: CELS 191, HUBS 191, and CHEM 191 and/or PHSI 191 should be taken in the first year of study to ensure unimpeded progress through the major subject requirements.

200-level ANAT 242, PHSL 231, PSYC 211;
one of BIOC 221, 222, 223, GENE 221, 222, PHAL 211, ZOOL 223

300-level Four of ANAT 332, 335, 336, NEUR 302, 303, PHAL 303, PHSL 341, 342, PSYC 313, 317, 319, 323, ZOOL 314

Plus 126 further points; must include 36 points at 200-level or above. Up to 90 points may be taken from outside Science.

Total 360 points

Note: No more than three 300-level papers with the same subject code (other than NEUR) may count towards the major subject requirements.

Oceanography

100-level MARI 112;
three 100-level BIOL, CELS, CHEM, COMO, EAOS, ECOL, GEOL, MATH, PHIL or PHSI papers

200-level OCEN 201;
three of AQFI 251, BTNY 203, CHEM 201, 206, COMO 204, ECOL 211, GEOG 283, 298, GEOL 263, 272, 273, MARI 202, MATH 202, 203, PHIL 225, PHSI 243, ZOOL 221

300-level OCEN 301;
one of OCEN 321, 322, 323, CHEM 304;
two of AQFI 352, CHEM 304, COMO 303, GEOG 389, 398, GEOL 363, 372, 373, MARI 301, 302, MATH 304, OCEN 321, 322, 323, PHSI 336, 365, ZOOL 316, 319

Plus 144 further points; must include 36 points at 200-level or above. Up to 90 points may be taken from outside Science.

Bachelor of Science with Honours – BSc(Hons)

otago.ac.nz/courses/bschons.html

Normal BSc(Hons) programme structures are set out below. Some variations may be possible. For further details consult the University Calendar or the relevant Head of Department.

To be admitted, students must have completed a Bachelor of Science degree, majoring in the subject or subjects of study proposed, with an average grade of at least B+ for the appropriate 300-level papers. Normally a total of five 300-level papers must have been passed, including specific papers as part of or in addition to the major subject requirements in the BSc programme. The Honours programme must be completed in one year of full-time study.

A student with an Honours degree in one subject may take a second Honours degree in a different subject, and combined Honours programmes (including papers from two subjects) are also possible.

The due date for applications is **10 December**, although late applications will be considered.

Prerequisites: papers which must have been passed as part of or in addition to the normal major subject requirements for the subject concerned in the preceding ordinary degree programme.

Anatomy

ANAT 490, ANAT 458;
two of ANAT 451, 452, 453, 454, 455, 456, 457, BIOA 401

Prerequisites: at least five 300-level papers including at least four of ANAT 331, 332, 333, 334, 335 and BIOA 301

Biochemistry

BIOC 490;
three of BIOC 461, 462, 463, 464

With approval from the Head of Department, one 400-level BIOC paper may be replaced with a 400-level paper from another relevant subject.

Prerequisites: at least five 300-level papers including BIOC 351, 352, 353, 360. With approval from the Head of Department, one 300-level BIOC paper may be replaced with a 300-level paper from another relevant subject.

Botany

BTNY 490;
three of BTNY 461, 465, 467, 470

With approval from the Head of Department another 400-level paper may be substituted for one of BTNY 461-470.

Prerequisites: At least five 300-level papers including at least four BTNY or PLBI 300-level papers. With approval from the Head of Department, one of the papers listed may be replaced by another 300-level paper.

Chemistry

CHEM 490; CHEM 461, 462, 463

Prerequisites: At least five 300-level papers including at least four CHEM 301-306

Computer Science

COSC 490;
four of COSC 402, 410, 411, 412, 420, 421, 422, 430, 431, 440, 441, 450, 470, 471

Prerequisites: At least five 300-level papers including one of COSC 326, 345, and at least three further papers from COSC 301-391

Ecology

ECOL 490, 411;
two of BTNY 465, 467, ECOL 450, GEOG 454, 459, 460, 461, 471, MARI 403, SURV 509, 511, ZOOL 410, 411, 415, 416, 417, 418 or other suitable papers as approved by the Programme Director

Prerequisites: ECOL 313, ZOOL 316 and three of BTNY 301, 302, 303, CHEM 304, GENE 312, GEOG 388, 390, 392, 393, 394, 395, GEOL 372, MARI 301, 302, SURV 411, ZOOL 313, 315, 318, 319, or other suitable papers as approved by the Programme Director

Economics

ECON 480;
four of ECON 402, 403, 404, 405, 406, 407, 410, 411, 412, 413, including at least one of ECON 410 and ECON 411, and at least one of ECON 412 and ECON 413

Prerequisites: ECON 375 and 377, two further 300-level ECON papers plus 18 further 300-level points

Electronics

ELEC 490;
ELEC 441, 442, 443, 444, 445, 446;
20 further 400-level points, as approved by the Programme Director

Prerequisites: at least five 300-level papers including at least three 300-level ELEC papers and one further 300-level ELEC, MATH or PHSI paper

No new enrolments will be accepted for this major subject.

Food Science

FOSC 490;
three of FOSC 401, 402, 403, 404, 405

With approval from the Head of Department, FOSC 460 or one 400-level paper from another relevant subject may be substituted for one elective FOSC 400-level paper.

Prerequisites: FOSC 301, 302, 311 and one of FOSC 306, MICR 331

Genetics

GENE 490, 411, 412;
one of ANAT 456, BIOC 462, 463, BTNY 467, MICR 461, PLBI 401, STAT 435, ZOOL 410.

With Programme Director approval, one of the papers listed above may be replaced by another 400-level paper

Prerequisites: At least five of GENE 312, 313-31, 360, BIOC 352, MICR 335, (GENE 360 highly recommended). With Programme Director approval, one of the papers listed above may be replaced by another 300-level paper.

Geography

GEOG 490;
three 400-level GEOG papers

Prerequisites: GEOG 380, at least three of GEOG 387, 388, 389, 390, 392, 393, 394, 395, 397, 398, 399 and one further 300-level GEOG paper

Bachelor of Science with Honours – BSc(Hons) continued

Geology

GEOL 490, 401 or GEOL 402,403;
four further 400-level GEOL papers

Prerequisites: At least five 300-level papers including GEOL 302, 344, 353 and one further 300-level GEOL paper

Human Nutrition

HUNT 490, 454;
two of 441, 445, 452, 453

Prerequisites: HUNT 341, 342, 343, 345, 346

Information Science

INFO 490;
four papers from 400-level INFO papers

Prerequisites: INFO 301, 302 and three further 300-level INFO papers

Mathematics

MATH 490;
four 400-level MATH or STAT papers including at least three MATH papers

Prerequisites: At least five 300-level papers including at least four 300-level MATH papers

Microbiology

MICR 490;
MICR 461, 463, 464

Prerequisites: At least five 300-level papers including at least four of MICR 331, 332, 334, 335, 336, 337 (MICR 360 highly recommended)

Neuroscience

NEUR 490;
papers worth 60 points from ANAT 454, COSC 420, 421, 422, NEUR 452, 453, 455, 457, 459, 461, 462, 463, PHAL 423, PHSL 472, 474, PSYC 429, 430, 431, 437, 438, 439, ZOOL 412

Prerequisites: At least five of ANAT 332, 335, 336, NEUR 301, 302, 303, PHAL 303, PHSL 341, 342, PSYC 313, 317, 319, 323, ZOOL 314

Pharmacology

PHAL 490, 421;
two of PHAL 423, 426, 427, 428, 430, 431

Prerequisites: At least five 300-level papers including at least four of PHAL 303, 304, 305, 306, 307 (PHAL 307 highly recommended)

Physics

PHSI 490;
papers worth 40 points from PHSI 421, 422, 423, 424, 425, 426, ELEC 441;
20 further 400-level points from PHSI, MATH

Prerequisites: Two of MATH 202, 203, COMO 204; PHSI 331, 341, 381 and two further 300-level PHSI or MATH papers (PHSI 365 recommended)

Physiology

PHSL 490, 474;
two of PHSL 471, 472, 473

Prerequisites: At least five 300-level papers including at least four of PHSL 341, 342, 343, 344, 345

Plant Biotechnology

PLBI 490, 401;
two of BTNY 461, 465 or approved 400-level BIOC papers

Prerequisites: PLBI 301, 302 and three approved papers from 300-level BIOC, BTNY or GENE papers, PLBI 351

Psychology

PSYC 490;
six of PSYC 401, 402, 403, 404, 405, 406, 421, 422, 423, 424, 425, 426, 427, 428, 429, 430, 431, 432, 433, 434, 435, 436, 437, 438, 439

Prerequisites: At least five 300-level papers including PSYC 311 and four from PSYC 313, 315, 317, 318, 319, 321, 323, 324, 325, 326, 327, 328, 329, 330, 331

Sport, Exercise and Health

SPEX 401, SPEX 490;
two papers from: SPEX 440 and 441; or SPEX 450 and 451; or SPEX 460 and 461

Prerequisites: At least five 300-level SPEX papers

Statistics

STAT 490;
four 400-level STAT papers

Prerequisites: STAT 310; STAT 370; two further 300-level STAT papers, MATH 202, 203

Zoology

ZOOL 490;
three of ZOOL 410, 411, 412, 413, 414, 415, 416, 417, 418, 419, 420, 421, 422, 424

Prerequisites: At least five 300-level papers including ZOOL 316, two of ZOOL 313, 314, 315, 318, 319, GENE 312, and one further paper from ZOOL 313, 314, 315, 318, 319, GENE 312, 314, MARI 301, 302

Postgraduate Diploma in Science – PGDipSci

otago.ac.nz/courses/pgdipsci.html

Normal PGDipSci programme structures are set out below. Some variations may be possible. For further details consult the University Calendar or the relevant Head of Department.

The PGDipSci may be awarded in any of the subjects, or in an approved combination of subjects, listed below.

To be admitted, students must have completed a Bachelor of Science degree, majoring in the subject or subjects of study proposed. The programme may be completed in one year of full-time study, or over a longer period by part-time students.

The due date for applications is **10 December**, although late applications will be considered.

Anatomy

ANAT 480 or 490, ANAT 458;
papers from ANAT 451, 452, 453, 454, 455, 456, 457, BIOA 401 to a total of 120 points

Biochemistry

BIOC 480 and BIOC 461, 462, 463, 464

Note: With approval from the Head of Department one 400-level BIOC paper may be replaced by a 400-level paper from another relevant subject.

Botany

BTNY 480;
BTNY 461, 465, 467, 470

With approval from the Head of Department another 400-level paper may be substituted for one of BTNY 461-470

Chemistry

CHEM 480;
four of CHEM 461, 462, 463, 464, HAZA 401

Computer Science

Either six of COSC 402, 410, 411, 412, 420, 421, 422, 430, 431, 440, 441, 450, 470, 471

or

one of COSC 480 or 490;
four of COSC 402, 410, 411, 412, 420, 421, 422, 430, 431, 440, 441, 450, 470, 471

Consumer Food Science

One of FOSC 480, 490, 495;
further papers from FOSC 421, 422, 423, 424, 425 approved by the Head of the Department of Food Science to make a total of 120 points
With approval from the Head of the Department of Food Science, FOSC 460 or one 400-level paper from another relevant subject may be substituted for one of FOSC 421-425.

Ecology

ECOL 480 or 490, ECOL 411;
papers from BTNY 465, 467, ECOL 450, GEOG 454, 459, 460, 461, 471, MARI 403, SURV 509, 511, ZOOL 410, 411, 415, 416, 417, 418 or other suitable papers as approved by the Programme Director to a total of 120 points

Economics

120 points from 400-level ECON papers

Prerequisites: ECON 375, 377

Electronics

40 points from ELEC 441, 442, 443, 444, 445, 446;
80 further 400-level points as approved by the Programme Director
Only one of ELEC 480 or 490 may be included.

No new enrolments will be accepted for this major subject.

Energy Science and Technology

EMAN 490;
three 400-level EMAN papers;
one further 400-level paper approved by the Programme Director

Food Science

One of FOSC 480, 490, 495;
papers from FOSC 401, 402, 403, 404, 405 approved by the Head of Department to make a total of 120 points

With approval from the Head of Department, FOSC 460 or one 400-level paper from another relevant subject may be substituted for one of FOSC 401-405.

Genetics

GENE 480, 411, 412;
two of ANAT 456, BIOC 462, 463, BTNY 467, MICR 461, PLBI 401, STAT 435, ZOOL 410

With approval from the Programme Director another 400-level paper may be substituted for one of the papers listed above

Geography

GEOG 470;
four further 400-level GEOG papers

Geology

GEOL 480, 401;
six further 400-level GEOL papers

Human Nutrition

HUNT 441, 452, 453, 454;
two of HUNT 445, 455, 485, NUTN 407 or another approved 400-level paper
or
HUNT 490, HUNT 454, and two of HUNT 441, 445, 452, 453

Information Science

120 points selected from 400-level INFO papers

May include INFO 490, but not required

Postgraduate Diploma in Science – PGDipSci continued

Marine Science

MARI 480 or 490, MARI 401, and papers at 400-level in AQFI, MARI or OCEN to a total of 120 points

One paper may be replaced with an approved 400-level paper in a Science subject

Mathematics

MATH 490;
four 400-level MATH or STAT papers including at least three MATH papers

Microbiology

MICR 480, 461, 462, 463, 464

Neuroscience

NEUR 480;
papers worth 80 points from ANAT 454, COSC 420, 421, 422, NEUR 452, 453, 455, 457, 459, 461, 462, 463, PHAL 423, PHSL 472, 474, PSYC 429, 430, 431, 437, 438, 439, ZOOL 412
or
NEUR 490;
papers worth 60 points from ANAT 454, COSC 420, 421, 422, NEUR 452, 453, 455, 457, 459, 461, 462, 463, PHAL 423, PHSL 472, 474, PSYC 429, 430, 431, 437, 438, 439, ZOOL 412

Pharmacology

PHAL 480, 421;
three of PHAL 423, 426, 427, 428, 430, 431

Physics

PHSI 480;
60 points from PHSI 421, 422, 423, 424, 425, 426;
further 400-level papers worth 20 points from PHSI, MATH

Physiology

PHSL 480 or 490, PHSL 474;
papers from PHSL 471, 472, 473 to a total of 120 points

Plant Biotechnology

PLBI 480, 401, BTNY 461, 465;
one further approved 400-level BIOC or BTNY paper

Psychology

PSYC 490;
six of PSYC 401, 402, 403, 404, 405, 406, 421, 422, 423, 424, 425, 426, 427, 428, 429, 430, 431, 432, 433, 434, 435, 436, 437, 438, 439

Software Engineering

Six papers from 400-level SENG papers and approved 400-level COSC or INFO papers

Sport, Exercise and Health

SPEX 401, 480;
Two papers from: SPEX 440 and SPEX 441; or SPEX 450 and SPEX 451; or SPEX 460 and SPEX 461
One further 400-level paper worth 20 points

Statistics

STAT 490;
four 400-level STAT papers

Surveying

SURV 580;
at least four 500-level SURV papers

Telecommunications

120 points from 400-level TELE and approved 400-level COSC, ELEC, INFO, PHSI or SENG papers

Zoology

ZOOL 480;
four of ZOOL 410, 411, 412, 413, 414, 415, 416, 417, 418, 419, 420, 421, 422, 424

Bachelor of Applied Science – BAppSc

otago.ac.nz/courses/bappsc.html

Normal BAppSc programme structures are set out below. Some variations may be possible. For further details consult the University Calendar or the Head of the Department teaching your major subject.

- Every BAppSc programme requires a minimum total of 360 points (normally 20 papers)
- Would normally have no more than 180 points at 100-level and have at least 180 points at 200-level or above, including at least 72 points at 300-level for each major subject.
- Must include an approved minor subject or an approved second major subject (see pages 78-80 for permitted combinations of subjects) or other approved papers worth at least 90 points (with 54 points above 100-level, including 18 points at 300-level).

Papers at 100- to 300-level are normally worth 18 points each.

Agricultural Innovation

100-level AGRI 101, CELS 191,
one of CHEM 111, 191

Complete at least one paper from at least two of the following lists of 100-level natural, human or technical world papers:

a. Natural world papers:

BIOC 192, BIOL 112, 123, ECOL 111, GEOG 101

b. Human world papers:

BSNS 111, 113, ENVI 111, FOSC 111, GEOG 102, MART 112, PHIL 103, POPH 192

c. Technical world papers:

COMO 101, COMP 101, 151, 161, 162, MATH 160, PHSI 191, STAT 110, 115, SURV 102

Recommended: complete papers from all three lists.

200-level AGRI 221, GENE 223, MICR 222

One natural, human, or technical world paper from the following list *:

BIOC 221, BTNY 201, CHEM 206, ECOL 211, ENVI 211, FOSC 202, GENE 221, 222, GEOG 216, 282-299, MART 211, MATS 204, MICR 221, STAT 210, SURV 206, 208

300-level AGRI 321, 322, 323

One natural, human, or technical world paper from the following list *:

BIOC 352, BTNY 301-303, CHEM 306, ENVI 311, 312, FOSC 301, 308, GENE 312, 314, 315, GEOG 388-399, MART 306, MICR 331, 332, 335, 336, PLBI 301, 302, SOCI 319, STAT 310, SURV 306, 309

Plus 126 further points, including either requirements for an approved minor or approved second major subject or other approved papers (see page 78).

Total 360 points

**Students should examine prerequisites for their selected 200-level and 300-level papers when choosing their 100-level and 200-level options.*

With approval from the Programme Director, other papers relevant to Agricultural Innovation may be substituted for one of the optional natural, human, or technical world papers at 100-level, one optional paper at 200-level and for one optional paper at 300-level.

Applied Geology

100-level EAOS 111, GEOL 112, MATH 160

200-level GEOL 251, 252;
one of GEOL 221, 261, 262, 263, 264, 265, 272, 273, 274, 275, 276;
one of GEOL 221, 261, 262, 263, 264, 265, 272, 273, 274, 275, 276, EMAN 204, GEOG 282, 283, 284, 288, 289, 298, OCEN 201, PHSI 243, SURV 208

300-level GEOL 302, 344, 353;
at least one of GEOL 321, 341, 361, 362, 363, 364, 365, 372, 373, 374, 375, 376, CHEM 304, GEOG 388, 389, 390, 394, 395, 398, OCEN 323

Plus 162 further points, including either requirements for an approved minor or approved second major subject or other approved papers (see page 78).

Total 360 points

Aquaculture and Fisheries

100-level BIOL 112, MARI 112, STAT 110 or 115;
three of BIOL 123, CELS 191, CHEM 111, 191, EAOS 111, ECOL 111

200-level MARI 202, AQFI 251;
two of BTNY 203, CHEM 201, 205, 206, ECOL 211, 212, FOSC 201, FORS 201, GENE 222, 223, OCEN 201, PHIL 235, STAT 210, SURV 208, ZOOL 221

300-level AQFI 301, AQFI 352;
two of CHEM 301, 304, 306, FORS 301, GENE 312, 314, 315, MARI 301, 302, ZOOL 316, 319

Plus 108 further points, including either requirements for an approved minor or approved second major subject or other approved papers (see page 78).

Total 360 points

Computational Modelling

100-level COMO 101, COMP 151, 161 or 162, MATH 160, 170

200-level COMO 204, MATH 202, 203

300-level COMO 303, MATH 304,
at least two further COSC, MATH or STAT papers

Plus 162 further points, including either requirements for an approved minor or approved second major subject or other approved papers (see page 78).

Total 360 points

Data Science

100-level COMP 101, 120, 161, 162;
STAT 110 or 115

200-level COSC 241, INFO 204, STAT 210, 260

300-level COSC 343, INFO 304, STAT 312;
one of COSC 344, STAT 310

Plus 144 further points, including either requirements for an approved minor or approved second major subject or other approved papers (see page 78).

Total 360 points

Note: Students are exempt from COMP 161 if they have gained entry to COMP 162 by passing COMP 151 with a grade of at least B or via an Advanced Placement Test.

Energy Management

100-level One 100-level PHSI paper (PHSI 132 recommended);
MATH 160, 170, BSNS 114;

200-level EMAN 201, 204, PHSI 243

300-level EMAN 301, 308;
one of GEOG 397, PMAN 401;
one further paper from FINC 302, 303, 304, 305, 306, 308,
309, 310, MANT 303, PMAN 401, GEOG 388, 389, 392, 397,
PHSI 365, 381, COMO 303, INFO 304, ENVI 312

Plus 162 further points (MATH 203 highly recommended), including either requirements for an approved minor or approved second major subject or other approved papers (see page 78).

Total 360 points

Advanced placement into MATH 170 may be allowed for suitably qualified candidates; with approval from the Programme Director other papers relevant to Energy may be substituted for one 300-level paper.

Environmental Management

100-level ENVI 111, GEOG 101, 102;
one of MATH 160, 170, STAT 110

200-level GEOG 216, 290;
two of GEOG 281, 282, 283, 284, 286, 287, 288, 289, 298,
299

300-level GEOG 380, 397;
two of GEOG 387, 388, 389, 390, 392, 393, 394, 395, 398,
399

Plus 144 further points, including either requirements for an approved minor or approved second major subject or other approved papers (see page 78).

- 300-level** SPEX 311;
three of COSC 342, 343, 344, INFO 304, 305, STAT 310, 311, 312, including up to two of SPEX 301, 302 or 305
- Plus** 126 further points, including either requirements for an approved minor or approved second major subject or other approved papers.
- Total** 360 points

Students should check the prerequisites for 200- and 300-level papers when selecting their 100-level and 200-level papers.

Approved minor and second major subjects for BAppSc

For the degree of Bachelor of Applied Science it is necessary to include the requirements for one of the major subjects detailed on the preceding pages. It is also a requirement that every programme normally includes an approved minor subject or an approved second major subject. Usually such a minor or second major subject must be selected from the table below which lists the approved combinations of major subjects with minor or second major subjects. However, the course director for the initial major subject may approve a minor or second major subject not listed in the table, provided that the overall combination of subjects and papers constitutes a coherent and integrated programme of study. Alternatively, but with the same requirement for a coherent and integrated programme, a course director may approve a programme without a specified minor or second major subject but which includes a selection of papers worth at least 90 points, including at least 18 points at 300-level and 54 points above 100-level. Requirements are detailed in the lists of minor subjects or in the degree structures for the qualifications specified.

Bachelor of Applied Science with Honours – BAppSc(Hons)

otago.ac.nz/courses/bappschons.html

Normal BAppSc(Hons) programme structures are set out below. Some variations may be possible. For further details consult the University Calendar or the relevant Head of the Department.

To be admitted, students must have completed a Bachelor of Applied Science degree, majoring in the subject or subjects of study proposed, with an average grade of at least B+ for the appropriate 300-level papers. The Honours programme must be completed in one year of full-time study.

A student with an Honours degree in one subject may take a second Honours degree in a different subject, and combined Honours programmes (including papers from two subjects) are also possible.

The due date for applications is **10 December**, although late applications will be considered.

Applied Geology

APGE 490, GEOL 401;
four further 400-level GEOL papers

Aquaculture and Fisheries

MARI 490, 401, AQFI 421;
papers at 400-level in AQFI, MARI or OCEN to a total of 120 points
One paper may be replaced with an approved 400-level paper in a Science subject

Computational Modelling

COMO 480, 401;
three 400-level COSC or MATH papers
With approval from the Programme Director, other relevant 400-level papers may be substituted for COSC or MATH papers

Consumer Food Science

FOSC 490;
three approved papers from FOSC 421, 422, 423, 424, 425
Note: *With approval from the Head of the Department of Food Science, FOSC 460 or one 400-level paper from another relevant subject may be substituted for one elective 400-level FOSC paper*

Energy Management

EMAN 490, 402, 403, 405, 410

Environmental Management

GEOG 490, 471, 472;
one further 400-level paper

Forensic Analytical Science

FORS 490, 401;
40 points at 400-level from APPS, BIOA, BIOC, CHEM, FOSC, GENE, LAWS, MICR, PHAL and STAT papers

Geographic Information Systems

SURV 590, 512, 513, PMAN 501 and an approved 500-level SURV, PMAN or 400-level GEOG paper

Molecular Biotechnology

One of BIOC 490, GENE 490, MICR 490, PLBI 490;
three 400-level BIOC, GENE, MICR or PLBI papers

Software Engineering

SENG 490;
four further 400-level papers normally drawn from COSC, INFO or SENG papers

Sport and Exercise Nutrition

HUNT 490;
HUNT 441, 445, 452, 453;
One further approved 400-level paper;
APPS 499

Telecommunications

TELE 490;
four 400-level TELE or approved COSC, ELEC, INFO, PHSI or SENG papers

Postgraduate Certificate in Applied Science – PGCertAppSc

otago.ac.nz/courses/pgcertappsc.html

Postgraduate Diploma in Applied Science – PGDipAppSc

otago.ac.nz/courses/pgdipappsc.html

Master of Applied Science – MAppSc

otago.ac.nz/courses/pgmappsc.html

Normal structures for programmes for the degree of **MAppSc** are set out below.

Programmes for the **PGCertAppSc** consist of approved 400- and 500-level papers, to the value of 60 points, selected from the papers specified for the degree of Master of Applied Science in the subject concerned. Each programme shall normally include papers from more than one subject.

Programmes for the **PGDipAppSc** consist of approved 400- and 500-level papers, to the value of 120 points, selected from the papers specified for the degree of Master of Applied Science in the subject concerned. Each programme shall normally include papers from more than one subject.

Students who have completed the requirements for the PGCertAppSc shall be exempted from the papers concerned if they proceed to a PGDipAppSc programme, and students who have completed the requirements for the PGCertAppSc or PGDipAppSc shall be exempted from the papers concerned if they proceed to an MAppSc programme.

For each qualification, some variations may be possible. For further details consult the University Calendar or the relevant Head of Department or Programme Director. To be admitted to any of the programmes, students must be graduates in appropriate disciplines or have satisfactory alternative qualifications or experience.

The due date for applications is **10 December**, although late applications will be considered.

Applied Geology

GEOL 401;
six further 400-level GEOL papers;
three further approved 20-point papers at 400-level;
APPS 597

or

GEOL 402, 403;
six further GEOL 400-level papers;
three further approved 20-point papers at 400-level;
APPS 598

Bioengineering

BIOE 401, 403, 404, ENTR 421;
three further approved 400-level papers which may include BIOE 402 and/or BIOE 480;
APPS 597

Computer Science

Papers worth 120 points from COSC 402, 410, 411, 412, 420, 421, 422, 430, 431, 440, 441, 450, 470, 471;
20 further approved points at 400-level;
APPS 597

Consumer Food Science

Four of FOSC 421, 422, 423, 424, 425 approved by the Head of the Department of Food Science;
three further approved 400-level papers;
APPS 597 or 598

Creative Non-Fiction Writing in Science

SCOM 402, 403, 404, 409, 413;
two other 400-level papers;
APPS 597 (e.g. writing a book)

One of the prescribed papers may be replaced with another 400-level paper with approval from the Director of the Centre for Science Communication

With approval, SCOM 5A may replace APPS 597 and one 400-level paper.

SCOM 432, 433, and 434 may be substituted for SCOM 402, 403, and 404.

Environmental Management

GEOG 471, 472;
further approved 400-level papers worth 100 points;
APPS 597

Geographic Information Systems

SURV 509, 511, 512, 513, 519;
two further approved 400- or 500-level papers;
APPS 597 or 598

Molecular Biotechnology

Six approved papers from BIOC 461, 462, 463, 464, GENE 411, 412, MICR 461, 462, 463, 464, PLBI 401;
one further approved 400-level paper;
APPS 597 or 598

Plant Biotechnology

PLBI 401, BTNY 461, 465;
four further approved 400-level papers;
APPS 597

MAppSc continued

Quantitative Genetics

STAT 435 and QGEN 401; and
 either three approved papers at 400-level in STAT, MATH and GENE;
 APPS 597 and APPS 598
 or five approved papers at 400-level in STAT, MATH and GENE;
 APPS 597 or APPS 598

Science and Natural History Filmmaking

SCOM 402, 405, 409, 411, 412, 413, 419;
 APPS 597 (including production of a film)

One of the prescribed papers may be replaced with another 400-level paper with approval from the Director of the Centre for Science Communication

With approval, SCOM 5A may replace APPS 597 and one 400-level paper.

SCOM 432, 433, and 434 may be substituted for SCOM 402, 403, and 404.

Science Communication

Any seven 400-level SCOM papers that do not satisfy the requirements
 for any other endorsement;
 APPS 597

Two of the prescribed papers may be replaced with other 400-level papers with approval from the Director of the Centre for Science Communication

With approval, SCOM 5A may replace APPS 597 and one 400-level paper.

SCOM 432, 433, and 434 may be substituted for SCOM 402, 403, and 404.

Science in Society

SCOM 402, 404, 406, 409, 413;
 two other 400-level papers;
 APPS 597 (e.g. production of exhibition or multimedia project)

One of the prescribed papers may be replaced with another 400-level paper with approval from the Director of the Centre for Science Communication

With approval, SCOM 5A may replace APPS 597 and one 400-level paper.

SCOM 432, 433, and 434 may be substituted for SCOM 402, 403, and 404.

Software Engineering

Approved 400-level papers worth 140 points normally drawn from
 COSC, INFO or SENG papers;
 APPS 597 or 598 or SENG 580

Telecommunications

Approved 400-level TELE, INFO, ELEC, COSC papers worth 140 points;
 APPS 597 or 598

Bachelor of Surveying – BSurv

otago.ac.nz/courses/bsurv.html

The normal BSurv programme structure is set out below. Some variations may be possible. For further details consult the University Calendar or the Dean of the School of Surveying.

Intending surveying students must enrol in their first year for the Surveying First Year (BSc) course.

Students may apply for admission to second year classes in Surveying after completing a competitive First Year course or an appropriate Bachelor's degree. Numbers allowed to advance to second year papers are restricted so that the total Bachelor of Surveying and Bachelor of Science students do not exceed 65 (see Clause 1(b) of the BSurv Regulations in the University Calendar). The due date for applications for enrolment in the Second Year course is **15 November**.

1st Year SURV 101, 102; ENGL 228; MATH 160 (or approved equivalents);
54 further points

2nd Year SURV 201, 202, 203, 204, 205, 206, 207, 208, 298, 299

3rd Year SURV 301, 302, 303, 304, 306, 307, 309, 399

4th Year PMAN 401, SURV 450, 455, 499

Plus 54 points from SURV 319, 322, 329, 410, 411, 412, 413, 451, 452, 453, 454, 456, 457, 458, 459, 460, 462, 463, 469, 470, 480, including at least 36 400-level points. Further papers in any subject to make a total of 522 points.

Total 522 points

Bachelor of Surveying with Honours – BSurv(Hons)

otago.ac.nz/courses/bsurvhons.html

Admission is subject to special approval after the second year BSurv course.

At least 550 points are required, including SURV 590.

1st Year SURV 101, 102; ENGL 228 (or approved equivalents);
MATH 160;
54 further points

2nd Year SURV 201, 202, 203, 204, 205, 206, 207, 208, 298, 299

Bachelor of Commerce – BCom

otago.ac.nz/courses/bcom.html

Normal BCom programme structures are set out below. Some variations may be possible. For further details consult the University Calendar or the Head of the Department teaching your major subject.

- Every BCom programme requires a minimum total of 360 points (normally 20 papers).
- Must include major subject requirements for at least one of the subjects in the lists below. May include a specified minor subject; see pages 50 and 98 for details. Every programme must include BSNS 111–115. At least three of these papers must be passed before enrolling in any 200-level Commerce paper, and all must be passed before enrolling in any 300-level Commerce paper. For single-degree BCom students, all five must be attempted in the first year of study or equivalent.
- Must have at least 180 points above 100-level, including at least 72 points at 300-level for each major subject.
- Normally at least 270 points must be for papers in Commerce Schedule C (see page 106); degree may include up to 90 points for papers from any other undergraduate degree, but this limit may be exceeded if additional points are needed to fulfil a major or minor subject requirement.

Every BCom programme must include the following required papers:

BSNS 111 Business and Society
 BSNS 112 Interpreting Business Data*
 BSNS 113 Economic Principles and Policy
 BSNS 114 Financial Decision Making
 BSNS 115 Accounting and Information Systems

*STAT 110 or 115 will be accepted as an alternative to BSNS 112 as a required paper or as part of the major subject requirements or as a prerequisite when:

- a. the paper has been passed before the student has enrolled for a BCom degree; or
- b. a student is enrolling for both a BCom and another degree for which STAT 110 or 115 is required.

BCom students who first enrolled in 2016 or earlier will normally complete the programme under the regulations in force when they first enrolled. If you need to complete any of BSNS 102–108, please note that the equivalent papers are BSNS 112, MART 112, BSNS 113, MANT 101 (or BSNS 111), COMP 111 (or COMP 101), BSNS 115, and BSNS 114 respectively.

Every BCom programme requires a minimum total of 360 points. Papers at 100- to 300-level are normally worth 18 points each.

Accounting

100-level BSNS 112, 114, 115, ACCT 102

Health Sciences First Year course

Admission to second year classes in Dentistry, Medical Laboratory Science, Medicine, Pharmacy and Physiotherapy is determined by Admissions Committees and is most commonly gained through a competitive Health Sciences First Year.

The Health Sciences First Year course is designed for students seeking admission into the Health Sciences professional degrees in Dentistry, Medical Laboratory Science, Medicine, Pharmacy and Physiotherapy. It is a prescribed 126 point course to be completed in its entirety in the first year of a student's university study.

The Health Sciences First Year course consists of seven compulsory papers each worth 18 points:

Health Sciences First Year

BIOC 192	Foundations of Biochemistry
CELS 191	Cell and Molecular Biology
CHEM 191	The Chemical Basis of Biology and Human Health
HUBS 191	Human Body Systems 1
HUBS 192	Human Body Systems 2
PHSI 191	Biological Physics
POPH 192	Population Health

Students are strongly recommended to have studied Biology, Chemistry and Physics at NCEA Level 3 (or equivalent). Students who have not done so will find the Health Sciences First Year course very challenging.

The Health Sciences First Year course should be taken in students' first year of university study. Students who are thinking of completing any university study prior to enrolling in the Health Sciences First Year, and students who have already completed prior university study, should contact AskOtago for further information:

ask@otago.ac.nz

All Health Sciences First Year students will be required to pass a compulsory English diagnostic test in the first semester. Students who fail the test will be required to take ENGL 126 English for University Purposes.

Students may take an additional optional paper selected from an approved list (available at healthsci.otago.ac.nz/courses/hsfy.html) in the second semester. The results in the best seven papers will be counted for the purposes of admission to the professional programmes, provided that the compulsory seven papers are passed at or above the required minimum standard.

Admission to Health Sciences Professional Programmes

Admission to the Health Sciences Professional Programmes is governed by the regulations contained in the University Calendar. Students are advised to read these regulations to ensure they are familiar with the admission requirements. Admission to Dentistry and Medicine requires applicants to have a current Undergraduate Medicine and Health Sciences Admission Test (UMAT) result.

The due date for applications to enrol in second year classes is **15 September** in the year preceding that to which admission is sought.

Changing direction

Not all students who take the Health Sciences First Year course are accepted for the professional programmes, and some may decide to proceed to other programmes. The Health Sciences First Year course can be used as a basis for proceeding to BSc, BAppSc, BBiomedSc, BHealSc, or BASc programmes majoring in a variety of subjects. Some combinations of major and/or minor subjects might mean that a student who switches to a new programme needs more than three years to complete a general bachelor's degree programme.

Bachelor of Biomedical Sciences – BBiomedSc

otago.ac.nz/courses/bbiomedsc.html

Normal BBiomedSc programme structures are set out below. The requirements for each major subject are given together with the points values and levels of other papers needed in each programme. Some variations may be possible. For further details consult the University Calendar or email the Programme Administrator at biomedsc@otago.ac.nz

- Every BBiomedSc programme requires a minimum total of 360 points.
- The first year can be taken as Health Sciences First Year, Biomedical Sciences First Year or BSc as long as the required first-year papers are completed.
- Must have at least 180 points above 100-level, of which at least 72 points must be at 300-level in the papers specified. At least 288 points must be papers prescribed for the degree; the remaining points may come from any undergraduate degree.
- Candidates will not normally be permitted to enrol for any papers of a year until all papers of the preceding year have been passed.
- Must include major subject requirements for at least one of the subjects in the lists below.

Papers at 100- to 300-level are normally worth 18 points each.

otago.ac.nz/courses/bbiomedschons.html

A Bachelor of Biomedical Sciences with Honours (BBiomedSc(Hons)) programme is available to students who have completed the requirements for the degree of Bachelor of Biomedical Sciences, or an equivalent qualification recognised by the Board of Studies for Biomedical Sciences, with an average grade of at least B+ for the appropriate four 300-level papers of the major subject and have passed one further paper at 300-level to make a total of 90 points at 300-level. Applicants must normally have passed papers worth at least 126 points, at 200-level or above, during their third year of study.

The Honours degree is a thesis-only qualification, and may be awarded in any one of the following subjects:

- Drugs and Human Health
- Functional Human Biology
- Infection and Immunity
- Molecular Basis of Health and Disease
- Nutrition and Metabolism in Human Health
- Reproduction, Genetics and Development

Enquiries about admission to the programme should be directed to the Programme Administrator (email biomedsc@otago.ac.nz). For further details, consult the University Calendar.

An Honours programme is available to Radiation Therapy students who have completed the requirements for the BRT degree.

Bachelor of Arts and Commerce – BACom

otago.ac.nz/courses/bacom.html

The normal structure of the programme for the degree of BACom is set out below. Some variations may be possible. For further details consult the University Calendar or the Head of the Departments teaching your major subjects.

- Every programme requires papers worth at least 480 points (normally 27 18-point papers would be taken, making a total of 486 points).
- Must include the required papers BSNS 111–115.
- Must include at least 216 points for papers from Arts and Music Schedule C and 216 points for papers from Commerce Schedule C (see page 106).
- Must include two major subjects: one from those available for Bachelor of Arts (see pages 53–57) and a different one from those available for Bachelor of Commerce (see pages 85–86).
- May include a specified minor subject. See pages 50 and 98 for details.

There are about 400 combinations of major subjects available, so it not possible to provide summaries of all BACom programmes. The following is only one example, showing a programme including the major subject requirements for Communication Studies (an Arts major subject) and Marketing (a Commerce major subject).

Specimen BACom programme

- 100-level** MFCO 102 and MFCO 103;
BSNS 111, BSNS 112, BSNS 113, BSNS 114, BSNS 115, MART 112
- 200-level** MFCO 202;
two further papers from 200-level MFCO papers, GEND 205;
MART 212;

Diploma for Graduates – DipGrad

otago.ac.nz/dipgrad/index.html

otago.ac.nz/courses/dipgrad.html

The Diploma for Graduates is a qualification available to students who have completed a degree with a satisfactory standard of achievement, or other students with appropriate qualifications and experience.

The programme consists of papers worth at least 120 points (in practice, usually 7 papers – a total of 126 points), including at least 72 points at or above 300-level.

The papers can be in any subject or combination of subjects that is appropriate for the needs of individual students, whether for employment purposes, preparation for postgraduate study, gaining the equivalent of an additional major subject, meeting the requirements of an external professional body, or general interest.

The diploma may be endorsed in a named subject if it includes appropriate concentrations or combinations of papers. The subjects of endorsement may be any subject specified as a major subject or endorsement for BA, BTheol, BSc, BAppSc, BCom, or BHealSc or in any of several subjects available only for DipGrad: Advertising, Buddhist Studies, Criminology (subject to approval), Information and Communications Technology, Sports Business.

It may also be awarded without endorsement. This option allows for great flexibility in the combination of papers.

For further details consult the DipGrad webpage (see above) or the University Calendar, or email dipgrad@otago.ac.nz.

Minor subjects for BA, MusB, BPA, BTheol, BSc, BAppSc, BCom, BHealSc, BACom, BASc, BComSc

A minor subject is a lesser specialisation in a subsidiary subject, complementing the major subject in a degree programme and generally involving a separate set of papers worth a total of 90 points. It is possible to have minor subjects specified for the degrees of Bachelor of Arts, Bachelor of Music, Bachelor of Performing Arts, Bachelor of Science, Bachelor of Applied Science, Bachelor of Commerce, Bachelor of Health Sciences, Bachelor of Arts and Commerce, Bachelor of Arts and Science, and Bachelor of Commerce and Science, if you pass the papers for one or more of the subjects listed in these charts. Most of the subjects can be specified as a minor subject for any of the degrees (e.g. a minor subject in a BCom programme may be a Commerce subject but may equally well be an Arts or Science subject).

Sometimes the requirements for a minor subject can overlap with the requirements for another minor subject or for a major subject in the same degree programme. No 300-level paper can count for more than one minor or major subject in a programme, but 100- and 200-level papers can, if they are compulsory for the subjects concerned.

Some variations may be possible in approved cases. For further details consult the University Calendar or the Head of Department teaching the subject you are interested in. In most programmes a specified minor subject is not compulsory and other combinations of papers may be more appropriate for your particular circumstances.

Papers at 100- to 300-level are normally worth 18 points. All minor subjects require 90 points unless otherwise indicated.

Schedules of papers

The following are the 'Schedule C' lists of papers for BA, BTheol, BSc, BCom, BACom, BASc and BComSc degrees. The papers included are those at undergraduate level with the codes given for the subjects concerned together with a number of individually specified papers. For details of a paper's prerequisites, corequisites and restrictions consult the Prescriptions section of this Guide. For degree and major and minor subject requirements see pages 53–105.

The regulations for the degrees of BA, BTheol, BSc and BCom require that most papers taken for the degrees are chosen from the relevant "Schedule C" printed in the University Calendar, but some other papers may be included (normally to a maximum of 90 points). For instance, a BSc programme of 360 points must normally include at least 270 points from Science Schedule C. The remaining 90 points may also be chosen from Science Schedule C but some or all of the further papers may alternatively be chosen from the Arts and Music, Theology, and Commerce Schedules.

A number of papers appear in more than one Schedule (e.g. Geography is both an Arts and a Science subject).

Prescriptions

This section provides an alphabetical listing of all papers. It is vital that you consult this section when choosing your papers.

You will find a separate listing for Distance Learning papers on pages 212–214.

Information on the following pages was correct at the time of printing, however as some details may have changed, please check the website for the most recent information.

How to use this section to select your papers

How to read a Prescription entry

The example below illustrates the components of a typical paper entry.

ANAT 242 Neurobiology

S2 0.15 EFTS OL, OC 18 points

The structural and functional organisation of the nervous system at cellular, tissue, system and integrative levels.

P CELS 191, HUBS 191, CHEM 191 and 36 further points

SC Science

Note: For BSc students taking Neuroscience as their major subject, PHSI 191 may be substituted for CHEM 191 as a prerequisite.

This example is for the purposes of illustration only and is not representative of all papers. Following are definitions of the information presented in the Prescriptions with their abbreviations.

Paper code: Each paper is identified by a seven character code. The first four characters are letters that denote the subject area (e.g. ACCT for Accounting, PHSI for Physics) followed by three numbers (beginning with 1 for 100-level papers, 2 for 200-level papers, and so on).

Teaching period: University papers are offered in a number of teaching periods throughout the year: some are offered in Summer School (SS), (January–February); most papers are offered in either the first semester (S1/February–June) or the second semester (S2/July–November); some are taught twice in the year, in each semester (ES); some are taught over both semesters on a full-year basis (FY); and some papers are taught in "non-standard" periods of various lengths (e.g. N1, N2) that do not match the usual teaching periods, and can be shorter or longer than a semester.

It is usually best to plan your year's study so that your workload is evenly spread.

EFTS (Equivalent full-time student): EFTS is a unit of measurement of a student's enrolment and is the basis of the funding system for the University. A typical full-time year's study equals 1.0 EFTS unit and the papers taken are fractions of that unit. In practice, a year's study will vary in EFTS value according to the papers studied. Your EFTS total is used to determine your eligibility for student loans and allowances.

Teaching method: is denoted by abbreviations.

- OC: the paper is available on campus.
- DL: the paper is available through distance learning.

Departmental permission (DP): Papers designated "DP" can be selected during paper selection but a place is not immediately guaranteed until the department concerned gives approval.

Supported by online learning management system (OL): Teaching of the paper is supported by the use of an online learning management system (e.g. Blackboard). However, this does not necessarily mean that the paper is taught exclusively online. Many papers will use this in conjunction with on-campus lectures, laboratories and tutorials

Points: Each paper is worth a particular number of points. To complete a degree you must accumulate a certain number of points with a minimum number required at the higher levels.

You could not, for example, earn a degree simply by taking a large number of 100-level papers over three or four years. Most papers at 100-, 200- and 300-level are worth 18 points, but some have differing points values, depending on the workload they require.

Prescription: Description of the academic content of an individual paper.

Prerequisite (P): Most papers beyond 100-level have particular prerequisites (requirements to be met before a paper or course may be taken). If you have not completed a prerequisite for a certain paper you will not normally be permitted to enrol in that paper.

Corequisite (C): Some papers have a corequisite (a paper that must be taken concurrently).

Restriction (R): Papers that have a large amount of content in common are often restricted against each other, so they cannot be credited to the same academic record.

Limited to (LT): Papers limited to certain qualifications may normally be taken only for those qualifications (some exceptions may be possible).

Recommended preparation (RP): Papers that should normally be taken before the paper concerned.

Recommended concurrent study (RC): Papers it is recommended you take at the same time.

Schedule C (SC): Indicates inclusion in lists of subjects for BA, BTheol, BSc, BCom, BAsC (see page 106).

Location (L): Indicates the campus at (or from) which a paper is taught. If no location is specified, the paper is taught at (or from) Dunedin. Other locations are specified – e.g. Christchurch, Wellington and Invercargill – including where a paper is taught at more than one location.

Note(s): These provide additional important information specific to the paper.

The following key is available at the bottom of every left-hand page to help you identify each term or abbreviation in the listings.

Key S1: first semester; S2: second semester; ES: each semester; FY: full year; SS: Summer School; N1-5: non-standard periods*; NO: not offered in 2021; NO (20XX): not offered, expected to be offered in the year noted; OL: Paper supported by online learning management system; OC: Paper is available on campus; DL: Paper is available by Distance Learning; DP: Departmental permission required; P: Prerequisite; C: Corequisite; PC: Prerequisite or corequisite; R: Restriction; LT: Limited to; RP: Recommended preparation; RC: Recommended concurrent study; SC: Schedule C; L: Location paper is taught at, or from (if no location mentioned, paper is taught at, or from, Dunedin). See page 108 for more information. *Up-to-date information on non-standard periods, paper availability and class times is available at otago.ac.nz/courses/papers

Anatomy

ANAT 101 Anatomy for Sport and Exercise
S1 0.15 EFTS OL, OC 18 points
Introduction to functional anatomy of the human body, with a focus on biomechanics of normal human movement. Examples in sport and exercise are used to integrate structure and function.
R HUBS 191, 192, PHSE 191, 192, ANAT 200-level papers
SC Science
Notes: (i) This paper is for students taking the Physical Education, Activity and Health; Exercise and Sport Science; or Sports Development and Management major subjects. (ii) May not be used to progress to the Anatomy major or minor subject for BSc. (iii) May not be taken concurrently with or after having passed any 200-level ANAT paper.

ANAT 131 Origins of Anatomical Language
SS 0.15 EFTS OC 18 points
An introduction to the study of anatomy throughout history and how anatomical terminology used to this day has roots in classical languages such as Greek and Latin.
SC Science

ANAT 241 Human Biology: Cells to Systems
S1 0.15 EFTS OL, OC 18 points
The structural and functional organisation of the human body at cellular, tissue, system and regional levels.
P CELS 191, CHEM 191, HUBS 191 and 18 further 100-level points
R MELS 241
SC Science

ANAT 242 Neurobiology
S2 0.15 EFTS OL, OC 18 points
The structural and functional organisation of the nervous system at cellular, tissue, system and integrative levels.
P CELS 191 and HUBS 191 and CHEM 191 and 36 further points
SC Science
Note: For BSc students taking Neuroscience as their major subject, PHSI 191 may be substituted for CHEM 191 as a prerequisite.

ANAT 243 Reproductive and Developmental Biology
S2 0.15 EFTS OL, OC 18 points
Reproductive biology, encompassing hormone regulation, sperm and oocyte development, and pregnancy. Core concepts of developmental biology, including how the major body systems of an animal form from a fertilised egg.
P CELS 191 and HUBS 192 and CHEM 191
SC Science

ANAT 331 Functional Anatomy
S1 0.15 EFTS OL, OC 18 points
Functional anatomy of the musculoskeletal system.
P ANAT 241 or 250
SC Science

ANAT 332 Cell Biology
S2 0.15 EFTS OL, OC 18 points
Selected topics from current issues in cell and molecular biology. Practical experience in molecular biology, cell culture and microscopy.
P ANAT 241
SC Science
Note: Students studying a major or minor in Neuroscience may take ANAT 332 in 2021 if they have achieved a grade of B+ or better in ANAT 242, however this paper will need to be added via the special permission process.

ANAT 333 Reproductive Biology
S1 0.15 EFTS OL, OC 18 points
Neuroendocrine regulation of reproduction. Female and male reproductive biology. Genetics of reproduction.
P ANAT 243
SC Science

ANAT 334 Developmental Biology
S2 0.15 EFTS OL, OC 18 points
Essential topics in developmental biology. Topics include cellular processes involved in morphogenesis, such as formation of the face and control of cell number and migration in the developing organism; organ and skeletal formation and patterning; and development and regeneration/repair of the nervous system.
P ANAT 243
SC Science

ANAT 335 Neurobiology
S2 0.15 EFTS OL, OC 18 points
Structure and function of the mammalian brain, including brain circuits and how the biology of its cells can lead to degenerative changes.
P ANAT 242
SC Science

ANAT 336 Selected Topics in Neurobiology
S1 0.15 EFTS OL, OC 18 points
An in-depth study of selected topics in neuroscience.
P ANAT 242
SC Science
Note: Normally for Neuroscience students only; may be taken by other students, in exceptional circumstances, with approval from the Head of Department.

ANAT 451 Functional Human Anatomy
S2 0.1667 EFTS OL, OC, DP 20 points

ANAT 452 Reproductive Biology
N1 0.1667 EFTS OL, OC, DP 20 points

ANAT 453 Advanced Topics in Anatomical Science 1
ES 0.1667 EFTS OL, OC, DP 20 points

ANAT 454 Neurobiology
S1 0.1667 EFTS OL, OC, DP 20 points

ANAT 456 Developmental Biology
S1 0.1667 EFTS OL, OC, DP 20 points

ANAT 457 Advanced Topics in Anatomical Science 2
NO 0.1667 EFTS OL, OC, DP 20 points

ANAT 458 Current Topics in Anatomical Science
FY 0.1667 EFTS OL, OC, DP 20 points

ANAT 480 Research Project
FY, N1 0.3333 EFTS OL, OC, DP 40 points
A supervised project involving research and leading to the production of a research report.
R ANAT 481
LT PGDipSci

ANAT 490 Dissertation
FY, N1 0.5 EFTS OL, OC, DP 60 points
A supervised project involving original research and leading to the production of a dissertation.
LT BA(Hons), BSc(Hons), PGDipArts, PGDipSci

ANAT 495 Master's Thesis Preparation
FY, N1 0.3333 EFTS OL, OC, DP 40 points
Preparation of a thesis proposal/preliminary thesis research. Normally taken by students in the papers year for a Master's degree by papers and thesis.
LT MSc

An independent research project with supervision from academic staff. Particularly beneficial to students considering postgraduate study in Computer Science.	
P	(COSC 201 or 242) and (COSC 202 or 241)
RP	Enrolment in this paper requires departmental approval. You will be advised once a decision has been made. & COSC 203 and COSC 204
SC	Arts and Music, Science
<i>Note: Enrolment in this paper requires departmental permission. A departmental application process for students wishing to enrol in COSC 391 in a particular year will take place in the latter half of the second semester of the preceding year.</i>	
COSC 402	Advanced Computer Networks
S2	0.1667 EFTS OL, OC 20 points
Internetworking concepts; IP addressing; address resolution techniques; IP datagrams; IP encapsulation, fragmentation, and reassembly; TCP and UDP; the socket interface; IP routing; network mail; IP version 6; TCP/IP network planning multimedia and IP.	
P	COSC 244 or 301 or TELE 301
R	TELE 402
RP	COSC 242
COSC 410	Logic for Artificial Intelligence
NO	0.1667 EFTS OL, OC 20 points
Classical propositional logic, metatheorems, semantics and proof theory; nonmonotonic logic; belief change theory; satisfaction in modal and first-order languages; automated reasoning algorithms and SAT-solvers.	
COSC 411	Combinatorial Game Theory
NO	0.1667 EFTS OL, OC 20 points
The theory of games of perfect information between two players without random elements, and algorithms for determining how to play them well.	
COSC 412	Cryptography and Security
S2	0.1667 EFTS OL, OC 20 points
Theory of cryptography including public key systems and its use in computer security. Consideration of cryptographic methods in the context of complexity theory.	
COSC 420	Neural Networks
S1	0.1667 EFTS OL, OC 20 points
Introduction to neural networks - computational tools inspired by the brain - which give a different perspective on the nature of computation and complex topics such as vision, language, learning and memory.	
R	NEUR 420
COSC 421	Neural Models of Language
NO	0.1667 EFTS OL, OC 20 points
Introduction to models of how human language is implemented in the brain, drawing on research in linguistics, psychology, neuroscience and computational modelling.	
R	NEUR 421
COSC 422	Computational Neuroscience
NO	0.1667 EFTS OL, OC 20 points
Introduction to basic methods of computational modelling of biological neurons and neural circuits.	
R	NEUR 422
COSC 430	Advanced Database Topics
S1	0.1667 EFTS OL, OC 20 points
The theory and practice of database design and administration. Survey of research in the database field, such as data mining, multidimensional indexing, temporal databases, and distributed database architectures.	
COSC 431	Information Retrieval
S1	0.1667 EFTS OL, OC 20 points
Concepts, principles, and algorithms in information retrieval and text processing.	
COSC 440	Advanced Operating Systems
S2	0.1667 EFTS OL, OC 20 points
Enhance the concepts, principles, and algorithms in operating systems with real implementations.

COSC 441 Concurrent Programming

NO 0.1667 EFTS OL, OC 20 points

Theory and practice of concurrent programming, including locks, transactional memory, and message passing; multicore and distributed systems; and specification and testing of protocols.

COSC 450 Computer Vision and Graphics

S1 0.1667 EFTS OL, OC 20 points

Selected recent research topics in computer vision and computer graphics.

COSC 470 Special Topic: Machine Learning

NO 0.1667 EFTS OL, OC 20 points

Selected research topics in machine learning.

COSC 471 Approved Special Paper

NO 0.1667 EFTS OL, OC 20 points

COSC 480 Applied Project

FY 0.3333 EFTS OL, OC 40 points

An approved project on a topic in computer science.

LT MA, MAppSc, MSc, PGCertAppSc, PGDipAppSc, PGDipArts, PGDipSci

COSC 490 Dissertation

FY 0.3333 EFTS OL, OC 40 points

A supervised project involving original research and leading to the production of a dissertation.

Dental Technology

DTEC 101 Dental Materials 1

FY 0.15 EFTS OC 18 points

The physical and biological properties of materials important in the practice of dental technology.

LT BDentTech

DTEC 102 Dental Technology 1

FY 0.425 EFTS OL, OC 51 points

Tooth morphology and the design and construction of complete removable dentures.

LT BDentTech

DTEC 103 Oral Health Sciences for Dental Technology

S1 0.125 EFTS OL, OC 15 points

An introduction to the structure and function of tissues in the oral region. Principles of microbiology, immunology and pathology with emphasis on their relevance to the practice of dental technology.

LT BDentTech

DTEC 105 Dental Materials 3

FY 0.2 EFTS OL, OC 30 points

The physical and biological properties of materials important in the practice of dental technology with advanced study of ceramic and polymer technology.

P CHEM 191 and PHSI 191
LT BDentTech

DTEC 201 Dental Materials 2

FY 0.15 EFTS OL, OC 18 points

An advanced study of metal, ceramic, polymer and glass technology important in the practice of dental technology.

P DTEC 101 and CHEM 191 and PHSI 191
LT BDentTech

DTEC 202 Dental Technology 2

FY 0.375 EFTS OL, OC 45 points

The design and construction of partial removable dentures.

P DTEC 101, 102, 103
LT BDentTech, BDentTech(Hons)

DTEC 203 Dental Technology 3

FY 0.375 EFTS OL, OC 45 points

The design and construction of orthodontic appliances and conservative restorations.

P DTEC 101, 102, 103
LT BDentTech, BDentTech(Hons)

DTEC 204 Applied Design for Orthodontics

FY 0.1 EFTS OL, OC 12 points

The design and construction of orthodontic and related appliances.

P DTEC 101, 102, 103
LT BDentTech

DTEC 205 Dental Materials 4

S1 0.05 EFTS OL, OC 6 points

An advanced study of metals important to the practice of dental technology.

P DTEC 105
LT BDentTech(Hons)

DTEC 301 Special Topic: Dental Technology Research

FY 0.375 EFTS OL, OC 45 points

An introduction to the principles of research and critical literature evaluation followed by structured research exercises.

P DTEC 201
LT BDentTech

DTEC 302 Dental Technology 4

FY 0.375 EFTS OL, OC 45 points

The design and construction of complex appliances used in conservative restorations, maxillofacial reconstruction and implant restorations.

P DTEC 201, 202, 203
LT BDentTech, BDentTech(Hons)

DTEC 303 Practice Management

FY 0.1 EFTS OL, OC 12 points

The legal responsibilities, professional bodies, professional conduct and business management involved in operating a dental laboratory including one week of experiential outplacement in a dental laboratory or clinical dental laboratory.

P (DTEC 201, 202, 203, 204) or (DTEC 102, 103, 105, 204, MART 205)
LT BDentTech, BDentTech(Hons)

DTEC 401 Complete Denture Prosthodontics

N1 0.375 EFTS OL, OC 45 points

Treatment of patients who have no natural teeth with complete removable dentures.

LT PGDipCDTech

DTEC 402 Partial Denture Prosthodontics

N1 0.375 EFTS OL, OC 45 points

Planning and management of patients requiring tooth replacement with removable prostheses.

LT PGDipCDTech

DTEC 403 Dental Health

N1 0.25 EFTS OC 30 points

Knowledge and competencies necessary for the safe treatment of patients.

LT PGDipCDTech

DTEC 490 Dental Technology Research 3

N1 1.0 EFTS OL, OC 120 points

Data collection and analysis with emphasis on statistical analysis for research in dental technology and biomaterials science. Overview of research techniques. Literature review, research proposal, research project and presentation of dissertation.

P DTEC 301, 302, 303
LT BDentTech(Hons)

DTEC 491 Dental Technology Research 1
S2 0.1 EFTS OL, OC 25 points
Data collection and analysis with emphasis on statistical analysis for research in dental technology and biomaterials science. Overview of research techniques. Preparation of research proposal with literature.
P DTEC 105
LT BDentTech(Hons)

DTEC 492 Dental Technology Research 2
N1 0.625 EFTS OL, OC 95 points
Further development of research proposal. Data collection and analysis. Completion of research project and presentation of dissertation.
P DTEC 491
LT BDentTech(Hons)

DTEC 501 Advanced Dental Materials Science
N1 0.5 EFTS OL, OC 60 points
Advanced scientific principles underpinning dental materials science, including methods of analysis, design and testing of dental materials.
LT MDentTech, PGDipDentTech

DTEC 502 Advanced Fixed Prosthodontic Techniques
N1 0.25 EFTS OL, OC 30 points
Selected topics in advanced fixed prosthodontic techniques.
LT MDentTech, PGDipDentTech

DTEC 503 Advanced Implant Prosthodontic Techniques
N1 0.25 EFTS OL, OC 30 points
Selected topics in advanced implant prosthodontic techniques.
LT MDentTech, PGDipDentTech

DTEC 504 Advanced Maxillofacial Prosthodontic Techniques
NO 0.25 EFTS OL, OC 30 points
Selected topics in advanced maxillofacial prosthodontic techniques.

Dental Therapy

DTHR 401 Dental Therapy Clinical Practice
NO 0.25 EFTS OC 30 points
Advanced understanding and practice of clinical dental therapy based on current scientific knowledge and evidence-based oral health care.
LT PGDipDentTher

DTHR 402 Dental Therapy Management Practice
NO 0.25 EFTS OL, OC 30 points
Co-ordination of knowledge of oral health care and public health to gain an understanding and skills in management and evaluation of oral health programmes for patient, community and population groups based on sound scientific, clinical outcome and financial bases.
LT PGDipDentTher

DTHR 403 Dental Therapy Practice Project
NO 0.25 EFTS OC 30 points
Planning and carrying out of a project related to dental therapy practice, utilising the knowledge and skills developed in papers DTHR 401, 402 and 404.
LT PGDipDentTher

DTHR 404 Dental Public Health
NO 0.25 EFTS OL, OC 30 points
Advanced knowledge of oral health and oral health care in New Zealand and international contexts. Knowledge and understanding of the concepts and practice of dental public health and its role in New Zealand society, including the principles of the Treaty of Waitangi and the Ottawa Charter for Health Promotion. Introduction to oral health epidemiology and the planning of oral health services.
LT PGDipDentTher

Dentistry

DENT 261 The Dentist and the Patient 1
FY 0.26 EFTS OL, OC 33 points
An introduction to the clinical procedures used for examination, diagnosis and the management of patients in clinical dental practice. Properties of biomaterials and their use for restorative procedures.
LT BDS

DENT 262 Biomedical Sciences 1
FY 0.57 EFTS OL, OC 72 points
Biomedical sciences relevant to dentistry with particular emphasis on the structure and function of the craniofacial complex, oral and dental tissues and their interactions with the environment.
LT BDS

DENT 263 The Dentist and the Community 1
FY 0.12 EFTS OL, OC 15 points
An introduction to ethics and communication in dentistry, public health issues related to dentistry, and the prevention of dental diseases.
LT BDS

DENT 361 The Dentist and the Patient 2
FY 0.6 EFTS OL, OC 72 points
An introduction to treatment planning, preventive and restorative management of patients with problems arising from dental caries, dental trauma or due to pathology of the pulp, periapex or periodontium.
LT BDS

DENT 362 Biomedical Sciences 2
FY 0.3 EFTS OL, OC 36 points
Biomedical sciences relevant to dentistry with particular emphasis on disease processes, diagnosis and principles of management of medical and surgical conditions. Diseases of the oral region. Human growth and ageing.
LT BDS

DENT 363 The Dentist and the Community 2
S2 0.1 EFTS OL, OC 12 points
Public health issues related to dental diseases. Ageing and oral health. Culture, ethnicity and health, with particular emphasis on Māori oral health.
LT BDS

DENT 364 Dentistry in the New Zealand Context
S2 0.6 EFTS OL, OC 72 points
An introduction to clinical and community dentistry in the New Zealand setting and overview of the biomedical sciences that underpin dentistry.
R DENT 361, 362, 363
LT BDS
Note: DENT 364 is available only for approved students admitted under the International Medical University Partnership Programme and having previously passed appropriate courses; students who pass the paper will be credited with the First, Second, and Third Year courses of the programme.

DENT 461 The Dentist and the Patient 3
FY 0.75 EFTS OL, OC 90 points
Comprehensive multi-disciplinary treatment planning, preventive, restorative, prosthodontic and surgical management of patients of all ages with dental problems arising from caries, trauma, malocclusion or other pathology of the oral tissues.
LT BDS

DENT 462 Biomedical Sciences 3
S1 0.15 EFTS OL, OC 18 points
Advanced biomedical sciences to underpin modern sophisticated management of dental diseases and diseases of the oral region.
LT BDS

DENT 463 The Dentist and the Community 3
S2 0.1 EFTS OL, OC 12 points
Health promotion and education; health services and systems; ethics in public health and health research.
LT BDS

DENT 551 The Dentist and the Patient 4
FY 0.6 EFTS OL, OC 72 points
Contemporary evidence based clinical general dentistry involving delivery of general practice dentistry to an individual and the community.
R DENT 560
LT BDS

DENT 552 Biomedical Sciences 4
FY 0.15 EFTS OL, OC 18 points
Research analysis. Completion of a research project and presentation of a research report.
R DENT 560
LT BDS

DENT 553 The Dentist and the Community 4
FY 0.25 EFTS OL, OC 30 points
Clinical experience in a community placement with the provision of oral care that is both culturally acceptable and appropriate.
R DENT 560
LT BDS

DENT 561 General Practice Dentistry for Honours
FY 0.5 EFTS OL, OC 72 points
Preparation for independent clinical practice involving the delivery of general practice dentistry to an individual and the community.
LT BDS(Hons)

DENT 563 Community Service Learning
FY 0.1667 EFTS OL, OC 24 points
Clinical service and experience in a community-based placement with the provision of oral care that is both culturally acceptable and appropriate.
LT BDS(Hons)

DENT 571 The Dentist and the Patient 4
FY 0.6 EFTS OL, OC 72 points
Contemporary evidence-based clinical general dentistry involving delivery of general practice dentistry to an individual and the community.

DENT 580 Dental Honours Research Project 1
N1 0.0833 EFTS OL, OC 12 points
Overview of research techniques. Preparation of research proposal with literature review.
LT BDS(Hons)

DENT 581 Dental Honours Research Project 2
FY 0.25 EFTS OL, OC 36 points
Data collection and analysis. Completion of research project and presentation of research report.

Dentistry (Oral Health)

DEOH 101 The Body and Its Environment

S2 0.125 EFTS OL, OC 15 points
An introduction to anatomy, physiology and nutrition of the human body relevant to clinical oral health practice. Principles of microbiology and immunology.
LT BOH

DEOH 102 The Oral Environment: Health and Disease

S1 0.125 EFTS OL, OC 15 points
The development and structure of oral and dental tissues and their interactions with the oral environment. Applied clinical anatomy.
LT BOH

DEOH 103 Oral Informatics

S1 0.125 EFTS OL, OC 15 points
The principles of acquisition, evaluation and use of information for oral health education, health service delivery, clinical practice and research. The use of computers and their broad applications including professional management.
LT BOH

Note: May be taken by other students with approval from the Dean of the Faculty of Dentistry.

DEOH 104 Clinical Oral Health Practice

FY 0.475 EFTS OL, OC 57 points
An introduction to the clinical procedures used for the treatment of patients in oral health therapy practice.
LT BOH

DEOH 201 Human Disease and Pharmacology

S1 0.117 EFTS OL, OC 14 points
The basis of human disease and its management relevant to the practice of dental hygiene and dental therapy. Understanding of disease processes and their implications for oral health therapists.
LT BOH

DEOH 202 Oral Health Therapy 1

FY 0.292 EFTS OC 35 points
The principles and practice of dental hygiene.
LT BOH

DEOH 203 Oral Health Therapy 2

FY 0.292 EFTS OC 35 points
The principles and practice of dental therapy.
LT BOH

DEOH 301 Community Oral Health and Oral Health Promotion

S1 0.125 EFTS OL, OC 15 points
Issues in improving the oral health of the population.
LT BOH

DEOH 302 Advanced Oral Health Therapy 1

FY 0.375 EFTS OL, OC 45 points
Advanced clinical dental hygiene practice.
LT BOH

DEOH 303 Advanced Oral Health Therapy 2

FY 0.375 EFTS OL, OC 45 points
Advanced clinical dental therapy practice.
LT BOH

DEOH 304 Applied Oral Health Research

FY 0.125 EFTS OL, OC 15 points
The principles of oral health research and critical literature evaluation. Development of a research project and presentation of a brief research report.
LT BOH

DEOH 331 Advanced Oral Health Therapy 3

S2 0.5 EFTS OL, OC 60 points
Contemporary evidence-based dental therapy and dental hygiene clinical practice involving delivery of dental care to an individual and the community.

DEOH 501 Advanced Principles of Oral Health I

N1 0.5 EFTS OL, OC, DL 60 points
The development of an advanced level of knowledge, patient management, diagnostic and operative skills and social awareness within the scopes of dental hygiene and dental therapy practice.
LT MOH

DEOH 502 Advanced Principles of Oral Health II

N1 0.5 EFTS OL, OC, DL 60 points
The development, implementation and evaluation of an oral health promotion project for a specific group.
LT MOH

DEOH 580 Research Dissertation

N1 0.5 EFTS OL, OC, DL 60 points
Overview of research techniques. Preparation of research proposal, data collection and analysis, completion of research project and presentation of research dissertation.
LT MOH

DEOH 581 Research Dissertation

N1, N2 0.25 EFTS OL, OC, DL 60 points
A full-year paper representing half of DEOH 580 (taken by MOH students completing their dissertation over two years). Overview of research techniques. Preparation of research proposal, data collection and analysis, completion of research project and presentation of research dissertation.
R DEOH 580

Digital Health

DIGH 701 Principles of Digital Health and Informatics

S1 0.25 EFTS OL, DL 30 points
Advanced study of the strategies and frameworks that support the development and safe application of digital and information systems technology in healthcare.
R HEIN 701, 702

DIGH 703 Digital Health Technologies and Systems

S2 0.25 EFTS DL 30 points
Advanced techniques, processes, skills and tools required to inform the development and safe application of digital and information systems technology in healthcare.
R HEIN 703
LT PGDipHealInf, MHealSc, PGDipHealSc

DIGH 706 Research Methods for Digital Health

S1 0.25 EFTS DL 30 points
Introduction to all aspects of the process of research, with a special emphasis on study designs common in Digital Health, health informatics and biomedical research.
R HEIN 706, HEIX 706
Note: An elective paper for PGDipHealInf; may also be taken by other approved students.

DIGH 707 Health Information Governance and Ethics

S2 0.25 EFTS DL 30 points
Introduces the concepts of ethics and moral behaviour as it relates to the governance of Digital Health and health informatics.
R HEIN 707, HEIX 707

DIGH 708 Health technologies across the human lifespan (1)

S2 0.125 EFTS DL 15 points
Advanced study of the transformation of the experience and outcomes of healthcare for consumers through Digital Health technology.
P DIGH 701, 703

DIGH 709 Health technologies across the human lifespan (2)

S2 0.125 EFTS DL 15 points
Advanced study of the impact of Digital Health technology on Chronic Disease management and conditions related to disability, aging and end of life.
P DIGH 701, 703

Digital Humanities

DHUM 201 Digital Humanities: Method and Critique

S1 0.15 EFTS OL, OC 18 points
An introduction to 'digital humanities', understood as the application of computational methods for scholarly practice along with critical reflection on the techno-cultural transformations of both the humanities and humans.
P 36 points

Drugs and Human Health

See Biomedical Sciences programme requirements (page 94).

E

Earth and Ocean Science

EAOS 111 Earth and Ocean Science

S1 0.15 EFTS OL, OC 18 points
Your introduction to planet Earth, inside and out. The origin of our universe, oceans, mountains, climate change, and mass extinctions: it's all connected. Three field trips including a research cruise.
SC Science

Note: EAOS 111 is required for students taking Geology as a major or minor subject, and is recommended for students wishing to enter Marine Science studies at a later stage.

Ecology

ECOL 111 Ecology and Conservation of Diversity

S1 0.15 EFTS OL, OC 18 points
Species and population ecology: patterns of biodiversity; management of threatened species; evolution and environmental influences; how individuals interact with each other in populations, and with their physical environment.
R BIOL 114
SC Science

ECOL 211 Ecology of Communities and Ecosystems

S1 0.15 EFTS OL, OC 18 points
Focuses on how species interact, how these interactions build communities, how natural and human induced disturbances affect the integrity and sustainability of communities, and how an understanding of community and ecosystem-level processes can aid the restoration and management of natural areas for conservation.
P ECOL 111
SC Science

Note: ECOL 111 may be taken as a corequisite by students who have already passed 72 points from Science Schedule C.

ECOL 212 Ecological Applications

S2 0.15 EFTS OL, OC 18 points
Putting ecology into practice: approaches in applied ecological science; developing a research programme; sampling and experimental design.
P ECOL 111, 211
SC Science

ECOL 313 Ecology Field Course

N1 0.15 EFTS OL, OC, DP 18 points
The techniques of field ecology; sampling strategies, design, procedures and equipment; an initiation to ecological research.
P ECOL 211, 212 and (STAT 110 or 115)
SC Science

Notes: (i) This course is intended for third year students majoring in Ecology. However, other students may be admitted at the discretion of the Programme Co-ordinator. (ii) A compulsory field trip will be held prior to the beginning of the semester 8 - 14 February 2021.

ECOL 314 Tropical Field Ecology

N1 0.15 EFTS OL, OC, DP 18 points
The techniques of tropical field ecology; sampling strategies, design, procedures and equipment; an initiation to tropical ecological research.
RP ECOL 211 and ECOL 212 and (STAT 110 or STAT 115)
SC Science

Notes: (i) This paper is intended for third-year students majoring in Ecology or Zoology. (ii) This paper will include a compulsory field trip based in the tropics.

ECOL 411 Reading Ecology

S1 0.1667 EFTS OL, OC, DP 20 points
This literature-based paper focuses on learning best practice for publication by reading the top-ranked journals in ecology. Workshops will cover: independent research, statistics, scientific writing, modelling and biodiversity conservation.

ECOL 450 Special Topic: Special Topics in Tropical Ecology
NO 0.1667 EFTS OL, DP 20 points
An in-depth investigation, involving supervised research, data analysis and a literature review, on an aspect of tropical animal ecology in Borneo.
P ECOL 314

ECOL 480 Research Project
FY 0.3333 EFTS OL, OC, DP 40 points
A supervised project involving research and leading to the production of a research report.
LT PGDipSci

ECOL 490 Dissertation
FY 0.5 EFTS OL, OC, DP 60 points
A supervised project involving original research and leading to the production of a dissertation.
LT BSc(Hons), PGDipSci

ECOL 495 Master's Thesis Preparation
FY 0.3333 EFTS OL, OC, DP 40 points
Preparation of a thesis proposal/preliminary thesis research. Normally taken by students in the papers year for a Master's degree by papers and thesis.
LT MSc

Economics

ECON 112 Principles of Macroeconomics
S2 0.15 EFTS OL, OC 18 points
Introduction to analysing the economy as a whole. Topics include the determination of national income, unemployment, inflation, interest rates and the exchange rate, as well as monetary and fiscal policy.

Introduction to early childhood education in Aotearoa including curriculum, pedagogy and assessment for diverse children, families, and communities and the integration and implementation of quality curriculum.

LT MTchgLn

Note: Available only for the Early Childhood Education endorsement.

EDUC 475 Evidence-based Inquiry (Early Childhood)

N1 0.25 EFTS OL, OC 30 points

Designing and implementing evidence-based curriculum consistent with Te Whariki and community-based aspirations for children's learning, demonstrating sound decision-making, reflexive practice, effective use of ICT, personal teaching growth and development.

LT MTchgLn

Note: Available only for the Early Childhood Education endorsement.

EDUC 476 Diversity and Inclusion

N1 0.25 EFTS OL, OC 30 points

Strategies, valuing identity and diversity for engagement with priority learners, gifted and talented learners, and learners with special needs.

LT MTchgLn

EDUC 477 Secondary Curriculum 1

N1 0.25 EFTS OL, OC 30 points

Engaging with specified curriculum learning areas and developing pedagogically appropriate teaching approaches.

LT MTchgLn

Note: Secondary Education only.

EDUC 478 Evidence-based Inquiry (Secondary)

N1 0.25 EFTS OL, OC 30 points

Designing data-driven learning interventions and teaching strategies in specified curriculum areas that demonstrate decision-making skills, reflexive practice, effective use of ICT, personal teaching growth and development.

LT MTchgLn

Note: Secondary Education only.

EDUC 480 Research Study
FY 0.3333 EFTS OL, OC, DL 40 points
Independent in-depth exploration of an educational issue, comprising either a review of relevant literature, or completion of a study approved by the Dean of the College of Education.

LT MedLn

EDUC 572 Primary Curriculum 2
N1 0.25 EFTS OL, OC 30 points
Extending and broadening curriculum knowledge and pedagogically appropriate teaching approaches across curriculum learning areas.
LT MTchgLn
Note: Primary Education only.

EDUC 573 Extended Evidence-based Inquiry (Primary)
N1 0.25 EFTS OL, OC 30 points
Extending the inquiry approach across curriculum learning areas for sustained teaching and learning, engagement focused on professional and collaborative relationships, a learning culture which engages diverse learners, engagement with te reo Māori me ngā Tikanga-a-iwi and pedagogically-informed ICT use.
P EDUC 473, EICT 199, ELIT 199, EMAT 199
LT MTchgLn
Note: Primary Education only.

EDUC 574 Early Childhood Curriculum 2
N1 0.25 EFTS OL, OC 30 points
Investigation of factors that influence quality professional practices in early childhood education nationally and internationally, including a particular focus on the ethics of care and curriculum for people under three.
LT MTchgLn
Note: Available only for the Early Childhood Education endorsement.

EDUC 575 Extended Evidence-based Inquiry (Early Childhood)
N1 0.25 EFTS OL, OC 30 points
Designing and implementing effective curriculum for continuity, competence, and community, demonstrating sound reflexive decision-making, effective ICT usage and engagement with culturally competent practices.

GENA 821 Research Methods in Primary Health Care

S2 0.25 EFTS OL, DL 30 points
The principles of critical appraisal of health literature, and an introduction to research methodology, research design methods, data collection, research reporting and research ethics.

R GENX 821
LT PGCertGP, PGCertPHC, PGDipGP, PGDipHealSc, PGDipPHC, PGDipRPHP, MHealSc

GENA 822 Advanced Nature of General Practice

S2 0.125 EFTS OL, DL 15 points
In-depth exploration of whole person care in medicine, leading to the consideration of what constitutes quality in general practice. Modules include hope, loss and suffering, knowing how we practice and patient safety in primary care.

LT PGCertGP, PGCertPHC, PGDipGP, PGDipHealSc, PGDipPHC, PGDipRPHP, MHealSc

GENA 823 Teaching and Learning in Medical Practice

FY 0.25 EFTS OL, DL 30 points
Examines learning theory, provides opportunities for experiential and group learning, and explores the nature of reflective teaching practice. Areas considered include the process of change, course design and evaluation, teaching methods and the assessment of learning. Learning contexts include medical education, medical practice and continuing professional development. A balance is provided between core material and the opportunity to develop individual areas of interest and application.

GEOG 401 Theories of Development

S1 0.1667 EFTS OL, OC 20 points
Examines the different approaches to development theory and the development industry, since 1945. Modernist, neo-Marxist, neo-liberal, and 'post-development' perspectives are used to assess strengths and weaknesses of contemporary development processes.

GEOG 402 Development Planning and Practice

S2 0.1667 EFTS OL, OC 20 points
Explores policy formulation and delivery of effective development interventions in urban and rural areas, primarily in developing countries.

GEOG 454 Alpine Geomorphology

S1 0.1667 EFTS OL, OC 20 points
Earth surface processes and resultant landforms in high altitude and high latitude areas.

GEOG 457 Advanced Urban Geography

S1 0.1667 EFTS OL, OC 20 points
Geographical approaches to issues in contemporary urban policy and planning, including employment, housing, transport, social services and health care.

GEOG 459 Biogeography

S2 0.1667 EFTS OL, OC 20 points
Approaches to vegetation analysis; past and present vegetation patterns; plant strategies for survival in stressful environments; anthropogenic vegetation.

GEOG 460 Climatology

S2 0.1667 EFTS OL, OC 20 points
Climatic forcing of seasonal snow, glaciers and avalanches; evaporation; climate change.

GEOG 461 Mountain Hydrology

S1 0.1667 EFTS OL, OC 20 points
A survey of mountain and cold climate hydrology, with an emphasis on catchment scale processes, datalogger programming, instrumentation and analytical techniques.

GEOG 463 Geographies of Justice

S2 0.1667 EFTS OL, OC 20 points
Exploration of social and environmental (in)justice. Analysis of how justice affects people differently in different places, in relation to different issues.

Note: May not be credited together with GEOG 465 passed in 2016 or 2017.

GEOG 464 An Approved Course in Geography

Hazard Assessment and Management

HAZA 401 Management of Chemical Hazards

S1 0.1667 EFTS OL, DL, DP 20 points
Principles that guide the identification and practical treatment of chemical hazards in today's society.

R CHEM 477, CHEX 477, HAZX 401

HAZA 408 Radiation Hazards

NO 0.1667 EFTS OL, DL, DP 20 points
An introduction to the nature and uses of radiation in New Zealand, and the legislation and regulations associated with radiation use in New Zealand.

R HAZX 408

HAZA 409 New Organisms: Risk Assessment and Management

N1, N2 0.1667 EFTS OL, DL 20 points
New organisms in New Zealand: historical and legislative view; entry of new organisms; examples of risk assessment and management systems for established, new and potential organisms, including genetically modified organisms.

R HAZX 409

Health Management

HLMT 790 Dissertation

ES, FY, N1 0.5 EFTS OC 60 points
A supervised dissertation presenting the results of an original research project on a relevant topic in the student's area of interest within health management.

LT MHealSc
L Dunedin, Christchurch, Wellington

HLMT 791 Dissertation

ES 0.25 EFTS OL, OC 60 points
A single-semester paper representing half of HLMT 790 (normally taken by approved students in the second semester and again in the first semester of the following year).

LT MHealSc
L Dunedin, Christchurch, Wellington

Health Sciences

HASC 401 Special Topic: Genomic Health and Medicine

ES 0.25 EFTS OL, OC, DL, DP 30 points
Evidence-based overview of genomic medicine in Aotearoa and internationally, exploring key concepts and contemporary ethical, legal, social and cultural considerations associated with its adoption into healthcare.

Note: See Computational Modelling (page 125) for further mathematics-related papers.

MATH 151 General Mathematics

S1, SS 0.15 EFTS OL, OC 18 points

Topics such as basic mathematical models, operations research, introductory calculus, compound interest, exponential growth and decay, simple integration as well as exponential, logarithmic and trigonometric functions.

R FINC 102, FINQ 102, QUAN 102
SC Arts and Music, Science

Notes: (i) This paper is recommended for students with NCEA Level 2 mathematics or equivalent. It provides excellent preparation for students wishing to take MATH 160. (ii) MATH 151 cannot be credited together with MATH 101-104, 160 or 170 passed previously or concurrently.

MATH 160 Mathematics 1

ES, SS 0.15 EFTS OL, OC 18 points

This paper is divided between algebra and calculus. The algebra component introduces vectors and geometric constructions fundamental to applications in mechanics and computer graphics. Matrices, polynomials, and complex numbers are introduced. The calculus component covers ideas and methods of differential and integral calculus together with key applications and extensions.

S2 0.15 EFTS OL, OC 18 points
The media's role in colonisation; the representation and stereotyping of minorities, specifically indigenous minorities; and discussion of native/indigenous peoples' portrayals of themselves.
P 18 200-level MFCO or FIME points
SC Arts and Music
Note: May not be credited together with FIME 310 passed in 2007 or 2008.

MFCO 319 Contemporary American Cinema

S1 0.15 EFTS OL, OC 18 points
An examination of a topic or topics pertaining to contemporary American cinema - such as the romantic comedy, the science fiction film, documentary genres, new technologies in American cinema, global Hollywood.
P 18 200-level MFCO or FIME points
R FIME 311
SC Arts and Music
Note: Students who have not passed the normal prerequisite may be admitted with approval from the Head of Department.

MFCO 330 Special Topic: Film Festivals

NO 0.15 EFTS OL, OC 18 points
Provides an historic, experimental introduction to the world of film festivals, including judging and curating opportunities, plus 'behind-the-scenes' tours and attendance at the New Zealand International Film Festival.
P One 200-level MFCO or FIME paper
SC Arts and Music

MFCO 401 Advanced Media, Film and Communication Theory

FY 0.1667 EFTS OL, OC 20 points
Current issues and theoretical debates in Film, Media and Communication Studies and provides students with writing, research and organisational skills necessary for an Honours degree.
P 54 300-level MFCO or FIME points
R COMS 401, FIME 401, MFCO 403

MFCO 406 Audience Studies

S1 0.1667 EFTS OL, OC 20 points
An overview of the field of audience studies as it relates to film, media and communication.
P 54 300-level MFCO points
Note: May not be credited together with MFCO 407 passed in 2012, 2014, 2015 or 2016.

MFCO 408 A Topic in Cinema, Gender and Sexuality

NO 0.1667 EFTS OL, OC 20 points
An examination of a topic or topics that address the intersection between cinema, gender and sexuality - such as the representation of women in film, cinema audiences and gender, desire and the gaze in the cinema.
P 54 300-level MFCO, GEND or FIME points
R FIME 406

MFCO 409 Advanced Media History

S2 0.1667 EFTS OL, OC 20 points
Developments in the history of broadcasting during the past century and the history of other media. Interactions among media institutions, technological developments, cultural identity, and social context. Different approaches to writing media history.
P 54 300-level MFCO points

MFCO 410 Documentary Film and Media

NO 0.1667 EFTS OL, OC 20 points
Historical development of documentary from dawn of cinema to present trans-media environment; important movements and methods of documentary practice; a range of theoretical and critical perspectives upon contemporary documentary.
P 54 300-level points

MFCO 412 Communicating the Self

NO 0.1667 EFTS OL, OC 20 points
Frames communications as producing mediated identities. How consumer cultures and media intersect with identity and how identities are produced through interactions with commodities and media.
P 54 300-level MFCO points

MFCO 414 Discourse Theory and Practice

S2 0.1667 EFTS OL, OC 20 points
Social practices in relation to media and society, the philosophical basis for concepts of discourse, and communication in a range of social contexts.
P 54 300-level MFCO points

MFCO 441 Special Topic: Digital Asia

NO 0.1667 EFTS OL, OC 20 points
Digital Asia provides an opportunity for students to engage critically and creatively with contemporary approaches to Asian digital media and communications.
P 54 300-level MFCO points
Note: May not be credited with MFCO 332 when taken with the same content.

MFCO 490 Dissertation

FY, N1 0.5 EFTS OC 60 points

MELS 208 Introduction to Diagnostic Pathology

FY 0.3565 EFTS OL, OC 45 points
An introduction to diagnostic pathology, which examines professional, cultural and ethical issues and includes modules on microbiology and immunology, clinical biochemistry, haematology, transfusion science, histology, molecular diagnostics and clinical genetics.
R MELS 207, 221
LT BMLSc

MELS 223 Infection and Immunity (for BMLSc)

S2 0.1425 EFTS OL, OC 18 points
The epidemiology and pathogenesis of infectious diseases, the response of the immune system to microbial antigens, and how the response is measured.
R MICR 223
LT BMLSc

MELS 230 Biochemistry (for BMLSc)

S1 0.1425 EFTS OL, OC 18 points
Gene and genome structure and function. DNA replication. Genetic code and protein synthesis. Concepts of DNA cloning and gene analysis in disease and forensics. Concepts of gene therapy. Concepts of energy metabolism involving carbohydrates, fats and proteins. Regulation and integration of metabolism. Cell signalling in health and disease. Role of clinical diagnostics. Metabolic processes in drug metabolism and body organ function.
R BIOC 221, 230 and PHCY 231. May not be taken if BIOC 223 has been passed prior to 2019 or HUNT 221 has been passed from 2019 onwards.

LT	BMLSc
MELS 301	Diagnostic Chemical Pathology
S2	0.25 EFTS OL, OC 30 points
A study of systematic chemical pathology, including the major organ systems, their diseases and biochemical abnormalities, metabolic diseases, and the molecular basis of inherited diseases including basic analytical techniques, instrumentation and data-processing.	
LT	BMLSc
MELS 302	Haematology and Transfusion Science
S2	0.25 EFTS OL, OC 30 points
Provides basic knowledge in haematology and immunohaematology and comprises the study of the cellular components of blood, their functions, the haemostatic processes and outlines disease processes affecting them.	
LT	BMLSc
MELS 304	Principles of Pathology
S1	0.125 EFTS OL, OC 15 points
The scientific study of disease processes that result in morphological and functional changes in cells, tissues and organs, includes an introduction to anatomic pathology and pathophysiology. The basic processes of degeneration, cell death, inflammation, immunological reactions, tissue repair and disorder of growth including neoplasia.	
LT	BMLSc
MELS 305	Elements of Histotechnology
S1	0.125 EFTS OL, OC 15 points
An introduction to the theory and practice of histotechnology, cytology and diagnostic electron microscopy.	
LT	BMLSc
MELS 306	Medical Microbiology
S1	0.25 EFTS OL, OC 30 points
Infectious diseases of humans and their causative agents; the molecular basis of microbial pathogenesis; the prevention, laboratory diagnosis and treatment of infection.

Nursing

NURS 403 Mental Health Nursing Practice

S1 0.25 EFTS OL, DL 30 points
Provision of a theoretical basis for mental health nursing through the use of a problem-based learning approach, and the incorporation of critical social theory as a basis for reflection on mental health nursing practice.
R NURX 403
LT MAdvNP, MHealSc, PGCertHealSc, PGDipHealSc
L Christchurch

NURS 404 Advanced Mental Health Nursing Practice

NO 0.25 EFTS OL, DL 30 points
Advanced clinical practice in a mental health nursing context. Critique of practice and the application of research and theoretical principles to mental health nursing practice.
P NURS 403 or NURX 403
R NURX 404
LT MAdvNP, MHealSc, PGCertHealSc, PGDipHealSc
L Christchurch

Note: Students must have had at least two years' clinical experience in a mental health context.

NURS 405 Health Assessment and Advanced Nursing Practice

S1 0.25 EFTS OL, DL 30 points
Enables the registered nurse to demonstrate health assessment knowledge and skills to meet the competencies required for advancing nursing practice. A period of mentored practice will integrate physical, psychosocial assessment and pathophysiology in the nurse's specialty area.
R NURX 405
LT MAdvNP, MHealSc, PGCertHealSc, PGDipHealSc
L Christchurch

NURS 409 Mental Health Nursing Practicum

S2 0.25 EFTS OL, DL 30 points
Practicum offering clinical knowledge and skills for specialist mental health nursing and mental health care delivery. Critique of practice and application of research and theoretical principles to mental health nursing clinical practice.
R NURX 409
LT MAdvNP, MHealSc, PGCertHealSc, PGDipHealSc
L Christchurch

Note: Limited to nurses with no more than six months clinical experience in a mental health specialty.

NURS 411 Nursing - High Acuity

S2 0.25 EFTS OL, DL 30 points
Professional skills and knowledge related to clinical competence in areas such as high dependency, critical care and emergency nursing.
R NURX 411
LT MAdvNP, MHealSc, PGCertHealSc, PGDipHealSc
L Christchurch

NURS 413 Primary Health Care Nursing - Rural/Urban

S2 0.25 EFTS OL, DL 30 points
This paper addresses specialist knowledge, problem-solving skills and technical competence in the area of primary health care nursing. It involves critique of practice and the application of research and theoretical principles to attain best practice standards. Students determine their focus as rural or urban studying their own scope of practice.
LT MAdvNP, MHealSc, PGCertHealSc, PGDipHealSc
L Christchurch

NURS 415 Nursing Research Methods

S1 0.25 EFTS OL, DL 30 points
An advanced research methods paper designed to provide students with a working knowledge of a range of methods and analyses used in the field of nursing research. Content will include both qualitative and quantitative methodologies and address research ethics.
R NURX 415
LT MHealSc, PGDipHealSc
L Christchurch

NURS 416 Nursing - Applied Pharmacology

S2 0.25 EFTS OL, DL 30 points
Covers bioscience and pharmacology informing registered nurse practice. Provides registered nurses with legal, ethical, prescribing and drug administration frameworks as described by the Nursing Council of New Zealand.
R NURX 416
LT MAdvNP, MHealSc, PGCertHealSc, PGDipHealSc
L Christchurch

NURS 418 Nursing Education - Principles and Practice

S2 0.25 EFTS OL, DL 30 points
Addresses the principles of education theory and practice related to clinical and nursing education settings. Pedagogical approaches are introduced and the socio-political foundations for nursing education are evaluated.
R NURX 418
LT MHealSc, PGDipHealSc
L Christchurch

NURS 423 Nursing - Leadership and Management 1

S1 0.25 EFTS OL, DL 30 points
An introduction to contemporary theories of leadership and management as integrated into the discipline of nursing, including the changing health care environment, the tasks of nursing management, the process of nursing leadership, and cultural safety and nursing leadership in New Zealand.
R NURX 423
LT MHealSc, PGCertHealSc, PGDipHealSc
L Christchurch

NURS 424 Nursing - Leadership and Management 2

S2 0.25 EFTS OL, DL 30 points
The application of theoretical knowledge, using cases to examine quality in the health care environment, strategic management for the nurse leader and the process of nursing leadership.
P NURS 423 or NURX 423
R NURX 424
LT MHealSc, PGCertHealSc, PGDipHealSc
L Christchurch

NURS 426 Nursing - Gerontology
S2 0.25 EFTS OL, DL 30 points
An applied practicum in the core knowledge of gerontology nursing allied with a specialty practice focus in hospital, community and/or home nursing facilitating advanced nursing practice.
R HASC 404, HASX 404, NURX 426
LT MAdvNP, MHealSc, PGCertHealSc, PGDipHealSc
L Christchurch

NURS 427 Long-term Conditions: Pathophysiology and Management
S1 0.25 EFTS OL, DL 30 points
Principles of effective long-term condition management, including pathophysiological concepts, for assessing the impact of chronic conditions and application with best practice clinical guidelines. Early detection, practice-based resources, patient self-management, and end of life care are addressed.
R NURX 427
LT MAdvNP, MHealSc, PGCertHealSc, PGDipHealSc
L Christchurch

NURS 429 Therapeutics for Advanced Nursing
S2 0.25 EFTS OL, DL 30 points
Consolidation of knowledge and skills for the Registered Nurse in physical and psychosocial assessment, pathophysiology, pharmacotherapeutics and diagnostic reasoning essential to safely prescribe and manage clients under supervision.
P NURS 405, 416
LT MAdvNP, MHealSc, PGDipHealSc
L Christchurch

NURS 431 Rural Nursing
NQ(2022) 0.25 EFTS OL, DL 30 points
Explores the concept of rural nursing and advances theoretical knowledge and practical skills to facilitate practice in rural hospital and community settings.
R NURX 431
LT MAdvNP, MHealSc, PGDipHealSc
L Christchurch

NURS 433 Intellectual Disability: Theory into Practice
S2 0.25 EFTS OL, DL 30 points
The application of philosophical frameworks within practice to support individuals to optimise health, behavioural challenges and services access for people with intellectual disability across the lifespan.
LT MAdvNP, MHealSc, PGDipHealSc
L Christchurch

NURS 434 Therapeutics: Knowledge and Integration
S1 0.25 EFTS OL, OC, DL 30 points
This paper builds on prior learning to integrate conceptual frameworks in pharmaco and non-pharmacotherapeutic management. Students utilise physical and psychosocial assessment, differential diagnosis and clinical decision making for prescribing of medications, therapies, and appliances.
P NURS 416 or NURX 405
L Christchurch

Note: Study is concurrent with 150 hours of supervised clinical practice.

NURS 435 Evidence Based Nursing Practice
S1 0.25 EFTS OL, DL 30 points
Acquisition of critical appraisal skills to interpret research and new knowledge for making clinical decisions in order to implement evidence-based nursing for populations and individuals.
LT MAdvNP
L Christchurch

Note: Nurse Practitioner preparation students intending to take NURS 435 should contact the Centre for Postgraduate Nursing Studies for advice on enrolling via Special Permission.

NURS 441 Professional Nursing
N1 0.125 EFTS OL, OC 15 points
The professional basis of nursing practice, nursing theory and related concepts for nursing.
LT MNSc
L Christchurch

NURS 442 Health Care in New Zealand
N1 0.125 EFTS OL, OC 15 points
The context of health care in New Zealand; health strategy, policy, structure and global influences; rural/urban communities and population influences; the significance of the Treaty of Waitangi.
LT MNSc
L Christchurch

NURS 443 Nursing Science 1
N1 0.125 EFTS OL, OC 15 points
Normal anatomy and physiological function across the lifespan with an introduction to pathophysiological processes, genetics, immunology and microbiology. Particular foci on scientific principles that align with students' clinical placements.
LT MNSc
L Christchurch

NURS 444 Nursing Science 2
N1 0.125 EFTS OL, OC 15 points
Extension of prior knowledge, using case-based approaches covering altered health states, complex pathological processes (including cancers) and autoimmune diseases. Introduction to pharmacological principles, medications and polypharmacy relating to cases and clinical practice.
P NURS 443, 445
LT MNSc
L Christchurch

NURS 445 Introduction to Clinical Nursing Practice
N1 0.125 EFTS OL, OC 15 points
Introduction to nursing skills for assessment, planning and ongoing health care across the lifespan. Foundational technological and skill acquisition for safe practice and application of clinical judgement and clinical reasoning.
LT MNSc
L Christchurch

NURS 446 Nursing Clients with Altered Health States
N1 0.125 EFTS OL, OC 15 points
Nursing skills and knowledge in caring for people with an acute illness, acute exacerbation of existing illness, susceptibility to life-threatening conditions, including pre-, peri- and postoperative care.
P NURS 443, 445
LT MNSc
L Christchurch

NURS 447 Applied Nursing Research
N1 0.25 EFTS OL, OC 30 points
A research methods paper providing methods, analyses and ethics used in nursing research. Content will include quantitative and qualitative methodologies. Includes a clinically applied fieldwork component.
LT MNSc
L Christchurch

NURS 501 Nursing Science 3
N1 0.125 EFTS OL, OC 15 points
Integration of established science knowledge, pharmacokinetics and pharmacodynamics, informing clinical decisions. Study of cases emphasising integration of concepts, complexity and the holistic nature of care and interventions.
P NURS 441, 442, 444, 446
LT MNSc
L Christchurch

NURS 502 Mental Health Nursing

Further examination of the function of nervous, endocrine, cardiovascular, respiratory, renal, and gastrointestinal systems of the human body.

P HUBS 191, 192 and two of BIOC 192, CELS 191, CHEM 191, PHSI 191
R (PHSL 231, 232, 233), MELS 251, PHCY 251, PHTY 251
SC Science

Note: Only available to students majoring in Human Nutrition.

PHSL 341 Molecular, Cellular and Integrative Neurophysiology (I)

S1 0.15 EFTS OL, OC 18 points
Current research in neurophysiology at the molecular, cellular and systems levels. Themes may vary from year to year and are distinct from those in PHSL 342.

P PHSL 231
SC Science

PHSL 342 Molecular, Cellular and Integrative Neurophysiology (II)

S1 0.15 EFTS OL, OC 18 points
Current research in neurophysiology at the molecular, cellular and systems levels. Themes may vary from year to year and are distinct from those in PHSL 341.

P PHSL 231
SC Science

PHSL 343 Cellular and Epithelial Physiology

S2 0.15 EFTS OL, OC 18 points
The cellular and molecular basis of the mechanisms and regulation of epithelial transport and the effect of representative diseases on these processes.

P PHSL 233
SC Science

PHSL 344 Cardiovascular Physiology

S2 0.15 EFTS OL, OC 18 points
The cardiovascular system during health and disease at molecular, cellular and system levels. Themes are based on research areas of teaching staff.

P PHSL 232
SC Science

PHSL 345 Physiological Aspects of Health and Disease

S1 0.15 EFTS OL, OC 18 points
The application of knowledge about human molecular, cellular and systems physiology in understanding physiology and pathophysiology of the human body.

P PHSL 232, 233
SC Science

PHSL 471 Systematic Physiology

FY 0.1667 EFTS OC, DP 20 points
A seminar series exploring research frontiers in systems and integrative physiology through the study of contemporary papers from the scientific literature in each topic area.

PHSL 472 Neurophysiology

FY 0.1667 EFTS OC, DP 20 points
A seminar series exploring research frontiers in neurophysiology through the study of contemporary papers from the scientific literature in each topic area.

PHSL 473 Cellular Physiology

FY 0.1667 EFTS OC, DP 20 points
A seminar series exploring research frontiers in cellular physiology through the study of contemporary papers from the scientific literature in each topic area.

PHSL 474 Research Topics

FY 0.1667 EFTS OC, DP 20 points
A progressive and guided writing and literature survey exercise in areas of physiology that form the background to work undertaken in the research project.

PHSL 480 Research Project

FY 0.3333 EFTS OC, DP 40 points
A supervised laboratory project involving original research and leading to the production of a research report.
LT PGDipSci

PHSL 490 Dissertation

FY 0.5 EFTS OC, DP 60 points
A supervised project involving original research and leading to the production of a dissertation.
LT BSc(Hons), PGDipSci

PHSL 495 Master's Thesis Preparation

FY 0.3333 EFTS OC, DP 40 points
Preparation of a thesis proposal/preliminary thesis research. Normally taken by students in the papers year for a Master's degree by papers and thesis.
LT MSC

Physiotherapy

PHTY 250 Anatomy (for BPhy)

FY 0.209 EFTS OL, OC 26 points
Musculoskeletal anatomy, neuroanatomy and systems anatomy relevant to physiotherapy.
LT BPhy

PHTY 251 Physiology (for BPhy)

S1 0.133 EFTS OL, OC 17 points
Further examination of the function of major organ systems of the human body, with relevance to the practice of physiotherapy.
R (PHSL 231, 232, 233) or PHSL 251
LT BPhy

PHTY 252 Pharmacology (for BPhy)

S2 0.095 EFTS OL, OC 12 points
Diagnosis and principles of management of medical and surgical conditions relevant to physiotherapy. Drug action and administration. Drugs used to treat common medical conditions, particularly those managed by physiotherapists.
R PHAL 211, 212
LT BPhy

PHTY 254 Physiotherapy Rehabilitation Science 1

FY 0.38 EFTS OL, OC 48 points
Application and integration of the principles of biological, social and medical sciences and evidence-informed practice to the introductory skills of musculoskeletal, neurological and cardiopulmonary physiotherapy rehabilitation.
LT BPhy

PHTY 255 Physiotherapy Clinical Practice 1

FY 0.133 EFTS OL, OC 17 points
An evidence-based approach to professional practice where students are introduced to the integration of theory and practice with an emphasis on professional, ethical, cultural and legislative issues.
LT BPhy

PHTY 353 Pathology (for BPhy)

S1 0.125 EFTS OL, OC 15 points
The study and understanding of the principal pathological processes likely to be encountered in physiotherapy practice.
LT BPhy

PHTY 354 Physiotherapy Rehabilitation Science 2

FY 0.5833 EFTS OL, OC 70 points
Application and integration of the principles of biological, social and medical sciences and evidence-informed practice to the skills required for musculoskeletal, neurological and cardiopulmonary physiotherapy rehabilitation at an advanced level.
LT BPhy

PHTY 355 Physiotherapy Clinical Practice 2

FY 0.2917 EFTS OL, OC 35 points
An evidence-based approach to professional practice where students integrate theory and practice with an emphasis on professional, ethical, management and legislative issues.
LT BPhy

PHTY 455 Physiotherapy Clinical Practice 3

S1, FY, N1, N2, N3, N4 0.2 EFTS OL, OC 24 points
An evidence-based approach to professional practice where students integrate theory and practice with an emphasis on physiotherapy management in the musculoskeletal setting.
LT BPhy
L Dunedin, Christchurch, Wellington

PHTY 456 Physiotherapy Clinical Practice 4

S1, FY, N1, N2, N3, N4 0.2 EFTS OL, OC 24 points
An evidence-based approach to professional practice where students integrate theory and practice with an emphasis on physiotherapy management in the neurorehabilitation setting.
LT BPhy
L Dunedin, Christchurch, Wellington

PHTY 457 Physiotherapy Clinical Practice 5

S1, FY, N1, N2, N3, N4 0.2 EFTS OL, OC 24 points
An evidence-based approach to professional practice where students integrate theory and practice with an emphasis on physiotherapy management in the cardiopulmonary/tertiary care setting.
LT BPhy
L Dunedin, Christchurch, Wellington

PHTY 458 Physiotherapy Clinical Practice 6

S1, FY, N1, N2, N3, N4 0.2 EFTS OL, OC 24 points
An evidence-based approach to professional practice where students integrate theory and practice with an emphasis on physiotherapy management in the community/primary care setting.
LT BPhy
L Dunedin, Christchurch, Wellington

PHTY 459 Research for Physiotherapy

S1, FY, N1, N2, N3 0.2 EFTS OL, OC 24 points
An approved independent or group research project in physiotherapy supervised by a member of staff, including components of ethics, critical review and data analysis.
LT BPhy
L Dunedin, Christchurch, Wellington

PHTY 468 Physiotherapy Clinical Practice for Honours

FY 0.75 EFTS OL, OC 90 points
An integrated approach to professional practice based on research informed learning in tertiary care, rehabilitation and community environments and physiotherapy management of cardiovascular-pulmonary, musculoskeletal and neurological conditions across the lifespan.
LT BPhy(Hons)
L Dunedin, Wellington

PHTY 469 Physiotherapy Research for Honours

FY 0.25 EFTS OL, OC 30 points
An original piece of scientific enquiry relevant to physiotherapy featuring recognised research methodologies and presented at a level suitable for submission to an international peer reviewed journal.
LT BPhy(Hons)
L Dunedin, Wellington

PHTY 501 Biomedical Science in Physiotherapy

S1 0.25 EFTS OL, OC, DL 30 points
Integration of the applied, medical and clinical sciences that underpin the philosophy, examination and management practices in physiotherapy. Students will study topics appropriate to their clinical specialisation.
R PHTX 501
LT MPhy, PGCertPhy, PGDipPhy

PHTY 530 Theoretical Constructs in Clinical Practice

S2 0.25 EFTS OL, DL 30 points
Clinical practice structured to extend the physiotherapist's theoretical knowledge and reasoning skills and to develop an advanced level of competence and critical evaluation in their specialised fields of practice.

PUBH 202 Health Promotion

S2 0.15 EFTS OL, OC 18 points
Introduces health promotion principles, practice and evidence through such strategies as education, community development and healthy public policy, with particular relevance to promoting the health of New Zealand adolescents and young adults.
P 108 points
R HEAL 202
SC Arts and Music

PUBH 203 Health Policy and Politics: Global and Local

S1 0.15 EFTS OL, OC 18 points
Analysis of health policymaking processes, and approaches to organising, financing and providing health care in New Zealand and overseas, with reference to public policy, politics, economics and management.
P 108 points
R HEAL 203
SC Arts and Music

PUBH 204 Hauora Māori: Challenges and Opportunities

S2 0.15 EFTS OL, OC 18 points
An introduction to Māori public health, exploring the nature and extent of the Māori population, determinants of Māori health outcomes, Māori health inequities and initiatives to address these.
P 108 Points
SC Arts and Music

PUBH 211 Epidemiology of Global Health Conditions

S1 0.15 EFTS OL, OC 18 points
Examines selected global health problems in order to deepen understanding of epidemiological concepts and to review current knowledge about the distribution, determinants and prospects for control of these conditions.
P (HEAL 192 or POPH 192 or PUBH 192) and 90 further points
R HEAL 211
SC Arts and Music, Science

Note: Students who have not passed the normal prerequisite may be admitted with special approval.

PUBH 303 Public and Global Health: Current Issues

S2 0.15 EFTS OL, OC 18 points
Analysis of current public and global health issues, using public health models to integrate evidence, ethics, legislation, policy, health systems and public health interventions to improve the health of populations.
P PUBH 211
SC Arts and Music

PUBH 304 Rangahau Hauora Māori - Māori Health Research

S1 0.15 EFTS OL, OC 18 points
Examines different ways of planning, undertaking and critically analysing Māori health research from nineteenth century anthropological approaches through to contemporary 'by Māori, for Māori' health research, including decolonising research methodologies.
P PUBH 204 or MAOH 201 or one 200-level MAOR paper
RP PUBH 204
SC Arts and Music

PUBH 311 Public Health Research

S1 0.15 EFTS OL, OC 18 points
Principles of quantitative and qualitative research design. Deepens students' understanding of what public health research is, how to critically engage with it and how it informs public health action.

Statistics

STAT 110	Statistical Methods
S1, SS	0.15 EFTS OL, OC 18 points
Descriptive statistics, probability distributions, estimation, hypothesis testing, regression, analysis of count data, analysis of variance and experimental design. Sampling and design principles of techniques to build on in the implementation of research studies.	
R	STAT 115, (BSNS 102 or 112), QUAN 101
SC	Arts and Music, Science
STAT 115	Introduction to Biostatistics
S2	0.15 EFTS OL, OC 18 points
A paper for students in health-related subjects, in particular nutrition, food science, epidemiology, exercise science, psychology, and the health sciences. Topics covered include the nature of random variation, the concepts of bias and confounding, study design, data description including risks and odds, binomial and normal distributions, estimation, hypothesis testing, regression, the control of confounders, critical appraisal, and the analysis of variance.	
R	STAT 110, (BSNS 102 or 112), QUAN 101
SC	Arts and Music, Science
STAT 210	Applied Statistics
S1	0.15 EFTS OL, OC 18 points
A core paper on using statistical models to address scientific questions. Regression models for continuous, binomial and count data, analysis of variance, cluster analysis, principal component analysis, research design.	
P	STAT 110 or 115 or BSNS 112
R	ECON 210, FINC 203, STAT 241
SC	Arts and Music, Science

STAT 260	Visualisation and Modelling in R
S2	0.15 EFTS OL, OC 18 points
An introduction to computer skills needed for the statistical sciences, using the software R. Covers reproducible research, data wrangling, visualisation, exploratory data analysis, resampling and simulation.	
P	(STAT 110 or 115 or BSNS 102 or 112) and 54 additional points.
R	STAT 380
SC	Arts and Music, Science
STAT 270	Probability and Inference
S1	0.15 EFTS OL, OC 18 points
An introduction to the theory that underlies the statistical methods introduced in STAT 110/115. Probability theory, random variables and distributions, expectation and variance, likelihoods, estimators and confidence intervals, hypothesis testing, and Bayesian inference.	
P	MATH 160 and one of STAT 110, 115, COMO 101, BSNS 112
R	STAT 261
SC	Arts and Music, Science
STAT 310	Statistical Modelling
S1	0.15 EFTS OL, OC 18 points
Statistical model building, motivated by real applications. Topics include regularisation, lasso, splines, non-linear regression, generalised linear models, model checking and introduction to mixed models.	
P	(STAT 210 or 241 or ECON 210 or FINC 203) and STAT 260
R	STAT 341
SC	Arts and Music, Science
STAT 311	Design of Research Studies
S1	0.15 EFTS OL, OC 18 points
Design of studies to address different types of research questions. Survey methods, experimental and observational studies, measurement, control of confounding and bias, evaluation of competing designs, determination of study size.	
P	(STAT 210 or 241 or PSYC 210) or (STAT 110 or 115 and 54 points at 200 level or above).
R	STAT 251
SC	Arts and Music, Science
STAT 312	Modelling High Dimensional Data
S2	0.15 EFTS OL, OC 18 points
An introduction to the statistical learning techniques commonly used to analyse high-dimensional (or multivariate) data. Penalised regression, classification trees, clustering, dimension-reduction, bagging, stacking, boosting, random forests and ensemble learning.	
P	(STAT 210 or 241 or ECON 210 or FINC 203) and STAT 260
R	STAT 242, 342
SC	Arts and Music, Science
STAT 370	Statistical Inference
S2	0.15 EFTS OL, OC 18 points
A continuation of the theoretical development begun in STAT 270, this paper will cover the theory of ordinary least squares, maximum likelihood estimation and inference, hypothesis testing, and Bayesian inference.	
P	(STAT 270 or 261) and MATH 170
R	STAT 362
SC	Arts and Music, Science
STAT 371	Bayesian Data Analysis
S2	0.15 EFTS OL, OC 18 points
Introduction to Bayesian methods with an emphasis on data analysis. Topics include prior choice, posterior assessment, hierarchical modelling and model fitting using R, JAGS and other freely available software.	
P	STAT 260 and (STAT 270 or 261)
SC	Arts and Music, Science
STAT 372	Stochastic Modelling
S1	0.15 EFTS OL, OC 18 points
Applications of stochastic models to real-world processes observed over time and space. Topics include Poisson processes, renewal processes, Markov chains, hidden Markov models, geostatistics, spatial point processes, model fitting, forecasting and simulation.	
P	STAT 261 or 270
SC	Arts and Music, Science

STAT 411 Probability and Inference 3

S1 0.1667 EFTS OL, OC, DP 20 points
An overview of advanced probability theory and the
classical theory of statistical inference.

STAT 412 Generalised Linear Models

S2 0.1667 EFTS OL, OC, DP 20 points
The theory and application of generalised linear models.
The emphasis will be on application, with a focus on real
data analysis using R.
P STAT 341, 362

STAT 435 Data Analysis for Bioinformatics

S1 0.1667 EFTS OL, OC, DP 20 points
Topics include an overview of genetics and molecular
biology; genetic, genomic, and proteomic technologies;
analysis of large data sets; incorporation of biological
information into the statistical analysis process.

STAT 440 Longitudinal Data Analysis

NO 0.1667 EFTS OL, OC 20 points
Use of mixed effects models for the analysis of longitudinal
data, with an emphasis on applications on biostatistics.

Surveying

SURV 101 Introductory Surveying

ES 0.15 EFTS OL, OC, DL, DP 18 points
An introduction to basic surveying principles, techniques,
instruments and computational procedures.
R SURV 111, SURX 101, 111
SC Science

*Note: SURV 101 is taught on campus during semester one
and by distance during semester two. If SURV 101 is taken
on campus then departmental permission is not required.*

SURV 102 Geospatial Science

S2 0.15 EFTS OL, OC 18 points
A study of techniques as applied in surveying to built and
natural environments, including statistics, trigonometry,
mechanics, engineering, introductory programming,
Geographic Information Systems (GIS) and remote
sensing.
SC Science

SURV 169 Special Topic

NO(2022) 0.15 EFTS OL, OC, DL 18 points
A theoretical introduction to nautical issues including
maritime law and regulations, health and safety, in-shore
navigation and maritime communication. Note: Subject to
departmental permission.

R NAUT 101
SC Science

SURV 201 Surveying Methods 1

S1 0.1334 EFTS OL, OC, DP 18 points
The use and calibration of standard surveying instruments.
Includes fundamental surveying techniques and
computational procedures, GNSS RTK surveying, and an
introduction to precise engineering surveys.

PC SURV 298 and one of SURV 101, 111, SURX 101,

SURV 205 Statutory Planning A

S2 0.1334 EFTS OL, OC 18 points
An introduction to statutory planning, the purpose and
functions of the Resource Management Act 1991, including
sustainability, local authority planning documents,
stakeholder consultation, notification, effects, examples of
assessments of environmental effects and resource consent
applications.

P 108 points including one ENGL paper
R SURV 114, 215
SC Science

SURV 206 Land Tenure 1

S1 0.1334 EFTS OL, OC 18 points
Introduction to land tenure and property rights in New
Zealand. The history of land tenure change in New Zealand
from pre-colonial times to the present, including Māori
values in land, the Treaty of Waitangi, the Māori Land
Court, the Waitangi Tribunal, and land related legislation.

P 108 points
R SURV 216
SC Science

SURV 207 Cadastral Surveying 1

S2 0.1334 EFTS OL, OC, DP 18 points
An introduction to New Zealand cadastral surveying
procedures and practice, calculations, cadastral data
preparation and basic boundary definition.

P SURV 201 or 211
R SURV 217
LT BSurv, BSc

*Note: May only be taken by BSurv students or BSc students
majoring in Surveying Measurement.*

SURV 208 Introduction to Geographic Information Systems

S1 0.1334 EFTS OL, OC 18 points
An introduction to the principles, methods and concepts
of geographic information systems (GIS). The uses of
spatial data for mapping, presenting, transforming and
analysing information are emphasised.

P 54 points
R SPIN 201, 218
SC Commerce, Science

SURV 297 Land Development Field Course

N1 0.0 EFTS OL, OC 0 points
Application of fundamental land development techniques.
Digital data acquisition and processing for road design and
associated engineering calculations. Plan production using
road design software packages.

P SURV 203, 204

SURV 298 Introductory Field Camp

N1 0.0 EFTS OC, DP 0 points
Review of basic surveying techniques and instruments.

P One of SURV 101, 111, SURX 101, 111
LT BSurv, BSc

*Note: May only be taken by BSurv students or BSc students
majoring in Surveying Measurement.*

SURV 299 Second Year Field Course

N1 0.0 EFTS OL, OC 0 points

Application of fundamental surveying techniques. Digital data acquisition and processing. Road design and set out.

PC (SURV 203 or 213) and (SURV 204 or 214)
LT BSurv, BSc

Note: Students must have attended the lectures and passed the tests of the Calculation Module of SURV 207.

SURV 301 Surveying Methods 2

N1 0.1334 EFTS OL, OC 18 points

An introduction to the survey methods and analyses that require an understanding of geodetic principles. Includes angle, EDM and GPS measurements.

P (SURV 201 or 211) and (SURV 202 or 212)
PC SURV 302 or 312
R SURV 311
SC Science

SURV 302 Geodetic Reference Systems and Network Analysis

S1 0.1334 EFTS OC 18 points

An introduction to field astronomy and geodesy including height systems, precise levelling gravity and geodetic datums. Advanced methods of analysing surveying data including error ellipses, automated network adjustment, and network analysis.

P SURV 202 or 212
R SURV 312
SC Science

SURV 303 Urban Design 1

S1 0.1334 EFTS OL, OC 18 points

An introduction to the design of subdivisions and principles of urban design. The understanding required in the feasibility, design and planning of urban and suburban land development.

P (SURV 203 or 213) and (SURV 204 or 214)
R SURV 315
SC Science

SURV 304 Land Development Engineering 3

S2 0.1334 EFTS OL, OC 18 points

An introduction to the design, construction and installation of engineering services for land development, including water, wastewater, stormwater, electrical, street lighting, communication and gas.

A residential ethnographic field school conducted abroad, providing students with critical understanding and guided practical experience in designing and conducting ethnographic research related to tourism and development.
P TOUR 411

Note: Admission to this paper is subject to approval from the Head of Department.

TOUR 480 Dissertation

FY 0.3333 EFTS OL, OC 40 points
A report on an approved research or practical project, no longer than 15,000 words.
R TOUX 480
LT BCom(Hons)

TOUR 590 Research Project

ES, N1 0.5 EFTS OL, OC 60 points
A critical examination and utilisation of research methods and analysis relevant to the conducting of high quality research in tourism and related fields.
P TOUR 423, 424

Tourism, Languages and Cultures

Wildlife Management

Note for WILM 401, 404–406: Approval from the Head of Department of Zoology is required for non-PGDipWLM/MWLM students.

WILM 401 Principles of Wildlife Management

S2 0.1667 EFTS OL, OC 20 points
The application of ecological science to solve issues of conservation, harvesting and the pest control of animal species.

Note: Approval from the Head of Department of Zoology is required for non-PGDipWLM / MWLM students.

WILM 402 Techniques of Wildlife Management

S1 0.1667 EFTS OL, OC 20 points
A skills-based course on marking, counting and studying animals and on experimental design, analysis, interpretation and communication.
LT PGDipWLM, MWLM

WILM 404 Data Analysis for Wildlife Management

S1 0.1667 EFTS OL, OC 20 points
The statistical analysis of real biological data. Graphical and exploratory analysis, estimation and hypothesis testing, experimental design, simulation. Project work consisting of analysis of a real data set.
R ZOOL 316
LT PGDipWLM, MWLM

Note: Approval from the Head of Department of Zoology is required for non-PGDipWLM students.

WILM 405 Special Topic

NO 0.1667 EFTS OC, DP 20 points
LT PGDipWLM, MWLM

Note: Approval from the Head of Department of Zoology is required for non-PGDipWLM students.

WILM 406 Conservation Biology for Wildlife Management

S2 0.1667 EFTS OL, OC 20 points
Ecological, genetic and biogeographic principles underlying biological conservation; rationale for conservation; genetics and population dynamics of small populations; conservation problems relating to human-mediated threats to species. Project work consisting of submission of a research proposal relating to the conservation of indigenous biodiversity in New Zealand.
R ECOL 311, ZOOL 319
LT PGDipWLM, MWLM

Note: Approval from the Head of Department of Zoology is required for non-PGDipWLM students.

WILM 501 Wildlife Management Research Placement

S1, N1 0.3333 EFTS OL, OC 40 points
A research project relating to some aspect of wildlife management conducted as a placement within a host organisation.
LT MWLM

Writing

Z

Zoology

ZOOL 221 Animal Designs for Living

S1 0.15 EFTS OL, OC 18 points
The body plans of, and the relationships among, major animal phyla are examined using local fauna. Up to three field trips generate data that is manipulated and presented in report form.

P BIOL 112 or (HUBS 191 or 192 with at least a B pass)
SC Science

ZOOL 222 Evolutionary Biology

S2 0.15 EFTS OL, OC 18 points
Evolutionary theory and mechanism; systematics and phylogenetics; the evolutionary record; evolutionary ecology and behavioural ecology; evolution of human social behaviour.

P CELS 191 and (BIOL 112 or (HUBS 191 or 192 with at least a B pass))
SC Science

ZOOL 223 Animal Physiology

S2 0.15 EFTS OL, OC 18 points
A comparative view of development, reproduction, metamorphosis, brains and sensory systems in different animal groups.

P CELS 191 and (BIOL 112 or (HUBS 191 or 192 with at least a B pass))
SC Science

ZOOL 313 Animal Function and Environment

S1 0.15 EFTS OL, OC 18 points
Environment and reproduction; how animals survive extreme environmental conditions; cell communication and stress physiology.

P 54 200-level points from Science Schedule C
RP CHEM 191
SC Science

ZOOL 314 Neurobiology

S2 0.15 EFTS OL, OC 18 points
Evolution and development of brains; sensory systems and how animals perceive the world; control of agile movement; behavioural plasticity; mechanisms of memory.

P 54 200-level points from Science Schedule C
SC Science

ZOOL 315 Behavioural and Evolutionary Ecology

S1 0.15 EFTS OL, OC 18 points
The behavioural ecology of reproduction and survival.

P 54 200-level points from Science Schedule C
SC Science

ZOOL 316 Biological Data Analysis and Computing

S1 0.15 EFTS OL, OC 18 points
Uses real biological examples and computers, and deals with types of data and their acquisition; graphical and exploratory analysis; estimation and hypothesis testing; experimental design; computer-intensive methods and simulation.

P (STAT 110 or 115) and 54 200-level points from Science Schedule C
R WILM 404
SC Science

ZOOL 318 Freshwater Ecology

S2 0.15 EFTS OL, OC 18 points
Ecological interactions in inland waters with reference to management problems in New Zealand.

P 54 200-level points from Science Schedule C
RP CHEM 191 and ECOL 111
SC Science

ZOOL 319 Conservation Biology

S2 0.15 EFTS OL, OC 18 points
The ecological, genetic and bioenergetic principles underlying biological conservation; genetics and population dynamics of small populations; conservation problems relating to habitat, food, competition and predation.

P 54 200-level points from Science Schedule C
R ECOL 311, WILM 406
RP ECOL 111 and ECOL 212
SC Science

ZOOL 410 Evolutionary Genetics

S2 0.1667 EFTS OC 20 points
Contemporary issues in evolutionary genetics. Species concepts, modes of speciation, phylogenetics, defining genetics units for conservation, and the identification and conservation value of hybrids.

ZOOL 411 Evaluating Trends and Controversies in Ecology and Evolution

S1 0.1667 EFTS OL, OC 20 points
Evaluation of past and current trends regarding questions in ecological and evolutionary research and of how those trends influence research outcomes and scientific conclusions

ZOOL 412 Neurobiology and Behaviour

S2 0.1667 EFTS OC 20 points
Examination of neural basis of perception and behaviour in animals. Advantages and limitations of a simple systems approach for studying brain function.

ZOOL 414 Comparative Physiology

S1 0.1667 EFTS OC 20 points
Issues in reproductive physiology of vertebrates, with emphasis on the mediation and modification of reproductive processes via chemical signals. The two major themes are stress and reproduction.

ZOOL 415 Parasitology

S2 0.1667 EFTS OC 20 points
Current topics and issues in parasitology, including biological control, parasite epidemiology, immunology, ecology and evolution of parasitism.

ZOOL 416 Freshwater Ecology

S1 0.1667 EFTS OL, OC 20 points
Current issues in freshwater ecology related to the management and conservation of rivers and lakes. Topics include disturbance, biomanipulation, climate change, biomonitoring and biodiversity.

ZOOL 417 Harvest Management

S2 0.1667 EFTS OL, OC 20 points
Current concepts and case studies in the sustainable use of wildlife resources, including commercial, recreational, cultural and subsistence harvests.

ZOOL 418 Conservation Biology of Marine Mammals

S1 0.1667 EFTS OL, OC 20 points
The major conservation problems faced by marine mammals, and the scientific methods used to quantify, reduce and avoid such impacts. Case studies are used to study integration of science and management. The paper focuses on science, including the biological features of marine mammals that make them relatively vulnerable (e.g. long-lived, slow reproducing), but also touches on the social and political dimensions of marine mammal conservation.

ZOOL 419 Special Topic

S1 0.1667 EFTS OC 20 points
Topics change year to year.

ZOOL 420 Advanced Topics in Zoology

ES 0.1667 EFTS OC 20 points

ZOOL 421 Essentials of Molecular Zoology

S1 0.1667 EFTS OC 20 points
Introduction to essential concepts and techniques in molecular genetics. Ideal introduction to research projects on gene expression or population/conservation/ecological genetics for those with minimal hands-on experience in genetics.

R GENE 311, 312, 313, 314, 360
LT BSc(Hons), MSc, PGDipSci

ZOOL 422 Advanced Topics in Animal Behaviour

S2 0.1667 EFTS OL, OC 20 points
In-depth discussion-based format focused on 3-4 current topics in the field of animal behaviour. Each topic to be led by an expert in that field.

P ZOOL 314 or 315

Note: The prerequisite may be waived for students with an equivalent level of knowledge. To do this, apply for Special Permission during paper selection on the Review and Submit page.

ZOOL 424 Special Topic: Conservation Genomics

S2 0.1667 EFTS OC, OL 20 points
Enhancing understanding of threatened populations genetic management, including the genetics concept of inbreeding and population structure, and their implications for conservation, analysis of genomic experimental data, and communication of genetic concepts to a general audience.

ZOOL 480 Research Project

FY, N1, N2 0.3333 EFTS OC 40 points
A supervised project involving research and leading to the production of a research report.

LT PGDipSci

Note: Carried out over 9 to 10 months, involving an average of 12 to 13 hours of work per week.

ZOOL 490 Dissertation

FY, N1, N2 0.5 EFTS OC 60 points
A supervised project involving original research and leading to the production of a dissertation.

LT BSc(Hons)

Note: Carried out over 9 to 10 months, involving an average of 16 to 18 hours of work per week.

ZOOL 495 Master's Thesis Preparation

FY, N1, N2 0.3333 EFTS OC 40 points
Preparation of a thesis proposal/preliminary thesis research. Normally taken by students in the papers year for a Master's degree by papers and thesis.

LT MSc

Note: Carried out over 9 to 10 months, involving an average of 12 to 13 hours of work per week.

Distance Learning

Otago offers a variety of programmes and papers through Distance Learning. Instruction is given through printed and digital resources, audio- and web-conference sessions, the internet, and residential schools and workshops.

Applying and enrolling

For a detailed description of the application and enrolment processes:

University Admission: page 24

Programme Admission: page 24

Course enrolment: pages 26–31

or see

otago.ac.nz/enrolment

Teaching and examination periods

These may differ from the standard dates depending on the course or papers being studied. Contact the appropriate School or Department for more information, or see

otago.ac.nz/papers

Access to resources

> Electronic resources

Many papers are supported by a web based course management system, such as Blackboard, Moodle or OceanBrowser, which you will use to access course information, materials and learning activities. Some courses make podcasts available through the University's podcasting site, or make use of the webconferencing system, OtagoConnect.

If you are able to visit the Dunedin, Auckland, Wellington, Christchurch and Invercargill campuses, you can use the Otago network to access the internet for course-related work.

For help and information, contact Student IT (see page 43).

> Distance Library Service (DLS)

Students enrolled in a Distance course or paper are eligible to use the Distance Library Service (DLS) to request research support, advice and help accessing library resources and request to have books, journal articles and chapters sent at no charge.

DLS enquiries and requests can be made:

by emailing distance.library@otago.ac.nz

Tel 0800 347 826 (0800 DISTANT)

(answer phone for after-hours enquiries within New Zealand)

Tel 64 3 179 8940 (from outside New Zealand)

Distance Library Service, Central Library, University of Otago,
PO Box 56, Dunedin 9054

University ID cards

You must obtain a University ID card. Your username is printed on the card. Together with your password, it provides electronic access to library databases, catalogues, and course materials. For more information see page 38.

If you attend audioconferences at the Auckland Centre, Wellington Centre, or the Schools of Medicine and Health Sciences in Wellington or Christchurch, you may also require a separate venue access card. Information will be provided about this when your course begins.

Terminology

This section lists terms and abbreviations used within the University. These terms may also be found at otago.ac.nz/terms

Academic points: Each paper has an academic points value that indicates the amount of credit that will be gained towards completing a programme if the paper is passed. Most undergraduate papers are worth 18 points each and a three-year bachelor's degree typically requires a total of at least 360 points. See also Workload points.

Academic progress: Academic progress is a generic term relating to a student's overall progress in a programme. The way in which this is assessed will vary considerably depending on the context. For example:

- Passing 50% or more of the points for which the student is enrolled (Academic Progress Policy)
- Achieving a specific grade average (e.g. B+ or higher)
- Receiving a satisfactory written progress report from their supervisor (e.g. a PhD candidate)

Academic Progress Policy: A student who fails to make satisfactory progress (i.e. pass half or more of the points enrolled for in a calendar year) will be placed on Conditional Enrolment and may enrol for a prescribed course of study only, in the next year of enrolment. Such a student who passes fewer than half of the points in the Conditional Enrolment year will be suspended from enrolment from the University for the subsequent two calendar years.

This policy will be applied to students transferring from other tertiary institutions as if their previous study had been undertaken at the University of Otago. Students suspended under the academic progress policies (or equivalent) of other universities will not be permitted to apply to transfer to the University of Otago until such time as that suspension has passed.

Ad Eundem Statum Admission: Admission "at the same level", which is usually granted on the basis of qualifications from overseas or non-university tertiary qualifications gained within New Zealand. Admission can be at entrance level (for students with the equivalent of a standard university entrance qualification e.g. through CIE, IB), or with credit for one or more papers, or at graduate level if you have completed a degree or equivalent qualification.

Admission: Refers either to admission to the University or to a specific paper or programme. Apart from a few special circumstances, a person must have a university entrance qualification (normally on the basis of NCEA credits, bursaries results, ad eundem statum admission, special admission, provisional entrance or discretionary entrance) and must have fulfilled language requirements in order to be admitted as a student (new and recommencing students enrolling for most undergraduate courses will be selected via Preferential Entry or Competitive Entry).

Also, admission to an honours or postgraduate programme or to a paper or programme with limited numbers (e.g. degrees in Medicine, Law, Surveying) requires special approval.

Allowable Timetable Clash: a timetable clash between teaching events, where at least one of the teaching events has pre-approved arrangements in place which can accommodate the clash. Students are not normally permitted to have more than one allowable timetable clash per week per teaching period.

Application for study: The act of applying for admission to the University and/or to a particular programme.

Assessment: The process by which learning is evaluated either internally on the basis of essays, reports, exercises, and tests or by a final examination at the end of the teaching period, or by a combination of both.

Audiokonference: Some papers are taught by audioconference, a telephone link which enables students and lecturers in different towns to talk simultaneously to each other. (See also Distance Learning)

Bachelor's degree: A first or undergraduate degree, normally requiring at least three years of full-time study.

Blackboard: A web-based learning environment where University course materials, class discussions, assignments and assessments are available on the internet to enhance on-campus learning and/or to deliver distance learning.

Bridging course: A course to assist students to prepare for study in a later academic semester or year (see page 36).

Calendar: The University's official publication containing its statutes, regulations (including programme requirements), important dates, and other information. It is available from the University Book Shop and many libraries.

Campus: The grounds and buildings of the University.

Certificate: See postgraduate certificate.

Certificate of Proficiency: A term which describes a paper not necessarily being counted towards a particular qualification (e.g. an additional paper surplus to degree requirements); or a paper being repeated in the hope of gaining a higher grade; or a paper being taken to complete a degree at another university (e.g. an Otago paper being taken for a Canterbury degree).

Change of course: The process by which a student who has completed course enrolment has any amendments to his or her course approved and recorded (may involve adding or dropping papers, changes to major or minor subjects).

Clash: See Timetable clash.

College: A synonym for School, used in the title of the University of Otago College of Education, which was created from the merger of the Dunedin College of Education with the University in 2007. Also see residential college.

Competitive Entry: A pathway for admission to undergraduate courses and programmes, for students who do not qualify for Preferential Entry. Competitive Entry students are ranked according to their academic performance and other relevant criteria and are offered places in the University in order of priority subject to fulfilling minimum age, entrance, and language requirements and the availability of places in their nominated programmes.

Completion: A term used to indicate that all requirements of a programme have been met and that the student is eligible to graduate.

Conditional Enrolment: Under the Academic Progress Policy, students who pass fewer than half of the points they are enrolled in for a calendar year are placed on Conditional Enrolment in their next year of study and may enrol for a prescribed course of study only.

Corequisite: A paper which must be taken concurrently with another paper, unless it has already been passed.

Council: The governing body of the University.

Course: The collection of papers for which a student is enrolled in a particular semester or year.

Course advice: An opportunity for a student to talk through his or her studies and future plans.

Course approval: The step of course enrolment in which a student's finalised course for the year or semester is accepted by both the University of Otago and the student.

Course enrolment: The step of the enrolment process in which students provide or update their personal details, select their papers, and complete a declaration concerning their enrolment in a particular year. The personal details include details that may change over time (such as study address), and information the University must collect annually for the New Zealand Government. Students also undertake selection of papers and (once course approval has been given) complete the declaration which constitutes a formal commitment to the course and to liability for associated fees. Students who fail to complete course enrolment on time may not have access to all University resources.

Credit: Papers or points passed at Otago, or for which a student has been granted credit on the basis of work completed elsewhere or RPL credit, that may be counted towards a University of Otago programme.

Cross credit: Cross credit describes the situation in which a pass in a University of Otago course or paper is able to be credited by a student towards the requirements for two University of Otago qualifications. Neither qualification may be a postgraduate qualification or a graduate diploma or graduate certificate. The number of points that may be cross credited varies according to the minimum number of years required to complete the programmes concerned.

Credit for study elsewhere: Credit may be granted towards Otago qualifications based on study completed at another tertiary institution, or as "recognition of prior learning" (for certain Māori Studies and Surveying papers only).

Credit may be granted as specified credit (recognising that the passes from elsewhere are equivalent to specific Otago papers, e.g. HIST 102 and 106) or as unspecified credit (recognising passes that do not correspond exactly to any Otago papers, e.g. 36 unspecified Arts points at 100-level).

Dean: The academic and administrative Head of a School or Faculty.

Debtor: A student who owes money to the University and is listed as a debtor. Such students will not have access to the full range of University services until payment of any outstanding amount is made.

Degree: The academic award conferred by the University on the successful completion of a programme of study. The four levels of degree are (in ascending order) ordinary bachelors', honours, masters' and doctoral degrees. Most bachelors' degrees require at least 3 years of study (some require 4, 5 or 6); other degrees require 1-3 years of study after completion of earlier qualifications.

Deletion (of a paper): Deletion of a paper (as opposed to withdrawal) indicates the student has removed the paper from their enrolment before the prescribed cut-off dates and may be eligible for a fees refund. The paper will also cease to appear on the student's academic record.

Department: An organisational unit of the University consisting of academic staff teaching a particular subject or discipline together with supporting general staff.

Diploma: See postgraduate diploma and undergraduate diploma.

Discretionary Entrance: A method for students under 20 years of age and without a New Zealand University Entrance qualification to gain admission to University. Usually based on Year 12 NCEA results. This method of admission is not available to international students.

Dissertation: An extended piece of written work, normally based on original research, required for an honours degree or postgraduate diploma and for some masters' degrees.

Distance Learning: A means of teaching and learning not requiring regular attendance at a campus of the University.

Division: The University is divided into four teaching Divisions – Commerce (also known as the Otago Business School), Health Sciences, Humanities, and Sciences – which include the staff in all of the Departments and Schools in each of the four groups of related disciplines. Some Departments teach courses for degrees based in other Divisions (e.g. Information Science is a Commerce subject taught by a Commerce department but can also be taken for degrees in Arts and Science).

Doctoral degrees: The most advanced degrees of the University, mostly awarded on the basis of a thesis or a portfolio of published works of special excellence, but sometimes involving taught papers as well. Doctoral graduates may use the title "Doctor".

Domestic student: Students are classified as domestic if they are New Zealand citizens (including citizens of the Cook Islands, Tokelau, and Niue), or holders of a New Zealand resident class visa granted under the Immigration Act 2009 resident and studying in New Zealand, or Australian citizens or permanent residents of Australia resident and studying in New Zealand. All other students are classified as international students and normally require a student permit to study in New Zealand.

Double degree programme: A programme of study that leads towards two degrees (e.g. BA and BCom), which normally includes cross crediting.

Double major: A programme of study for a bachelor's degree which includes the major subject requirements for two subjects (two separate sets of 300-level papers are required).

EFTS (Equivalent full-time student): A unit of measurement of a student's enrolment used in the funding system for the University. A typical full-time year's study equals 1.0 EFTS unit and the papers taken are fractions of that unit. In practice, a year's study will vary in EFTS value according to the papers studied.

Endorsement: A subject or area of specialisation for certain qualifications (e.g. PGCertHealSc endorsed in Human Nutrition).

Enrolment: The collective term used for application, course enrolment, and payment of fees. Further information about enrolment is available at otago.ac.nz/study/enrolment

Entry Pathway System: The system under which new or recommencing domestic students who are applying for enrolment in a general bachelor's degree and some other courses (e.g. Health Sciences First Year), have their applications assessed and either approved or declined. Also see Competitive Entry and Preferential Entry.

eVision: A one-stop shop where students apply to study, access all important study-related information, and maintain their personal information.

Exceptional Timetable Clash: Any timetable clash which is not considered an Allowable Timetable Clash. Exceptional Timetable Clashes will only be approved in limited circumstances.

Exemption: Permission to leave a particular requirement out of a course. This normally requires approval by the Division concerned.

Faculty: A decision-making body for academic matters affecting a group of Departments or a specialist School.

Fees: Enrolment in any paper or programme involves liability for the payment of fees to the University. Most fees fall under the following categories; Tuition fee, Students Services fee, and Non-tuition (administration) fees.

Field trip: An off-campus visit, usually to observe natural phenomena or to collect specimens (often a compulsory part of courses in subjects such as Botany or Geology).

Final Examination Only enrolment: In many papers (but not all), a student who has completed course work satisfactorily but has failed to pass the paper concerned may apply for Final Examination Only enrolment. This means that the student may sit the examination at the end of the next teaching period that the paper is offered but may not attend teaching sessions or submit further assignments. This concession is granted only once for a particular paper, and only for the teaching period in which the paper is offered next.

Finalist: A student enrolled for a course which is sufficient to complete a qualification in that semester or year.

Final examinations: Often called "finals", these are formal examinations conducted under the authority of the Senate at the end of the teaching period for a paper.

First-year student: A student who has not previously attended the University of Otago or any other university in New Zealand.

Full-time (course): Generally between 54 and 72 points in any one semester or 108 and 144 points in any one year. (Also see Workload.)

General bachelors' degrees: Any of the ordinary bachelors' degrees (BA, BAppSc, BASc, BBiomedSc, BCom, BHealSc, MusB, BPA, BPhEd, BSc, BTheol, BASc), most of which have a choice of major subjects, available to eligible students under the Entry Pathway system.

Grade: A letter awarded for a particular paper which indicates the level of performance in examinations and other assessment. (A+ is top grade; C- is lowest passing grade; D and E are failing grades).

Grade Point Average (GPA): A numerical measure of a student's academic achievement. When a GPA is needed at Otago for admission or scholarships purposes, a numerical value is assigned to each letter grade (A+=9, A=8, A-=7, B+=6, B=5, B-=4, C+=3, C=2, C-=1). The weighted average is then calculated (taking into account differing point values of papers).

Graduand: A student who has completed the requirements of a qualification, but has not yet graduated.

Graduate: A person who has had a degree conferred.

Graduate diploma: A qualification available only to graduates but comprising papers at undergraduate level.

Health Declaration: If you wish to apply for special consideration on health grounds because you miss a compulsory class or assessment for health reasons, or in connection with a final examination for health reasons, you should normally use a Health Declaration Form. A section must be completed by a health professional if a final examination is involved, but is not always required in other cases; check with the department or school concerned. There is a different process for some programmes (e.g. Dentistry, Medical Laboratory Science, Medical Radiation Therapy, Medicine, Pharmacy, Physiotherapy). Students enrolled in those programmes must check with their schools or departments on their requirements.

HOD: Head of Department

Honours degree: A more specialised degree than an ordinary bachelor's degree, usually involving more papers in the subject of the degree and a research report or dissertation. In most subjects, the honours degree is a postgraduate degree, requiring an additional year of study after completion of an ordinary three-year bachelor's degree. In other cases (particularly professional programmes), the honours degree is an undergraduate degree requiring additional work but taking no longer than the corresponding ordinary degree.

Interest Only enrolment: Interest Only enrolment is when a student is permitted to enrol for a paper and to attend classes without undertaking any examinations or other formal assessment (and therefore without the possibility of being awarded any credit for the paper). Interest Only enrolment is not normally available to students who are also taking courses for credit in the same enrolment period.

Internal assessment: In addition to or instead of final examinations, some or all of the final grade for each paper is based on internal assessment – results for essays, assignments, laboratory or other practical work, and tests or examinations (sometimes known as terms tests) conducted by individual departments or schools.

International student: Any student who is not a domestic student (see entry above). International students normally require a student visa to study in New Zealand.

Laboratory: A teaching session involving experimental or practical work.

Lecture: The main method of instruction at the University. Usually a 50 minute oral teaching session.

Level: The different stages at which a subject is taught which reflect how advanced a paper is (e.g. 100-level is the first level).

Main enrolment period: Covers first and second semester.

Major subject: The subject chosen as the main area of study for an ordinary bachelor's degree and studied up to 300-level.

Managed Enrolment / Entry Pathway System:

The system under which first year, transferring or recommencing students who are applying for enrolment in a programme subject to this system, have their applications assessed and either approved or declined.

Master's degree: An advanced degree taken by a student who already holds a bachelor's degree. It normally involves research for a thesis or a dissertation.

Matriculation: The formal addition of a student's name to the records of the University at the beginning of the first year of enrolment. It occurs when a student completes the declaration at the end of course enrolment.

Minor subject: A recognised selection of papers in a particular subject area, in addition to a major subject. Normally five papers are required, with two at 200-level and one at 300-level.

National Student Index (NSI): The National Student Index is a national register of all students in the New Zealand education system. Each student on the register has a unique National Student Number (NSN). All students enrolled in formal tertiary education are required to have an "active" NSN, meaning the name, date of birth and citizenship details of the record have been verified.

National Student Number (NSN): A number assigned to every student by the Ministry of Education to help in the maintenance of information about students, even if they change institutions.

NCEA – National Certificate of Educational Achievement: A national award for educational achievement administered by NZQA. The majority of new students gaining admission to the University do so by virtue of their NCEA results from secondary school.

New student: A student who has not previously attended the University of Otago.

New Zealand Qualifications Authority (NZQA): A government agency which maintains an overview of secondary and tertiary qualifications offered within New Zealand and, in particular, is responsible for the NCEA (National Certificate of Educational Achievement).

100-, 200-, 300 -level etc: Each paper or other course component offered by the University has a level associated with it. For example, ANTH 101 would be an Anthropology paper primarily

designed for students new to Anthropology; ANTH 201 would be a paper which would assume some prior 100-level achievement in Anthropology. The highest level used is 900, and this currently indicates study at PhD level.

Ordinary bachelor's degree: A bachelor's degree awarded without honours. Most ordinary bachelor's degrees may be completed in three years of full-time study, although some require four, five or six.

Orientation: A programme of events organised at the beginning of the year to introduce new students to University life.

Papers: The smallest individual components of a course. Each paper is listed separately on an academic record, has a result recorded for it, and generates a fee to be paid.

Paper codes: Each paper is identified by a seven-character code. Four letters denoting the subject area (e.g. ACCT for Accounting, PHSE for Physical Education) are followed by three numbers (beginning with 1 for 100-level papers, 2 for 200-level papers, and so on).

Part-time: Any course whose workload is less than 54 points in any one semester or 108 points in any one year is normally regarded as a part-time course. Part-time students are not normally eligible to receive student allowances. (Also see workload.)

PhD: The degree of Doctor of Philosophy, a higher degree than an honours or master's degree, involving at least three years of supervised research and a thesis.

Points: Every paper has a point value that shows its proportion of an equivalent full-time year of enrolment of 120 points.

Postgraduate certificate: A qualification for graduates which requires at least one semester of full-time study (or the equivalent in part-time study) at 400-level or above.

Postgraduate course: A course undertaken by a student who has already completed a bachelor's degree and comprising papers or other work at 400-level or above.

Postgraduate degree: An honours, master's, or doctoral degree available only to graduates, requiring advanced study and a research component.

Postgraduate diploma: A qualification for graduates requiring at least one year of full-time study (or the equivalent in part-time study) at 400-level or above.

Preferential Entry: A pathway for admission to undergraduate courses and programmes. Students who qualify for Preferential Entry on the basis of academic merit and/or other criteria are guaranteed places in the University subject to fulfilling minimum age, entrance, and language requirements.

Prerequisite: A paper that must be passed before taking some other paper or course.

Prescription: Description of the academic content of an individual paper.

Programme: The entire requirements for the qualification towards which a student is studying (e.g. a degree programme).

Progression: A student's advancement from one stage or year or level or proportion of a programme to the next. For some programmes (e.g. MB ChB) completion of a prescribed full year's course is required for progression to the following year.

Pro-Vice-Chancellor: The academic and administrative head of an academic Division.

Qualification: A degree, diploma, or certificate of the University awarded to a student after successful completion of the requirements of the programme concerned (e.g. BA, Bachelor of Arts).

Recommencing student: A student who has been enrolled at the University previously but not in the preceding two calendar years.

Recommended preparation: If Paper A is recommended preparation for Paper B it is recommended that a student wishing to enrol in Paper B has previously taken Paper A. This is advisory only; it is not enforced.

Recommended preparation or concurrent study: If Paper A is recommended preparation or concurrent study for Paper B then it is recommended that a student wishing to enrol in Paper B has either previously taken Paper A, or is enrolling in it in the same teaching period as Paper B. This is advisory only; it is not enforced.

Residential college: A hall of residence associated with the University providing accommodation and other facilities for students. There are 15 residential colleges at Otago: Abbey, Aquinas, Arana, Carrington, City, Cumberland, Hayward, Knox, St Margaret's, Salmond, Selwyn, Studholme, Te Rangi Hiroa, Toroa and University College.

Restrictions: Papers which have a large amount of content in common are often restricted against each other, so they cannot be credited to the same academic record.

Returning student: A student who has been enrolled at the University in either or both of the preceding two calendar years.

RPL Credit: In some cases it is possible for students to have prior non-credentialled learning (i.e. learning which has not been formally recognised with a qualification or other documented record) recognised for the purposes of admission to, or credit towards, a course or programme. The process of assessing and recording non-credentialled learning is called Recognition of Prior Learning (RPL) and any credit granted is termed RPL credit.

Schedule: Some programme regulations and paper prerequisites include reference to Schedules. These can include major and minor subject requirements, honours and postgraduate diploma subject requirements and schedules of papers. The schedules of papers are referred to using a variety of names (e.g. "Arts and Music Schedule C").

School: A section of the University which teaches a particular discipline (e.g. School of Dentistry) or which groups a number of departments in a Division together (e.g. Dunedin School of Medicine).

Semester: The academic year has two main teaching periods, the first semester and the second semester.

Senate: The University's main decision-making and advisory body for academic matters.

Special Admission: A means of entrance to the University for domestic students over 20 years of age who do not hold a New Zealand University Entrance qualification. Special Admission is available to domestic students only.

Special topic papers: A "shell" paper that may be used with different content in different years. A student may be able to complete the paper multiple times and count the credit from each instance, provided that the content is different each time.

Specialisation: A discipline specified as a major subject or minor subject in a programme, or as the subject of or an endorsement for a qualification, indicating that a concentration of papers has been taken in that discipline or that the qualification is entirely in the discipline.

Specialised bachelors' degrees: Qualifications for which only limited numbers of students may enrol have specific entry requirements in the relevant programme regulations (e.g. for Teacher Education, Law, Surveying, Social Work and several Health Sciences professional degrees).

Streams: Papers which have too many students to be taught in one class are divided into groups called streams.

Study period: Study periods are the defined blocks of time in which academic teaching (or supervision) occurs. Each year contains multiple study periods, some of which may have overlapping dates and some of which may start or end outside the year concerned. The chief study periods are the summer school period and the first and second semesters.

Subject: Specific topics of study which the University offers. Each subject has a name (e.g. History) and a four letter code (e.g. HIST). Each paper has a subject code as part of its paper code (e.g. HIST 107).

Summer School: An intensive teaching period from early January to mid-February during which a range of undergraduate papers is offered.

Suspension (in regard to Academic Progress Policy): Under the Academic Progress Policy, students who pass fewer than half of the points they are enrolled for in the Conditional Enrolment year will be suspended (i.e. will not be permitted to enrol) for the subsequent two calendar years.

Terms: The requirements a student must complete to be permitted to sit final examinations. Terms are gained by attending classes and completing oral, written, and practical work for the paper concerned. Students are informed of the minimum requirements at the start of each paper.

Terms test: See Internal Assessment.

Thesis: A long dissertation based on original research and submitted for a master's or doctoral degree.

Timetable clash: A timetable clash occurs when a student has two teaching events scheduled at the same time. Students are expected to attend all scheduled teaching events (lectures, tutorials, laboratories, etc) in their course of study. **Timetabling:** The allocation of classes to specific timeslots and rooms.

Transcript: A copy of a student's academic record showing enrolment information and examination results for each paper or course.

Transfer of papers: The process by which a paper (and any associated points) is transferred from one programme of study to another.

Transferring student: A student who has previously attended another university in New Zealand but not the University of Otago.

Tutorial: Small group sessions led by a tutor which meet for discussion and individual assistance.

Undergraduate: A student studying for an ordinary bachelor's or other first degree.

Undergraduate diploma: A qualification at a level lower than a degree which requires at least the equivalent of one year of full-time study.

Vice-Chancellor: The academic and administrative head of the University, designated as its Chief Executive by statute.

Withdrawal: Withdrawal from a paper (as opposed to deletion) indicates the student has formally withdrawn from studying in the paper before the prescribed cut-off dates but will not normally be eligible for a fees refund. The paper will continue to appear on the student's academic transcript and academic record, but will be annotated accordingly (e.g. Wdn April).

Withdrawn Exceptional: Withdrawn Exceptional (as opposed to deletion or withdrawal) indicates the student has been permitted to withdraw formally from the paper after the prescribed cut-off dates due to exceptional circumstances. The student may be eligible for a partial fees refund. The paper will continue to appear on the student's academic transcript and academic record, but will be annotated accordingly.

Witnessed copy: A photocopied document signed by a person of suitable standing (e.g. Solicitor, Justice of the Peace), who has seen the original document and checked that the copy is true and unaltered.

Workload: A full-time course is generally between 54 and 72 points in any one semester or 108 and 144 points in any one year. As a general guide, 1 point represents study in formal instruction or independent study for 10 hours, made up of a combination of lectures, tutorials, laboratories, assignments and reading. Some professional, honours and postgraduate programmes may differ from this. Any course whose workload is less than 54 points in any one semester or 108 points in any one year is normally regarded as a part-time course. Part-time students are not normally eligible to receive student allowances.
