

## **IT Training Room 1, University of Otago**

IT Training Room 1 is equipped with 15 iMac dual-boot computers (which run either Mac OS X or Windows XP or 7) and a data projector. There is an additional computer for the trainer, a projection screen and a whiteboard. The specification for the computers is as follows:

iMac

21.5 inch screen (widescreen)

3.06GHz Intel Core i3 Processor

8 GB Ram

ATI Radeon HD 4670 with 256Mb of GDDR3 memory

Integrated Realtek Alc861 8 Ch Audio

500 GB Hard Drive

Slot-loading 8x SuperDrive (DVD-R/DVD-RW/CD-RW)

Wireless - Airport Extreme and Bluetooth

Built-in iSight camera

Mini Display Port output - DVI, dual-link DVI and VGA video (adapters sold separately)

1 x FireWire 800 Port, 4 x USB 2.0 ports, SDXC card slot, Gigabit Ethernet

XP Professional and Windows7 Operating System

Mac OS X 10.6

By each computer we have two network ports - one for the University network and one for an internal network. (There are currently no servers on the internal network or any services set up, but it means that when we run Network courses we can set up the servers on a closed network.)
