

# SIMULWEEK

*One week of simulation-based education and training*

Brought to you by Otago Clinical Skills Laboratories  
in partnership with **SIMULC** 

*Achieving excellence through hands-on clinical education*

- 2019
- SIMULATION SYMPOSIUM 18 MARCH
  - 2-DAY SIMULCOURSE ADVANCE 19-20 MARCH
  - 1-DAY SIMULCOURSE 21 MARCH

Tailored for educators who want to integrate simulation in their educational and quality improvement programmes.

## FACILITATORS

**Dr Victoria Brazil** is Professor Emergency Medicine and Director of the Simulation Service at Bond University and Gold Coast Health, Australia. Victoria is a medical educator with over 15 years' simulation experience in the hospital, university and private educational contexts.

**Jesse Spurr** is a Critical Care Nurse and Clinical Educator with experience in healthcare simulation in both SIM centres and hospital-wide in situ SIM programmes. Jesse has a specific interest in point-of-care simulation design, debrief and evaluation methods aimed at merging training with continuous quality improvement. Together Victoria and Jesse produce **Simulcast**; a podcast for the healthcare simulation community ([www.simulationpodcast.com](http://www.simulationpodcast.com))

Proudly supported by the  
Dunedin School of Medicine &  
Southern District Health Board
