Equal Opportunities:

Take into account the need to reflect the diversity of eligible academic and professional staff across the participant universities. It is envisaged that the group will comprise participants from a range of research backgrounds, discipline areas, faculties/colleges and service units.

There is also the opportunity to consider particular equity groups such as women in science and engineering, or Māori and Pasifika women. Also consider recognising the importance of having diverse senior role models which reflect and represent our society by encouraging women from a range of minority ethnic communities to participate in the *Te Manahua* NZUWiL programme e.g. Asian, Indian, African etc;

Note: *Te Manahua* NZUWiL provides funding for two scholarships for Māori and Pasifika women for each programme. *Te Manahua* NZUWiL will fund \$3,000+GST towards the cost of the programme fee and the University of the successful nominee are to fund the remaining \$2,750+GST and arrange to cover the cost of travel to and from Wellington, as required.
