

Connecting to UO_WIFI: Windows 8

What is UO_WIFI?

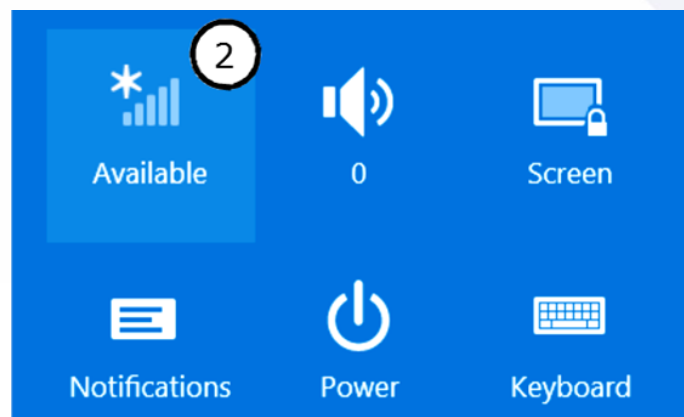

UO_WIFI is the wireless network available to staff, students, and contractors to use when on University of Otago sites. Those with laptops and wireless capable devices can connect to UO_WIFI to access both internal University resources and the internet. Your level of access is determined from your username.

Connecting to UO_WIFI

1. Open the **Charms menu** by swiping in from the right-hand edge of the screen, or moving the mouse to the right-hand corner of the screen. Choose **Settings**.

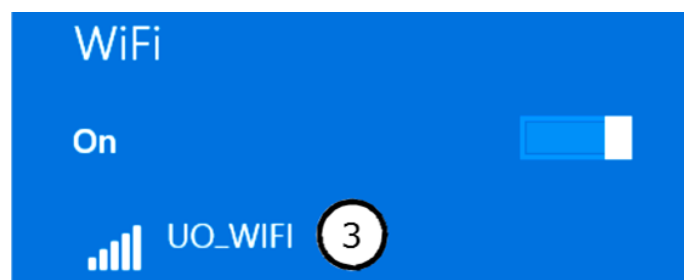

2. Select the **Wi-Fi symbol**.

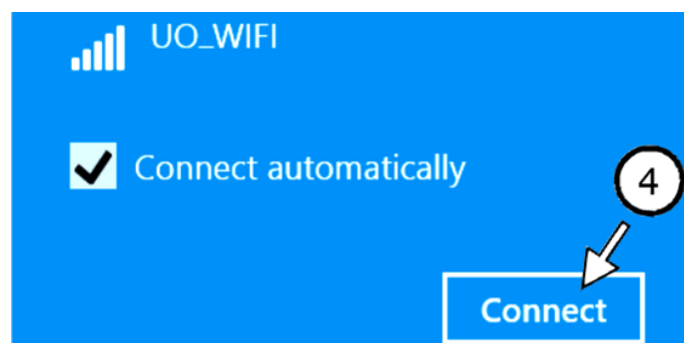

3. Select the University network **UO_WIFI**.

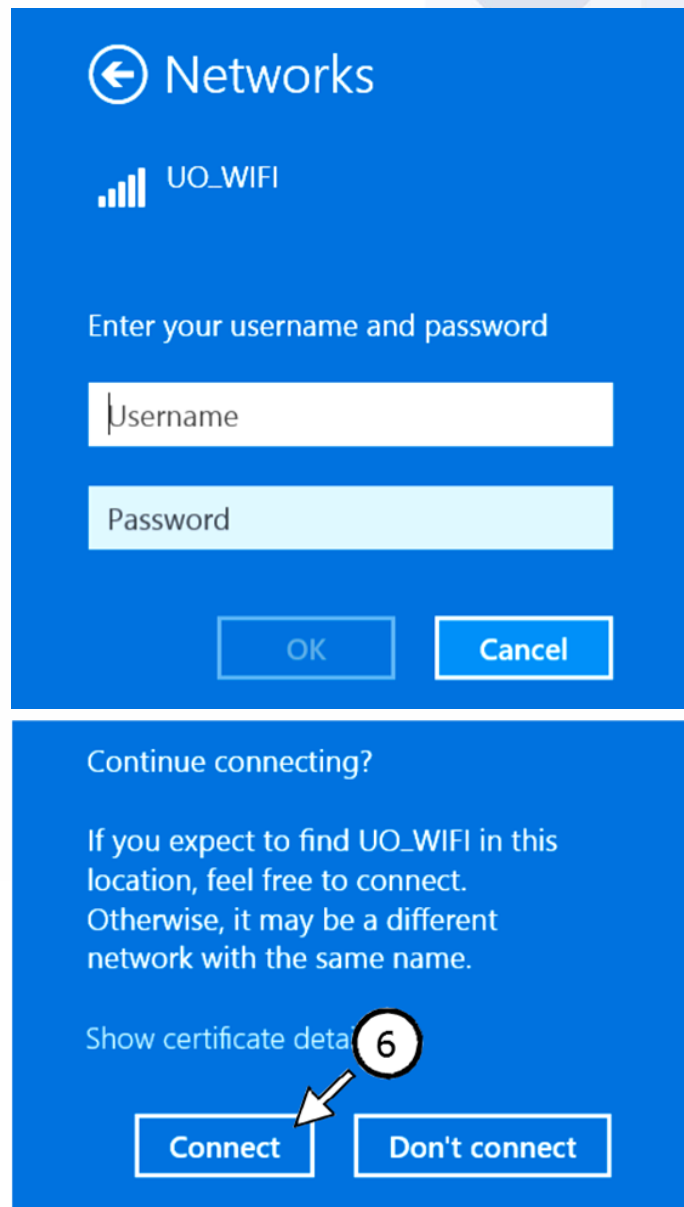

Some areas of campus may still see older/legacy networks called UO-STAFF, UO-STUDENT, UO-EXTERNAL or UO-GUEST – do not connect to these and instead use UO_WIFI

4. Press **Connect**.

5. Enter your **University username and password** in the Authentication window. Press **OK**.

← Networks

UO_WIFI

Enter your username and password

Connect Don't connect

6. If you are asked whether to Connect or Don't Connect, choose **Connect**.

7. You are now connected.

Test your connection by opening your web browser and going to a University of Otago website and an external website, for example to <http://www.otago.ac.nz> and <http://www.bbc.co.uk>

If you can't connect to the network?

- Contact AskOtago on +64 3 479 7000 or 0800 80 80 98, or visit the AskOtago Central Hub, Information Services Building, Dunedin campus
