## Request for material from the University of Otago Geology Department Rock Catalogue

The University of Otago Geology Department Rock Catalogue contains a variety of samples that represent significant time, effort and money to collect and curate. We will provide portions of material free of charge (although there may be a mailing cost) but require that you respect the effort of the collector and Geology Department by appropriate acknowledgment in any resulting publication, report or thesis.

Name of applicant: \_\_\_\_\_

Address: \_\_\_\_\_

Email address: \_\_\_\_\_

Contact phone number: \_\_\_\_\_

Sample No. (e.g. OU 12345)	Description of what is required (include weight) (e.g., 100 gram piece of hand specimen.)	Purpose (e.g., XRF analysis)

(Use other side to add more samples.)

Intended date of return: \_\_\_\_\_

I understand that:

- 1) Any sample provided from the University of Otago Geology Department Rock Catalogue that forms part of a publication, report or thesis must state in the acknowledgements the original rock collector's name and the source as the University of Otago Geology Department.
- 2) If the required material is from a thesis collection, the thesis must be appropriately acknowledged.
- 3) Any material provided should be reported in any publication, report, thesis, etc, as OU (5 digits), corresponding to the number in the rock catalogue.
- 4) No more than half of any one sample will be provided at a time, regardless of the size in the collection.
- 5) All material must be returned upon completion of the study.
- 6) The Geology Department has the right to turn down any request, and recall any sample at any time.
