This section provides step-by-step instructions to configure your eduroam WLAN settings.

1. Once you are at the eduroam-participating location, go to **Settings > Wi-Fi** and find the **eduroam** wireless network.

2. You will be prompted to enter your password. Enter your University of Otago username (in the format <username>@otago.ac.nz) and password.

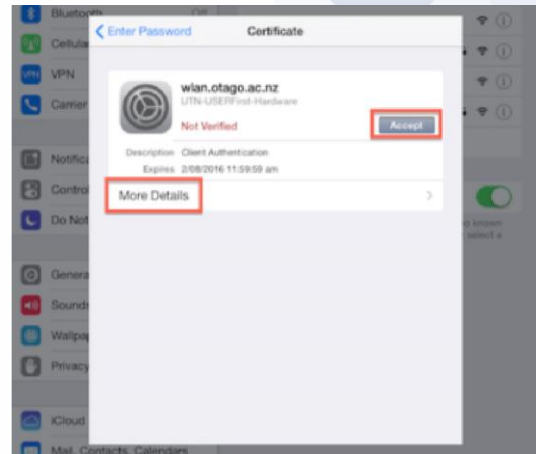

The **Mode** should be **Automatic**.

Click **Join**.

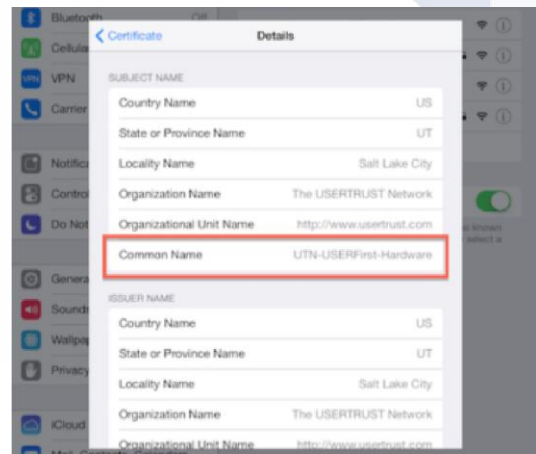

- You will be asked about the Certificate (wlan.otago.ac.nz).

Click on **More Details**.

- Check that the **Common Name** in the details is **UTNUSERFirst-Hardware**. Go back to the Certificate window and click **Accept**.

- You are now connected to the eduroam network. Click on **eduroam** to check that you have been assigned an IP address (this will be different at each location).

Open your web browser and go to <http://www.otago.ac.nz> to confirm that you are connected to the eduroam network. If this step fails, please reconnect to the eduroam wireless network by disabling then reenabling your Wi-Fi. You will be asked for your University of Otago login credentials again.

Please contact AskOtago if you need any help with setting up iOS for eduroam: phone 64 3 479 7000 or 0800 80 80 98 or email askotago.it@otago.ac.nz
