Assessment

The **final grade** of this paper is **summative**. This implies that final grade incorporates the results for individual assignments and the group assignment.

All important assessment information such as due dates and times, content, guidelines and so on will be discussed at lectures and, where appropriate, detailed on Blackboard. *Students are responsible for ensuring that they are aware of this information, keeping track of their own progress, and catching up on any missed classes.*

	Assessment	% of final grade
Individual work	Assignment 1	20%
Individual work	Assignment 2	30%
Group work	Group Case Study	50%
	Total	100%

Course Requirements. IMPORTANT!

To pass the course you must gain an overall grade of at least 50%.

Peer Evaluation Override

If you feel that some or all group members' contribution to the group assignment is not equal and he/they do not pull their weights, you can request me to use a peer evaluation form to adjust the group members' individual grades. At this instance, I will send a form to each group member to fill in, and HALF the weight of the grades on the group assignment will be re-assigned.

Individual Assignments (20% and 30%).

The purpose of the individual assignments is to see how you follow the foundations of Personal Finance and financial planning methods covered in class. They start with brief questions, which cover the key lecture material. They will also require you to practice applying some of the key financial planning methods to mini-cases.

Group Case Study: Creating a Financial Plan (50%).

We will have a Group Assignment *Financial Plan Case Study*, which covers *most of the class material* as well as some research and reading. The *Financial Plan Case Study* involves open-ended problem solving and mathematical calculations (there are several ways to the correct answer(s), which stimulate thinking and understanding, discourages memorizing and enables everything covered in the class to be assessed).

The class will be split into groups (3-5 students per group depending on the final enrolment). Each group will be asked to choose one of the case studies provided. Each group will then prepare a *written report* on the financial plan. *Every member in the group has to contribute towards the Case Written Report.*

The Group Assignment *Financial Plan Case Study* should be **no more than 6** pages in length (single-spaced, 12-point font) **plus any exhibits**. The group report will be graded by the course lecturer for both form and content. The **Assessment Guideline** will be provided on blackboard and during lectures. The instructor reserves the right not to mark parts of the report that exceed the stated page limit. The report will be worth 50% of the overall course grade. **Submission:** Written report is due for submission **on 19th Feb. by 12:00pm** (please place the written report in FINC 204 assignment box, Accountancy and Finance department, Otago Business School).

The University of Otago reserves the right to use plagiarism detection tools.

Students are advised to inform themselves about University policies concerning dishonest practice and take up opportunities to improve their academic and information literacy. Student Feedback

We encourage your feedback. This can be in the form of contacting staff, participating in course evaluation surveys and communicating with class representatives. Continual improvements will be made to this course based in part on student feedback.

Class Representatives

The class (or student) representative system is an avenue for encouraging communication and consultation between staff and students. It provides you with a vehicle for communicating your views on the teaching and delivery of the paper and provides staff with an opportunity to communicate information and gain constructive feedback from students. It contributes to the development of a sense of community within a department and it adds a further dimension to the range of support services offered to students.

Volunteers for the role of class representatives will be called early in the semester. The OUSA invites all class representatives to a training session, conducted by OUSA, about what it means to be a class representative and some of the possible procedures for dealing with issues that arise. They also provide information on the services that OUSA offers and the role OUSA can play in solving problems that may occur. The OUSA provides support to class representatives during the semester. Departmental staff will also meet with class representatives during the semester to discuss general issues or matters they wish to have considered.

Your class representative's name and contact details will be posted on Blackboard early in January.

Concerns about the Course

We hope you will feel comfortable coming to talk to us if you have a concern about the course. The Course Co-ordinator will be happy to discuss any concerns you may have. Alternatively, you can report your concerns to the Class Representative who will follow up with departmental staff. If, after making approaches via these channels, you do not feel that your concerns have been addressed, there are University channels that may aid resolution. For further advice or more information on these, contact the departmental administrator or head of department.
