

SIMULCOURSE

Brought to you by Otago Clinical Skills Laboratories

in partnership with **SIMULCAST**

Achieving excellence through hands-on clinical education

21st
March
2019

A one day workshop open to all health professionals who wish to integrate simulation into their education and quality improvement programs.

Participants will be provided with a grounding on how to design and deliver simulation-based education effectively, as well as focussing on debrief techniques and reflective discussions which will help translate educational outcomes to clinical practice.

Key topics include

- Designing and delivering simulation based learning
- Designing and delivering scenarios
- Debriefing and debriefing dilemmas
- Hot topics –simulated patients/buy in and sustainability

Key Facilitators

SIMULCAST: Prof Victoria Brazil, Jesse Spurr

OCSL: Dr Ohad Dar, Paul Medeiros

Cost (Inclusive of GST)

Health Professional (RMO/RN/Paramedic)	\$650
SMO single entry	\$850
SMO discount entry for two	\$1250

Limited to 14 participants. Refreshments and lunch are included
