

Connecting to UO_WIFI: iOS

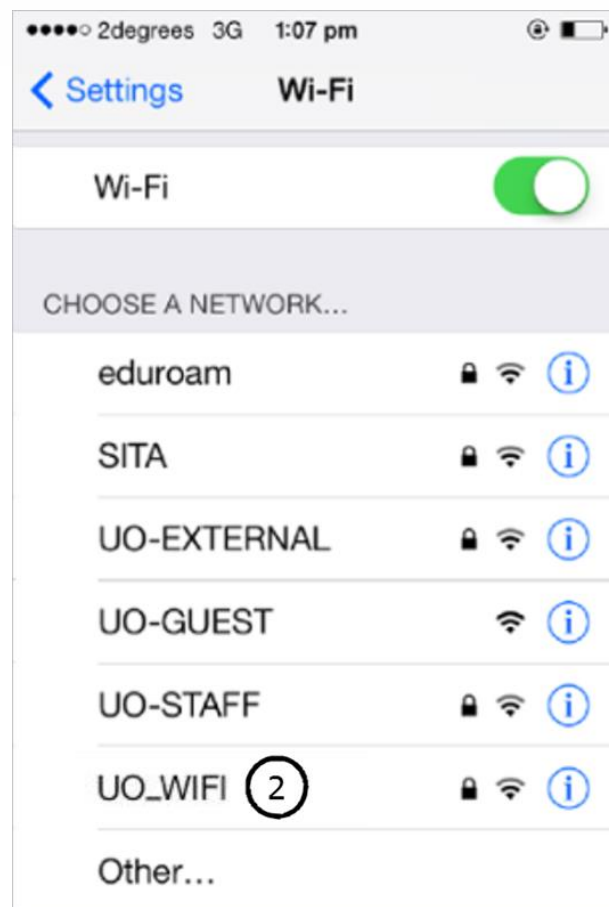

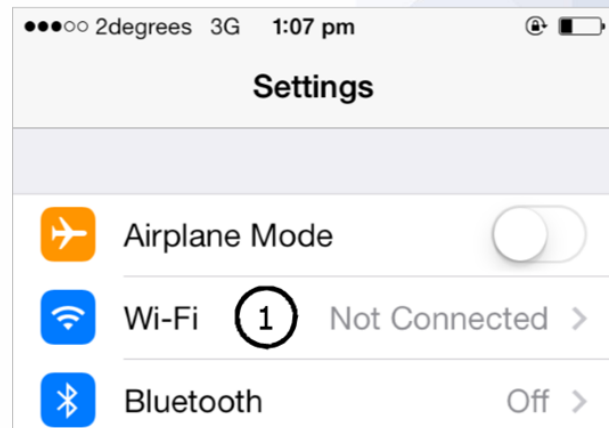

What is UO_WIFI?

UO_WIFI is the wireless network available to staff, students, and contractors to use when on University of Otago sites. Those with laptops and wireless-capable devices can connect to UO_WIFI to access both internal University resources and the internet. Your level of access is determined by your username.

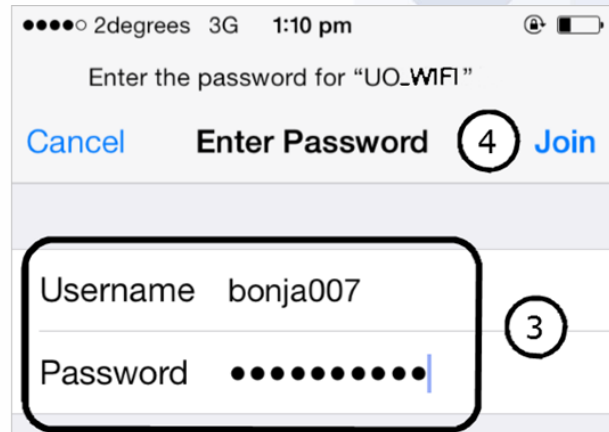

Connecting to UO_WIFI

1. Go to the **Settings** menu and select **Wi-Fi**.
2. Check that the wireless is turned on, and then select the University network **UO_WIFI**.

Some areas of campus may still see older/legacy networks called UO-STAFF, UO-STUDENT, UO-EXTERNAL, or UO-GUEST – please do not connect to these and instead use UO_WIFI

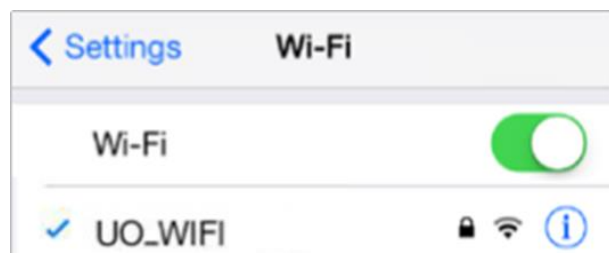

3. Enter your University username and password and tap Join.

4. Depending on your iOS version, tap Accept or Trust.

5. You are now connected.

Test your connection by opening your web browser and going to a University of Otago website and an external website, for example open <http://www.otago.ac.nz> and <http://www.bbc.co.uk>

If you can't connect to the network?

- Contact AskOtago on +64 3 479 7000 or 0800 80 80 98, or visit the AskOtago Central Hub, Information Services Building, Dunedin campus
