VISION AND ROLE

Disability Information and Support (DI&S) is a student support service at the University of Otago. Our vision is to work in partnership to promote an inclusive environment that celebrates diversity, promotes comprehensive academic support and empowers individuals with impairments to achieve their full potential.

Our role is to provide learning support, advice, advocacy and information to students who have a disability, impairment, injury or medical condition that affects their study.

SUPPORT FOR STUDENTS

Our Student Advisors are available to discuss each student’s requirements and work collaboratively to put together a support plan.

The information that a student provides DI&S in relation to their impairment and support requirements will be held in confidence. In addition, the support received is not documented on a student’s academic record or marked on their qualification.
