

TABLE 11. Summary of estimates of annual survival (ϕ) and capture (p) probabilities for the pooled data on male and female European Dippers (*Cinclus cinclus*). The estimates are made under the CJS model (ϕ_t, p_t).

i	Year	$\hat{\phi}$	$\widehat{SE}(\hat{\phi})$	\hat{p}	$\widehat{SE}(\hat{p})$
1	1981–1982	0.718	0.155
2	1982–1983	0.435	0.069	0.696	0.166
3	1983–1984	0.478	0.060	0.923	0.073
4	1984–1985	0.626	0.059	0.913	0.058
5	1985–1986	0.599	0.056	0.901	0.054
6	1986–1987	0.932	0.046
