

## GRADUATES

### 2019

- Jessica Aitken - PhD (*Dr Taumoepeau/Professor Ruffman*) From goal-to emotion-based helping: The interactive roles of toddlers' social understanding and connectedness of parental mental state talk
- Gina Anderson-Lister - MA (*Dr Treharne*) 'Healthy' individuals' perceptions of type 1 and type 2 diabetes cause and management: A 'think-aloud', mixed-methods study
- Carlos Barroso Silva - PhD (*Professor McNaughton*) Reconceptualizing the periaqueductal grey: Fear, anxiety and motivational systems in an ancient structure
- Louise Cody - MSc (*Dr Scarf*) Exploring university students' alcohol consumption, consequences, motives, and protective behavioural strategies during re-orientation week and the semester
- Ann Cronin - PhD (*Professor Hayne/Dr Gross*) Drawing from the past to learn tomorrow
- Shika Das - PhD/PGDipCIPs (*Dr Schaughency/Professor Reese*) Rich reading and reminiscing: benefits of parent- preschooler interactions for children's developing language, behavioural regulation, and socio-emotional competencies
- Larnee Flannery - MSc/PGDipCIPs (*Professor Hayne/Dr Gross*) Innocent until proven guilty: The effect truncated testimony and deliberation on jury decision-making
- Hayley Guiney - PhD (*Associate Professor Machado/Associate Professor Keall, Public Health, Wellington*) Promoting healthy brain ageing: Potential benefits of physical activity and volunteering
- Hadar Hazan - PhD (*Dr Linscott/Professor Reese*) Aspects of self in schizotypy: Basic and narrative sense of self among individuals at psychometric risk for schizophrenia
- Roanne Hurley - PhD (*Associate Professor Machado/Professor Abraham*) Using TDCS to improve working memory: Can metaplasticity protocols boost benefits?
- Zoe Jaquierey - MSc/PGDipCIPs (*Dr Hillman*) Effect of exercise on the ACC-OFC network and implications for cost-benefit decision-making
- Marijn Kouwenhoven - PhD (*Associate Professor Rachel Zajac*) Focus on the task at hand: Contextual bias in the forensic examination of handwriting
- Wei Liao - MSc (*Professor Hayne/Dr Gross*) Put your smartphone down: Preliminary evidence that reducing smartphone use improves psychological well-being in people with poor mental health
- Hrishikesh Pattabhiraman - MSc (*Dr Ward*) Retroactive interference of an operant discrimination induced by exposure to a Pavlovian-conditioning task: Task specific and neuronal factors
- Christopher Smith - PhD (*Dr Scarf/Professor Ruffman*) The long and the short of it? An explanation of the spacing effect over long time scales
- Thomas Swan - PhD (*Professor Halberstadt*) The effect of anxiety on religious cognition
- Jia Li Tang - MSc (*Professor Miller*) The effects of task probability on processing mode in dual-task contexts
- Oscar Taylor - MSc/PGDipCIPs (*Associate Professor Treharne*) "Thrown to the wolves": Lesbian, gay, bisexual, transgender, and queer youth's perceptions of their mental health experiences and support
- Alaska White - MSc (*Professor O'Hare*) In plane sight: Distraction and object detection in simulated flights

### 2018

- Victoria Alogna - PhD (*Professor Halberstadt*) The divergent effects of prayer on cognitive performance
- Emilia Barna - MSc (*Professor Hayne/Dr Gross/Dr Patterson, Psychological Medicine*) Effects of age and gender on jurors' evaluation of partial and complete transcripts of a child witness's testimony
- Jennifer Baxter - PhD (*Associate Professor Hunter/Dr Miyahara, School of Physical Education and Sports Exercise/Dr Mirfin-Veitch, Centre for Postgraduate Nursing Studies*) "I wouldn't mind having some friends. But I don't mind being alone": Social anxiety and autism spectrum disorder
- Amy Beeby - MSc (*Dr Patterson, Psychological Medicine/Dr Gross/Professor Hayne*) Is there leniency for female sexual offenders in sentencing decisions?
- Kate Brookie - PhD/PGDipCIPs (*Dr Conner*) Can an apple a day keep the psychologist away? The role of fruit and vegetable intake in mental well-being
- Marea Colombo - PhD (*Professor Halberstadt*) Keeping your friends close and your enemies closer: Group membership and theory of mind

Georgina De Brelaz - MSc (*Professor Reese/Dr Taumoepeau*) Narrating transgressions in adolescence: A longitudinal study

Ashley Deane - MSc (*Dr Ward*) Investigation into the impact of time specific immunological insult on brain and behaviour using a neurodevelopmental rodent model of psychiatric disease

Thomas Elston - PhD (*Professor Bilkey*) Adaptive motivational signals in the anterior cingulate cortex and ventral tegmental area

Eilis Gallagher - MA (*Professor Hayne/Dr Gross/Dr Patterson, Department of Psychological Medicine*) The presence of a monitor in forensic interviews with child witnesses

Jordan Gardner - MSc (*Professor Franz*) Congenital mirror movements and the impact on the somatosensory system

Rebecca Harding - PhD (*Dr Schaughency/Associate Professor Galland, Women's and Children's Health/Dr Haszard, Human Nutrition*) A regional and nationwide perspective on the relationship between sleep disordered breathing and academic performance in New Zealand children

Regina Hegemann - PhD (*Professor Abraham*) Postsynaptic cell firing bidirectionally regulates future long-term potentiation in the rat hippocampus

Sarah Hill - MSc (*Professor Ruffman*) Parental impact on child prejudice in New Zealand

Li-Fu (Jack) Hsiao - MSc (*Professor Ruffman*) Deception detection: Where do I look, upper face or lower face?

Genevieve Iversen - PhD/PGDipCIPs (*Professor Ruffman*) A fairy tale or a true story? Lie detection and leakage

Imogen Kaack - MSc (*Dr Linscott*) Auditory and visual illusions as predictors of positive thought disorder in an undergraduate sample

Tame Kawe - MSc (*Professor McNaughton*) Electroencephalographic measures of depressivity: Alpha asymmetry and fractal dimension

Lana Kinney - MSc (*Professor O'Hare*) Physiological arousal, information processing, performance and expertise in expected and unexpected abnormal flight events: An empirical investigation

Maren Kleinmans - MSc (*Professor Bilkey*) Fluoxetine treatment and its effect on the behaviour of MIA rats

Kelsi Linney - MSc (*Professor Reese*) Effects of shared book-reading techniques on the early literacy and language skills of 4- and 5-year olds

Jessica Lord - MSc (*Professor Colombo*) The delayed matching-to-sample task - Are pigeons too smart to remember?

Alice McClintock - MSc/PGDipCIPs (*Professor Hayne/Dr Gross*) The effect of children's testimony format on juror decision-making

Julia McIntosh - MSc/PGDipCIPs (*Professor McNaughton*) Is goal conflict specific rhythmicity a biomarker for a type of clinical anxiety?

Kieran Moffat - MSc (*Associate Professor Hunter*) Intergroup behaviour: The relationship between increased belonging and positive Ingroup evaluations

Jodi Morrissey - PhD (*Professor Abraham/Associate Professor Hughes, Biochemistry*) Characterisation of peptides from within the secreted Amyloid Precursor Protein alpha as potential therapeutics in Alzheimer's disease

Zoe Morris Trainor - MSc/PGDipCIPs (*Professor Halberstadt*) The role of death salience in the relationships among trauma, religiosity, and wellbeing

Phoebe Naldoza Drake - MSc/PGDipCIPs (*Associate Professor Machado*) Health and Bread Intervention Trials (HABIT): Is nutrient-rich bread an effective way of promoting cognitive functioning?

Maxwell Nicolson - PGDipCIPs

Theresa Parker - MSc/PGDipCIPs (*Dr Linscott*) Does perceived burdensomeness and thwarted belongingness mediate the relationship between schizotypy and suicidal ideation?

Renelyn Parra - MSc (*Professor Colombo*) Neural basis of categorisation in a 30-million-year-old feathered reptilian dinosaur

Hannah Phillips - MSc (*Professor Colombo*) The effect of aniracetam on the performance of pigeons in the delayed matching-to-sample task

Cassandra Rolston - MSc (*Dr Conner/Dr Treharne/Associate Professor Stamp, Medicine, Christchurch*) Improving gout education from patients' perspectives: A focus group study of Maori and New Zealand European people with gout

Warren Scott - MSc (*Dr Treharne*) Rheumatoid arthritis, men and physical activity: A qualitative study

Anurag Singh - PhD (*Professor Abraham*) Tumor necrosis factor mediated heterodendritic metaplasticity in rats and alzheimer's mice

Catherine Thomas - MSc (*Dr Taumoepeau/Dr Beanland*) Comprehension of hazard warning labels for consumer products

Wulin Tian - MSc (*Professor Hayne/Dr Gross*) The effect of order of presentation of child abuse allegations on mock jurors' decision-making

Sean Shui Liang Tok - MSc (Neuroscience) (*Professor Abraham/Associate Professor Hughes, Biochemistry*) The development and characterization of a new mouse model

Shannon Tumataroa - PhD (*Professor O'Hare*) The effect of poverty on cognitive function: Does a reminder of financial hardship affect subsequent decision-making?

Michela Verwey - MSc/PGDipCIPs (*Dr Linscott*) A common-factor as an explanation for the association between schizotypy and cannabis use

Emily Ware - MSc (*Professor Hayne*) Children's perceptions of dentistry: Giving children a voice about their dental care

Shannon Westgate - PhD/PGDipCIPs (*Associate Professor Zajac/Professor Hayne*) Making Memories: Adults' and children's ability to recall the particularisation details of past events and the role of speculation

Weiwei Zhang - PhD (*Professor Hayne/Dr Gross*) The effect of emotion on false memories in the Deese-Roediger-McDermott (DRM) paradigm

## 2017

Bruno Aldaz Barba - PhD (*Dr Treharne/Dr Conner*) The experience of cancer treatment with curative intent. A mixed-methods exploration with patients and oncology healthcare professionals

Abdulaziz Musharraf Alshaer - PhD (*Professor Regenbrecht, Information Science/Professor O'Hare*) Virtual reality interface factors in a power wheelchair simulator

Jacob Ashdown - MSc (*Dr Treharne*) He Tirohanga I te Oranga o ngā Tangata Whai Ora o te Hapori Haumanu o Te Whare Moana Māori men's perspectives of rehabilitation in the Moana House therapeutic community: A qualitative enquiry

Emma Beeby - PhD (*Dr Alsop*) Choice among multiple alternatives

Luca Blumhardt - MSc (*Dr Alsop*) Stimulus overselectivity and effect of reward history

Po Ling (Polly) Chen - PhD (*Dr Machado*) Saccadic eye movement behaviour in healthy adults: investigations of clinically practical anodal transcranial direct current stimulation protocols

Maria Choukri - PhD (*Dr Tamlin Conner/Dr Houghton, Human Nutrition*) The relationship between vitamin D, depressive symptoms, and psychological well-being in a non-clinical population

Kelsey Davis - MSc (*Dr Scarf*) Mother knows best? The influence of maternal modelling on preschool children's ability to delay gratification

Fawzan Dinnunhan - MSc (*Professor Abraham*) Animal age and enriched environment affect the "retirement" of adult-generated dentate granule cells

Kate Edgar - MSc/PGDipCIPs (*Dr Linscott*) Does labelling influence responding on self-report schizotypy questionnaires?

Samuel Flannery - MSc/PGDipCIPs (*Dr Machado*) Longitudinal assessment of cognitive deficits in Parkinson's disease using a computerised battery

Rebecca Grattan - PhD/PGDipCIPs (*Dr Linscott/Dr Lokman, Zoology*) The measurement and investigation of psychological stress sensitivity in schizophrenia risk

Jillian Hayhurst - PhD (*Associate Professor Hunter/Professor Ruffman*) Hope for regeneration: Increasing civic intentions and values in young people

Ashley Hinten - MA (*Dr Scarf*) The relationships between children and young adults' social evaluations, prosociality, and callous-unemotional traits

Kyung Ho (Kenny) Jang - MSc (*Professor Poulton/Dr Ramrakha*) How many is too many? Prevalence rates and related childhood factors of multimorbidity in New Zealand

Christopher Jackson - PhD (*Professor Halberstadt*) Death and failure: A cautionary tale of death anxiety and alternate causality

Madeleine Kyrke-Smith - PhD (*Professor Abraham/Dr Williams, Anatomy and Structural Biology*) Memory HQ: The possible central role of the epigenome in maintaining long term potentiation

Kieran McCormick - MSc (*Dr Treharne*) Are illness perceptions, depression, and anxiety associated with hand dexterity for people with rheumatoid arthritis?

Mark Madill - MSc (*Associate Professor Murray*) Is there an age-related attentional bias towards positive information presented outside focussed attention?

Max Major - PhD/PGDipCIPs (*Professor Franz/Dr Linscott*) "I Want It Now!" Neural correlates of impulsive decisions and actions

Jessica Millar - PhD (*Professor Bilkey*) Pathological behaviour in a model of maternal immune activation: Prenatal inflammation and adult neurogenesis

Saleh Moradi - PhD (*Associate Professor Jackie Hunter/Dr Filep, Tourism*) Flourishing and the world around: The role of personal and contextual moral guidance in improving the socio-moral outcomes of living a flourishing life

Fareesha Nisha - MSc (*Professor Bilkey*) Ripple-associated hippocampal activity and recognition memory in rats during rest

Ashlie Nobilo - MSc (*Dr Taumoepeau*) Socio-cultural effects of parents' cultural identification on children's theory-of-mind development

Danielle O'Brien - PGDipCIPs

Darius Paschke - MSc (*Dr Alsop*) Sensitivity to reward and punishment in relation to symptoms of adult ADHD and depression in a non-clinical sample

Paris Pidduck - MSc/PGDipCIPs (*Dr Treharne/Dr Shaughency*) What do Tamariki have to say about Hauora? A qualitative study using photography

Blake Porter - PhD (*Professor Bilkey*) On the mechanisms of effort encoding in the rodent hippocampus and anterior cingulate cortex

Phoebe Poulter - PhD/PGDipCIPs (*Dr Treharne*) "I'm actually pretty happy with how I am": A focus group study of young women with positive body image

Vaughn Rankin - MSc (*Associate Professor Hunter*) You're either with us or against us: How ingroup favouritism arises to defend against external threats

Kahla Redman - PhD (*Professor Halberstadt*) Fiction reading and sexism: Exploring the effects of fiction reading and transportation on sexist attitudes

Christian Ruzibiza - MSc (*Dr Linscott*) Schizophrenia risk, stress, and resilience: A longitudinal investigation into the effects of schizotypy on stress, and the moderation of resilience

Sanam Sadeghi - MSc (*Dr Taumoepeau*) Social and cognitive factors associated with Iranian children's social understanding

Tayla Shepherd - MA (*Professor O'Hare*) Exploring communication of the maritime bridge team using a novel speech act coding scheme: A 'pilot' study

Charmaine Strickland - PhD/PGDipCIPs (*Professor O'Hare/Dr Murachver*) Do you want what I want?: Egocentrism in adults for knowledge and desire

Michael Stuart - MSc (*Dr Scarf*) Hunting the Snark: The contribution of the avian hippocampus to long-term visual memory and the representation of serial order

Ryan Sutcliffe - MSc (*Professor Ruffman*) Hitting the wrong note: Recognition of music emotions decreases with age

Penny Tipu - MSc/PGDipCIPs (*Dr Treharne*) Belonging in both Te Ao Māori and Te Ao Pākehā: A qualitative study exploring Identity

Alysha Wilson - MSc (*Professor Colombo*) Who needs a hippocampus? The role of the avian hippocampus in serial order behaviour and temporal discriminations

Feifei Wu - MSc (*Associate Professor Hunter*) Control as both an outcome and predictor of intergroup discrimination

## 2016

- Phillipa Aimer - PhD (*Associate Professor Stamp, Medicine, Christchurch/Professor Cameron, Medicine, Christchurch/Dr Treharne*) Identifying and overcoming barriers to smoking cessation in rheumatoid arthritis
- Lakin Anderson - MSc (*Professor Hayne/Dr Gross*) Where there's smoke, there's fire: The effect of truncated testimony on juror decision making
- Michael Banks - PhD (*Associate Professor Hunter/Professor Hayne*) Exclusion, intergroup discrimination, and belonging
- Kathryn Appleyard - PhD (*Associate Professor Galland, Professor Taylor, Women's and Children's Health /Dr Schaughency*) The relationship of sleep consolidation with behaviour, cognition and sensory processing in toddlers
- Anna Barham - MSc (*Dr Treharne*) Living with an invisible neurological condition: An interpretative phenomenological analysis study
- David Barton - PhD (*Professor Halberstadt*) Exploring a social "bouba-kiki" effect and the affective consequences of having a congruent versus incongruent name
- Christopher Brett - MSc/PGDipCIPs (*Dr Machado*) Manual versus saccadic assessment of inhibition and switching deficits: Evidence the saccadic system exhibits resistance to healthy aging
- Alana Coombe - MSc (*Professor O'Hare*) Blowing the whistle on umpire decision making: Investigating the cognitive and perceptual correlates of decision making accuracy in netball officials
- Ranjan Debnath - PhD (*Professor Franz/Professor Miller*) The neural correlates of mirror therapy - An EEG study
- Piers Furney - MSc (*Professor O'Hare*) The effect of cognitive and perceptual load on attention in PowerPoint presentations
- Jesicka Goei - PhD (Neuroscience) (*Professor Franz/Associate Professor Hammond-Tooke, Medicine*) Investigations of heterogeneity, directionality, and involvement of associative memory in synaesthesia
- Celia Guido Mendes - PhD (*Professor Miller/Dr Taumoepeau/Dr Murachver*) The impact of bilingualism on conflict control
- Burt Hatch - PhD (*Dr Healey/Professor Ruffman*) An examination of emotional processes in children with Attention-Deficit/Hyperactivity Disorder
- Qin Hu - MSc (*Associate Professor Hunter*) Behavior in bad taste: The association between perceived control and intergroup discrimination
- Bridget Irvine - PhD (*Dr Zajac/Dr Brown, Victoria University of Wellington*) Preparing children for cross-examination: Investigating the efficacy of a preparation intervention
- Benjamin Jaquierey - PhD/PGDipCIPs (*Dr Healey/Professor Franz*) Age-related cognitive changes in children with ADHD
- Melissa Johnston - MSc (*Professor Colombo*) Examining the underlying mechanisms of the differential outcomes effect in pigeons
- Danielle Le Roux - MSc (*Professor Reese*) Does talking matter?: Mother-child reminiscing in relation to adolescent wellbeing within a New Zealand sample
- Charlotte Levings - MSc/PGDipCIPs (*Dr Linscott*) Is loss aversion diminished in schizotypy and does emotional intelligence influence this relationship?
- Laura McCambridge - MSc (*Professor Halberstadt*) Social effects of causal opacity and pain in rituals
- Jessica McTavish - MSc (*Professor Franz*) Task-switching and attention in essential tremor and Parkinson's disease: An EEG study
- Sarah Maessen - PhD (*Associate Professor Galland, Women's and Children's Health/Dr Schaughency*) Assessing learning, breathing and treatment of respiratory obstruction during sleep in school children: The ALBATROSS Study
- Elizabeth Mayland - PhD (*Dr Hay-Smith, Rehabilitation Teaching and Research Unit/Dr Treharne*) A conceptual exploration of psychological distress following mild to moderate traumatic upper limb injuries
- Terence Mayne - MSc (Neuroscience) (*Professor Franz*) Is biofeedback training of ownership perceptions possible? EEG classification of volitional hand-ownership using common spatial patterns
- Hannah Moodie - MSc (*Associate Professor Hunter*) Belonging and in-group favouritism: Belonging as a predictor and an outcome of in-group favouritism using negative outcomes

Tia Neha - PhD (*Professor Reese/Dr Taumoepeau*) He Maumahara ki ngā korero a ngā whānau ki Te Waipounamu: Family recollections and social contributions on Māori children's learning in the South Island, New Zealand

Helen Owen - PhD (*Professor Halberstadt*) Truth in text: Why simple language is perceived as more credible

Helen Paterson - PhD (*Dr Hay Smith, Women's and Children's Health/Dr Treharne/Dr Howarth, Human Nutrition*) Intuitive eating in pregnancy

Aimee Peacock - MSc/PGDipCIPs (*Professor Colombo*) The role of the avian hippocampus in sequence learning and visual memory

Aimee Richardson - MSc/PGDipCIPs (*Dr Conner*) The role of micronutrients in depressive symptoms and mood: An investigation of iron and selenium

Hester Roberts - MSc (*Professor Ruffman*) Deception: How do we feel about it, and how do we detect it

Sima Sadeghi - PhD (*Professor McNaughton/Dr Healey*) Does ADHD derive from dysfunction of Grays Behavioural Inhibition System?

Izuru Sato - PhD (*Dr Conner*) Understanding the beneficial relationship between nature and well-being in daily life- a multi-method mediational investigation

Joseph Secher - PhD (*Professor Halberstadt*) Overhyped and underresearched: What explains risk perception of malicious hazards?

Valerie Tan - PhD (*Professor Abraham/Dr Hughes, Biochemistry*) sAPP $\alpha$  over-expression as a preventative measure against Alzheimer's disease in a mouse model

Arnika van den berg - MSc (*Professor Halberstadt*) Name-face congruency in biracials: Perception of Eurasians in New Zealand

Taylor Winter - MSc (*Professor Franz*) Neuromechanisms of bimanual coordination in the autistic brain: A joint behavioural and neuroimaging study

Michael Yung - MSc (*Dr Machado*) Effects of age, gender, handedness, education and time of testing on executive functioning in Parkinson's

## 2015

Sarah Andrews - MSc (*Professor Colombo*) Can pigeons become experts at a task?

Susan Baxter - PhD (*Dr Treharne/Associate Professor Hale, School of Physiotherapy/Dr Smith, Medicine*) Development of a safe, effective and accessible physical activity intervention for people with rheumatoid arthritis

Elle Black - MA/PGDipCIPs (*Dr Healey*) The effects of negative emotionality and neurocognitive functioning on Attention Deficit/Hyperactivity Disorder symptom severity

Nicole Brown - MSc (*Dr Gross*) The effects of rapport-building when interviewing children

Anna Campbell - PhD/PGDipCIPs (*Professor Ruffman/Dr Murray*) The influence of oxytocin on older adults' emotion processing

Lynne Clay - PhD (*Dr Hay Smith, Women's and Children's Health/Associate Professor Milosavljevi, School of Physiotherapy/Dr Treharne*) "There are risks to be taken and some just push it too far". A mixed methods exploration of human risk factors in agricultural quad-bike incidents in New Zealand.

Brittany Cullen - MSc (*Associate Professor O'Hare*) The effectiveness of a reduced-processing decision support system in facilitating the diagnosis of child psychiatric disorders

Martha Del Carpio Zevallos - MSc (*Dr Hunter*) The role of belonging in ingroup favouritism

Kate Goss - MSc (*Dr Linscott*) Loss aversion in schizotypy: Investigating decision-making in those with a liability to schizophrenia

Samantha Groves - MSc (*Professor Knight/J Jordan, Psychological Medicine, Christchurch*) Neuropsychological function and brain activity changes with MCT and CBT for depression

Ekta Gupta - MSc (*Dr Mele Taumoepeau/Professor Elaine Reese*) Mental state talk and social understanding in New Zealand toddlers: A Pacific Island context

Roisin Hegarty - MSc (*Dr Treharne*) The psychological consequences of daily fatigue among rheumatoid arthritis patients and undergraduate university students

Joshua Hewitt - MSc (*Dr Scarf*) To risk or not to risk? A look at children's decision making

Sarah Kafka - PhD (*Dr Hunter/Professor Gordon Harrold, University of Leicester*) Group identity and intergroup discrimination: Does importance to identity play a special role?

Julia Kibblewhite - MSc (*Dr Treharne*) What makes exercise enjoyable for people with arthritis?  
A Q methodology study of shared opinions

Rebekah Luo - PhD (*Dr Galland, Women's and Children's Health/Dr Schaughency*) Sleep disorder breathing in young children: Natural history and relations to academic performance

Matthew McDonald - PhD/PGDipCIPs (*Professor Knight/Dr Linscott*) Age-related changes in memory abilities in older adults

Michelle McGrath - MSc (*Professor Reese*) Fathers get perinatal depression too

Hannah Macgregor-Wolken - MA/PGDipCIPs (*Dr Linscott*) Schizotypy in New Zealand ethnic minority groups: Examination of social risk and protective factors

Brodie McKinlay – MA/PGDipCIP (*Dr Treharne /Dr Healey*) A qualitative study on parenting a child with ADHD: Finding ways to cope with the challenges

Eugene McTavish - MSc (*Professor Franz*) Cerebellar-cortical interactions in high-functioning autism: A diffusion tensor imaging and voxel-based morphometry investigation

Matthew Moore - PhD (*Professor Franz*) Investigating the cognitive neuropsychology of social perception and reasoning

Katie Morris-Cole - MSc (*Dr Shemmell, Physical Education/Professor Abraham*) Robustness of transcranial random noise stimulation effects on corticomotor excitability

Sarah Morton - PhD/PGDipCIPs (*Dr Linscott/Dr Machado*) The latent structure of schizotypy: Looking back and moving forward

Ella Myftari - PhD (*Professor Reese*) Ko taku reo taku ohooho, ko taku reo taku mapihi mauria<sup>1</sup>: Exploring Māori narrative identity development and the link to adolescent well-being <sup>1</sup>Māori proverb: My language is my awakening, my language is the window to my soul

Deborah Nicholas - MSc (*Professor Reese*) The role of religion and spirituality in adolescent wellbeing in Aotearoa New Zealand

Maxwell Nicolson - MSc (*Dr Linscott*) Is schizotypy associated with babble-induced speech illusions and negative valence?

Rana Peniamina - PhD (*Dr Miroso, Professor Bremer, Food Science/Dr Conner*) The impact of food allergies on quality of life

Shabah Shadli - PhD (*Professor McNaughton*) An improved human anxiety-specific biomarker: frequency band, modality specificity, personality, pharmacology, and source characterisation

Surabhi Shukla - MSc (*Dr Scarf*) Relative or absolute? The impact of reward size on 3- and 4-year old children's ability to delay gratification

Joanne Todd - MSc (*Professor Reese*) Does media violence make you less helpful? The effect of violent television and literature on prosocial behaviour

Helen Shuk Ling Tsui - PhD/PGDipCIPs (*Professor Knight/Professor Abraham/Dr Williams, Anatomy and Structural Biology*) Predictors of cognitive impairment in old age

Shinayd Van Rooy - MA/PGDipCIPs (*Dr Healey*) Predicting global and specific impairment in children with ADHD: Interactions between child temperament and maternal traits

## 2014

Rachel Barham - MSc (*Dr Murray*) Is the automatic recognition of emotional expressions modulated by eye-gaze direction?

Kirsten Cheyne - PhD (*Professor Bilkey*) Hippocampal place cells dynamically encode value of available goals during spatial navigation

Joon Choi - MSc/PGDipCIPs (*Dr Schaughency/Dr Tripp/Dr Murachver*) Exploring the social language use of children with Attention-Deficit/Hyperactivity Disorder

Chew Wuei Chong - PhD (*Dr Linscott/Professor McNaughton*) Exploring the relationship between hedonic capacity and schizotypy quantitatively using the reinforcer sensitivity theory

Abigail Dawson - MSc (*Professor Ruffman*) The role of empathy and emotion recognition in prejudice and right-wing authoritarianism in older adults

Melinda Elfield - MSc (*Professor Hayne/Dr Gross/Dr Hunter*) Adolescent risk taking: Peer presence and the validity of a laboratory-based measure

Nicholas Farrelly - MSc/PGDipCIPs (*Dr Alsop*) Examining the choice behaviour of sensation seekers using concurrent schedules

Yan Fu – PhD (Professor Franz) Visual perspective effects on action memory

Beatrix Gardiner - MA/PGDipCIPs (*Professor Hayne*) Adolescent risk-taking: The validity of Stoplight as a laboratory-based measure

Lucy Harrison - MSc/PGDipCIPs (*Dr Alsop*) In pursuit of the “Near Win Effect” in non-problem gamblers

Eve Hermansson-Webb - PhD/PGDipCIPs (*Professor Knight/Dr Fernando, Psychological Medicine*) ‘With friends like these ...’: The social contagion of non-suicidal self-injury amongst adolescent females

Timi Horne - PhD/PGDipCIPs (*Professor Hayne*) Mother-child conflict: A development perspective

Azra Jahanitabesh - PhD (Professor Halberstadt/Dr Fernando, Psychological Medicine) The concreteness effect: The impact of depressive rumination on recognition and interpretation of facial expressions in dysphoric women

Benjamin Jarvis - MSc (*Professor Colombo*) Expertise of pigeons (Columbia Livia)

Thomas Jenkin - MSc (*Professor Hayne*) Individual differences in intersensory integration and inhibition do not predict performance on the DRM paradigm

Owen Jones - PhD (*Professor Abraham*) Intercellular communication and heterosynaptic metaplasticity in the rodent hippocampus

Stephanie Kennerley - MSc/PGDipCIPs (*Dr Healey*) Informant discrepancies in the assessment of Attention-Deficit/Hyperactivity Disorder

Natalie Kladnitski - MSc/PGDipCIPs (*Dr Conner*) The role of dysphoria in the predictions, experience, and memory of happiness

Paul McCarthy - PhD (*Dr Benuskova, Computer Science/Professor Franz*) Functional network analysis of aging and Alzheimer’s disease

Philippa McDowall - PhD/PGDipCIPs (*Dr Schaughency*) Parent-involvement in children’s reading development: Parent and teacher perceptions, and children reading outcomes

Lucy Macfarlane - MSc (*Professor Reese/Dr McAnally*) Explaining variation in adolescent wellbeing: The roles of personality, preadolescence and past event talk

Simran Maggo - PhD (*Dr Ashton/Professor Smith, Pharmacology and Toxicology/Dr Mockett*) Statin-induced deficits in memory and learning: A behavioural and electrophysiological investigation

Jaimee Maha - MSc (Dr Linscott) The associations among alcohol use, ethnicity, and schizotypy in a New Zealand undergraduate population

Jessica Morten - PhD/PGDipCIPs (*Dr Zajac*) Individual differences in visual and verbal eyewitness testimony: Putting the ‘I’ in eyewitness evidence

Pene Muir - MSc/PGDipCIPs (*Dr Zajac*) Improving children’s performance on photographic lineups: Do the physical properties of a ‘Wildcard’ influence its success

Samuel O’Sullivan - MA/PGDipCIPs (*Professor Halberstadt*) The “right” name feels right: The influence of stimulus “fit” on affective experience

Tristan Philip - PhD (Professor Halberstadt) Motive, character and the moral good: Elaboration on a footnote

Benjamin Riordan - MSc (*Professor Halberstadt*) Positive affect and typicality: An investigation of category inclusiveness

Paula Soares de Magalhaes da Silva Correia - PhD (*Professor White*) An experimental analysis of the effects of past choices on present choice: The sunk cost effect

Elvira Skoko - MSc (*Dr Conner/Professor Ruffman/Dr Murachver*) Interpreting behaviour and emotions as a function of gender and age

Jacqui Sue - MSc (*Professor McNaughton*) Does theta activation during goal-conflict provide evidence for a “Behavioural Inhibition System” in humans?

Rosanne Taylor - MSc/PGDipCIPs (*Professor Colombo*) The development of episodic foresight for the future-self and future-other

Min Hooi Yong - PhD (*Professor Ruffman*) Domestic dogs’ understanding of human emotional cues

## 2013

- Federica Artioli - PhD (*Professor Reese*) Memories, families, cultures. Family factors and earliest memories in a cultural perspective
- Clare Barczak - MSc (*Dr Murachver*) Adolescent internet use: An exploratory analysis of adolescent and parent behaviours and attitudes in relation to the internet
- Fergus Broom - MSc (*Dr Alsop*) Patterns of behaviour under different concurrent reinforcement schedules
- Amanda Calder - MSc (*Professor White*) Consolidation in short term remembering in humans and non-human animals
- Julia Chrisp - MSc/PGDipCIPs (*Dr Hunter*) Exploring the role of belonging in intergroup discrimination
- Hayley Clarke - MSc (*Dr Hunter*) General and domain-specific self-efficacy following 10-day developmental sailing voyages and the contribution of social support
- Lucy Devlin - MSc/PGDipCIPs (*Dr Zajac*) He said, She said: Social sources of misinformation in children's, adolescents', and adults' memory reports
- Desiree Dickerson - PhD/PGDipCIPs (*Professor Bilkey*) Disrupted prefrontal-hippocampal synchrony in a neurodevelopmental animal model of schizophrenia
- Hayley Findlay - MSc/PGDipCIPs (*Dr Healey*) Moderating effects of maternal personality on the relations between child temperament and Attention-Deficit/Hyperactivity Disorder (ADHD)
- Bridget Forsyth - MSc (*Professor Reese*) Imaginary friends: Do they have a lasting impact on real children?
- Simon Hoermann - PhD (*Dr Regenbrecht, Information Science/Professor Franz*) Fooling the brain: Investigating the clinical utility of visual illusions with augmented reflection technology
- Juliet Kendall - MSc (*Dr Schaughency*) It takes two: Parent and child support for developing early reading skills
- Elise Martyn - MSc/PGDipCIPs (*Dr Zajac*) Picture this: Visual aids facilitate children's, adolescents', and adults' eyewitness recall
- Robert Munn - PhD (*Professor Bilkey*) Circadian modulation in hippocampal activity: A temporal code for episodic memory?
- Nikola Osborne - PhD (*Dr Zajac*) "Did you find what you were looking for?" The effect of context on the interpretation of forensic evidence
- Fiona Parker - MSc (*Professor Knight/Professor Poulton, Preventive and Social Medicine*) Whispers from the cradle: Predictions of talent in adulthood from childhood variables
- Joanna Parry - MSc/PGDipCIPs (*Professor Reese*) The role of reminiscing in the development of attachment
- Jacqueline Radwan - MSc (*Professor Abraham*) The effects of secreted amyloid precursor protein-alpha on cell proliferation in the adult rat dentate gyrus
- Peter Shepherdson - PhD (*Professor Miller*) Redundancy gain in semantic categorisation
- Susan Tyree - MSc (*Professor McNaughton*) Food, leptin, and the hippocampus: The anxiolytic potential of eating
- Katharina Ulrich - PhD (*Professor Abraham/Professor McNaughton*) Electrophysiological analysis of the functional recovery produced by environmental enrichment in a rat model of diencephalic amnesia
- Stephen Wright - MSc (*Associate Professor O'Hare*) The human factors of cockpit transitions between analog and digital displays

## 2012

- Samantha Adams - MA (*Professor White*) The effects of daytime naps on false memory in the DRM paradigm
- Roni Alder - MSc/PGDipCIPs (*Dr Linscott*) The acute impact of news of risk for schizophrenia: Ethical implications of psychometric screening
- Jeffrey Bednark - PhD (Neuroscience) (*Associate Professor Franz/Associate Professor Reynolds, Anatomy*) Establishing movement heuristics for voluntary action: Electrophysiological correlates of movement-outcome
- Emma Beeby - MA (*Professor White*) Preference reversal between self-control and impulsivity
- Marthinus Bekker - MSc/PGDipCIPs (*Dr Leland, Jr*) Improving asthma self-management in tertiary students
- Rebecca Browning - MSc (*Professor Colombo*) Prefrontal cortex delay activity: Memory code or reward code?

Heidi Cripps - MSc (*Dr Hunter*) The relationship between Christian group identification and intergroup discrimination in context where social identity is made salient

Sven Tobias Dolberg - MSc (*Dr Linscott*) On the vocational pathway to recovery: Vocational decisions in mental illness

Kenzie Gentle - MSc/PGDipCIPs (*Dr Zajac*) "I'm pretty sure that might be him": Investigating the effect of a 'wildcard' on young and older adults' lineup performance

Amelia Gill – PhD (*Dr Elizabeth Schaughency/Dr Barbara Galland, Women's and Children's Health*) An investigation of sleep disordered breathing, cognitive development, early learning, and behavioural adjustment in pre-school children

Hayley Guiney - MSc (*Dr Machado*) Aerobic fitness, physical activity, and brain function in healthy young adults

Jasmine Harding - MSc/PGDipCIPs (*Dr Healey*) The impact of children's ADHD symptom severity and maternal characteristics on mothers' psychosocial functioning

Kana Imuta - PhD (*Professor Hayne*) Exploring memory development in 2- to 6-year old children

Jonathan Jong - PhD (*Associate Professor Halberstadt/Dr Dawes, Philosophy*) Scaring the bejusus into people: The effects of mortality salience on explicit and implicit religious belief

Seung-Yoon Lee - MSc (Neuroscience) (*Associate Professor Franz*) Perceptual and neural processing of consonance and dissonance in musicians and non-musicians: An ERP study

Benjamin McEachen - PhD/PGDipCIPs (*Dr Tripp/Dr Brent Alsop*) Sensitivity to reward frequency and reward delay in children with Attention-Deficit/Hyperactivity Disorder

Kathryn McLennan - MSc (*Dr Schaughency*) Evaluation of the New Zealand Word Identification Fluency Task as an indicator of reading proficiency in Year 2

Emily Crawford Macleod - PhD/PGDipCIPs (*Professor Hayne*) Is a picture worth a thousand words? The clinical use of children's drawings

Jillisa Martin - MSc (*Dr Murachver*) Thinking about feeling: Adults' and children's judgements of emotional expressions in others

Jessica Millar - MSc (*Professor Colombo*) In search of the cause of the avian autoshaping deficit

Chris Perkins - PhD/PGDipCIPs (*Professor Ruffman/Dr Taumoepeau*) 'Me', 'My', 'Mine': Maternal mental state talk, children's social understanding and the role of the self-concept

Henry Pharo - PhD (*Professor Hayne*) The behavioural and psychological effects of ostracism in adolescence and emerging-adulthood

Kahla Redman - MSc (*Professor Ruffman*) Iodine and cognition in young adults: A randomised, placebo-controlled trial

Kate Sprecher (Neuroscience) - MSc (*Associate Professor Franz*) The neural basis of perceptual integration and expertise in the auditory processing of music

Charles Swart - MSc/PGDipCIPs (*Professor McNaughton*) Using the stop-signal task to identify a bio-marker of anxiolytic action in the human brain

Hon Leng (Cameron) Teoh - PhD (*Associate Professor O'Hare/Dr Regenbrecht, Information Science*) Body language availability in videoconferencing

Neville Todd - MA (*Associate Professor Halberstadt*) Is self-esteem embodied? The influence of vertical orientation on self-esteem and domain specific sociometers

Dominic Vettise - MSc (*Dr Linscott*) Visual elements of schizotypy experiences: An investigation of representational momentum and eye-tracking rick markers

Rebecca Walker - PGDipCIPs

Kristy-Lee Wilson - MSc/PGDipCIPs (*Dr Zajac*) More than meets the eye: Co-witness misinformation about a target's appearance can impair target-absent lineup performance

Natalie Wyatt - PhD (*Dr Machado*) Distractor inhibition in attention: An investigation into the influences of stimulus location predictability and distractor intensity learning and the sense of agency

## 2011

- Donna Anderson - PhD (*Associate Professor Halberstadt/Dr Conner*) The influence of entitlement attitudes on effortful, self-directed behaviour
- Shane Blackburn - PhD (*Dr O'Shea*) The resolution of depth ambiguity in the kinetic depth effect
- Sumeer Chadha - MSc (*Professor Bilkey*) Transient lesions of the prelimbic cortex result in a decrease in behavioural inhibition in rats within the place-preference task
- Yan Chen - PhD (*Associate Professor Reese*) Narrative identity and well-being from middle childhood to late adolescence: A developmental, cross-cultural perspective
- Caroline Clarkson - MSc (*Professor Miller*) Functional communication impairment in schizophrenia
- Fraser Cross - MSc/PGDipCIPs (*Associate Professor Halberstadt*) Heroes or villains: The moderating role of perceived typicality in the perception of positive and negative stereotypes
- Sarah Divers - MSc (*Dr Schaugency*) Quality over quantity: The link between specific qualities of parent speech and young children's phonological awareness
- Jane Ford - PhD (*Associate Professor O'Hare*) The effects of joint flight attendant and flight crew CRM training programmes on intergroup teamwork and communication
- Sabrina Goh - MSc (*Dr Murachver*) The rain in Spain or 'Fush and Chups': Assessing explicit and implicit attitudes towards English-accented speech
- Rajshree Gopala Krishnan - MSc (*Associate Professor Halberstadt*) Mood congruency in affective forecasting: The effects of current mood in near versus distant future predictions
- Natalie Goulter - MSc (*Professor Colombo*) Effects of length of gambling experience on neural activity in the avian 'prefrontal cortex'
- Debra Hayes - MSc/PGDipCIPs (*Dr Alsop*) The dynamics of choice: Human sensitivity to changing reinforcement contingencies
- Matthew Hegan - MSc (*Professor Colombo*) Gambling behaviour in pigeons: Towards an animal model of gambling
- Yao-Ting Ko - PhD (*Professor Miller*) Response inhibition and properties of its underlying processes: Evidence from behavioral and electrophysiological measurements
- Michael Liddle - PhD (*Associate Professor Robins/Dr Knott, Computer Science/Associate Professor Franz*) Some neuro-computational investigations into the reviewing of object-files
- Bee Teng Lim - PhD (*Associate Professor Ruffman*) The ubiquitous decline or paradox of aging: young and older adults' differences in emotion reactivity, recognition and regulation
- Isaac Malpass - MSc (*Dr Leland*) Hold the phone! Factors affecting call centre customer and staff experience, and evaluation of an on-hold intervention to increase customer satisfaction and reduce negative affect
- Brad Nicholson - MSc/PGDipCIPs (*Associate Professor O'Hare*) The training and transfer of dynamic decision making performance
- Katherine Reid - MSc (*Dr Conner*) The pursuit of happiness
- Thomas Robinson - PhD/PGDipCIPs (*Dr Tripp*) Neuropsychological function of children and adolescents with ADHD: Group and individual change four years after diagnosis
- Damian Scarf - PhD (*Professor Colombo*) Representation of serial order in pigeons (*Columbia livia*)
- Rebekah Scott - PhD (*Associate Professor Franz/Associate Professor Anson, School of Physical Education/Associate Professor Hyland, Physiology/Dr Hammond-Tooke, Medicine*) Understanding conversion disorder: Electrophysiological and behavioural evidence for impaired neuromotor preparation and movement execution
- Kurstyn Stedman - MSc (*Dr Leland*) Obesity and intellectual disability in New Zealand
- Evan Tan - PhD (*Dr Galland, Women's and Children's Health/Dr Schaugency/Dr Healey*) Sleep and the potential of sleep hygiene for weight management in youth
- Karen Tustin - PhD (*Professor Hayne*) Childhood amnesia and episodic memory: A developmental perspective
- Jo Walker - MA/PGDipCIPs (*Professor Hayne/Dr Gross*) Developmental changes in spreading activation: Associating visual recognition memory and deferred imitation in 6- and 12-month-old infants

Amy Wolff - PhD (*Professor Bilkey*) Brain and behaviour in an animal model of schizophrenia  
Mami Yamaguchi - PhD (*Associate Professor Halberstadt/Dr Conner*) Pitfalls of extrinsic goal pursuit: Wellbeing, life goals, and self-focussed attention  
Helene Zdrenka - MA/PGDipCIPs (*Dr Healey*) Predictors of impairment in school-aged children with a diagnosis of Attention Deficit Hyperactivity Disorder (ADHD)

## 2010

Jared Bowden - PhD (*Professor Abraham*) Structural mechanisms bidirectional synaptic plasticity in the dentate gyrus of freely behaving rats  
Melanie Burton - MSc/PGDipCIPs (*Professor Hayne*) Does providing undergraduate students the opportunity to draw facilitate verbal reports of emotional experiences  
Donna Carter - MSc (*Professor McNaughton*) Can medial septal stimulation that elicits hippocampal theta rhythm repair cognitive and emotional deficits resulting from vestibular lesions?  
Chew Sim Chee - PhD (*Dr Murachver*) Theory of mind, judgment, and metalinguistic awareness: Broadening the horizons  
Katie Douglas - PhD (*Associate Professor Porter, Psychological Medicine, Christchurch/Professor Knight*) Neuropsychological changes during the treatment of major depression  
Brigitte Gorman - PhD/PGDipCIPs (*Dr Schaughency/Associate Professor Reese*) A randomised controlled trial of a parent stress management programme for parents of children with ADHD  
Mikala Graham - MSc/PGDipCIPs (*Professor Hayne*) Adolescent risk-taking: Individual differences and the validity of laboratory-based measures  
Jillian Hayhurst - MA (*Dr Hunter*) Enhancing youth resilience through a 10-day developmental voyage  
Anne Howarth - MSc (*Dr Treharne/Dr Swain-Campbell, Psychological Medicine*) First time birth experiences within the New Zealand midwifery driven maternity system  
Armin Keller - MSc (Cognitive Science) (*Associate Professor Franz*) Influence of visual grouping and temporal attention on temporal resolution: Evidence from a temporal order judgment (TOJ) task  
Paul Knox - PhD/PGDipCIPs (*Professor Knight/Associate Professor Halberstadt*) Memory biases in social anxiety  
Daria Korobanova - PhD/PGDipCIPs (*Dr Linscott*) Schizophrenia and potential effects of hypokrisia: Potentiated automatic memory  
Simon Kuttner - PhD/PGDipCIPs (*Dr Murachver*) Parenting conditional regard, morality, and the conflict of behaviour and motivation  
Kirby Miles - MSc (*Professor Colombo*) Pigeons play the pokies: Investigating the neural correlates of gambling-related behaviours  
Kelly Mouat - PhD (*Dr Linscott*) Academic and social functioning in schizotypy  
Charlene Rapsey - PhD (*Associate Professor Davidson, Psychological Medicine/Dr Schaughency /Dr Murachver*) From safe sex to good sex: Towards a comprehensive understanding of sexual health in adolescence and beyond  
Ming Ruan - PhD (*Professor McNaughton*) Is theta activity functional: A study of the interactions of the supramammillary area and the hippocampus  
Kathryn Ryan - MA/PGDipCIPs (*Dr Schaughency*) Understanding adolescent sexual encounters: The contribution of the subjective experience scale in measuring perceptions of pressure, control, wantedness, and consent  
Amanda Sloan - MSc/PGDipCIPs (*Professor Colombo*) Neural correlates of gambling  
Amy Smith - MA/PGDipCIPs (*Dr Schaughency*) Romantic relationships in emerging adulthood: The effect of individual differences in romantic relationships on depressive symptoms, global self-esteem and sexual self-esteem  
Karen Sutherland - PhD/PGDipCIPs (*Dr Tripp/Associate Professor Hyland, Physiology, Professor Wickens, Anatomy and Structural Biology*) Altered reinforcement sensitivity and dopamine transporter function in an animal model of attention deficit hyperactivity disorder  
Moirra Suttie - MA (*Dr Hunter*) The effects of positive and negative forms of intergroup discrimination on private collective self esteem

Natasha Taylor - MSc (*Dr Murachver*) Hearing children's voices: Children's perspectives on parental discipline and the parent-child relationship  
Jane Thurlow - MA/PGDipCIPs (*Dr Schaughency*) Teachers perceptions of instruction utility  
Hannah Walker - MA (*Professor Hayne/Dr Gross*) "All work and no play?" The transition to university  
Wei-Chieh (Viger) Yang - MSc (*Dr Conner*) Attitudinal predictors and moderators of drinking behaviour  
Yee Chin (Jean) Yeoh - MA (*Dr Murachver*) Exploring intimacy and language in Diaryland

## 2009

Rishi Bhardwaj - PhD (*Dr O'Shea*) Exploring suppression of swap rivalry  
Xin Dai - MSc (*Associate Professor Reese*) Development of temporal autobiographical memory for children in middle childhood  
Jake Dickson - MSc/PGDipCIPs (*Dr Zajac*) "Trusht me, I know what I sshaw!": The effect of co-witness intoxication on suggestibility  
Brionny Hooper - MA (*Dr Tripp*) Exploring human error and related factors of aviation flight safety events using post-incident classification systems  
Sarah Hulme - PhD (*Professor Abraham*) Heterosynaptic metaplasticity in area CA1 of the hippocampus  
Sarah Kafka - MA (*Dr Hunter*) A developmental sail-training voyage: Enhancing and maintaining self-esteem without negative consequences  
Aspasia Karageorge - MSc (*Dr Zajac*) Using the wild card to improve children's lineup performance: The effects of age and delay  
Esther Kuehn - MSc (Neuroscience) (*Associate Professor Franz*) An fMRI and morphometry study on fluid intelligence  
Cara McAlpine - MA/PGDipCIPs (*Dr Alsop*) The dynamics of choice in children: Age, gender and changing reinforcer contingencies  
Sasha McComb - PGDipCIPs  
Natasha Martin - PhD/PGDipCIPs (*Dr Murachver*) Mental-state and emotion understanding across childhood: Individual differences and relations with social competence  
Michelle Milmine - MSc/PGDipCIPs (*Associate Professor Colombo*) Remembering to forget: Neural correlates of executive control in the avian prefrontal cortex  
Damon Mitchell - PhD/PGDipCIPs (*Professor McNaughton*) Phase-reset and effects of ethanol in non-verbal working memory tasks: Is there a homologue of hippocampal theta in the human EEG?  
Phoebe Neo - PhD (*Professor McNaughton*) Theta activations associated with goal-conflict processing: Evidence for the revised "Behavioral Inhibitions System"  
Sarah O'Neill - PhD/PGDipCIPs (*Dr Zajac*) Factors influencing children's responses to cross-examination questioning  
Thelma Patterson - PGDipCIPs  
Henry Pharo - MSc/PGDipCIPs (*Professor Hayne*) Developmental differences in the effects of ostracism  
Mark Phillips - MSc (*Associate Professor Halberstadt*) The role of salient affective information during decisions employing analytic thought  
Joanna Prince - PGDipCIPs  
Anna Reynolds - MA (*Associate Professor Halberstadt*) "Are you like me?" Implicitly egotistical memory, motivated social comparison and self-esteem  
Sarah-Jane Robertson - MA (*Associate Professor Reese*) The role of genre, gender, and enjoyment in children's language and literacy development  
Amy Rutherford - MA (*Associate Professor O'Hare/Associate Professor Reese*) The stories expert and novice flight instructors tell  
Melissa Ryan - PhD/PGDipCIPs (*Dr Murray/Associate Professor Ruffman*) Ageing and emotion: Categorisation, recognition, and social understanding  
Sha Savanthrapadian - MSc (Neuroscience) (*Professor Abraham*) Synaptic plasticity in a maternal immune activation animal model of schizophrenia  
Clark Sim - MA/PGDipCIPs (*Professor Hayne*) Individual differences in risk-taking during adolescence  
Sebastian Suggate - PhD (*Dr Schaughency/Associate Professor Reese*) Response to reading instruction and age-related development: Do later starters catch-up?

Tamara Suggate - MSc (*Dr Linscott*) Spring, summer, autumn, winter and spring ... A season of birth effect in schizotypy?  
Shelley Taylor - PhD/PGDipCIPs (*Dr Tripp/Dr Murachver*) Social functioning of children and adolescents with ADHD  
Tien-Yi Toh - MSc (*Associate Professor Colombo*) Ready, steady, go! Information processing in the avian prefrontal cortex  
Rosemary Trappitt - MSc (*Dr Murachver*) Go to time-out! New Zealand parents' use of a discipline and conflict management tool

## **2008**

Courtney Clyne - PGDipCIPs  
Sarah Fahey - MA/PGDipCIPs (*Dr Franz*) Absence of bimanual cost in people with callosal agenesis  
Anna Hamlin - MA/PGDipCIPs (*Dr Schaughency*) Implementation of a school-wide social problem solving intervention to reduce aggression on the playground  
Linda Hows - MSc/PGDipCIPs (*Dr Murachver*) Predictors of aggression and prosocial behaviour in early childhood  
Charlotte Kerr - MA (*Dr Murachver*) Patterns of aggression in New Zealand children  
Timothy Moss - MSc (Neuroscience) (*Professor Abraham*) The hippocampal-prefrontal pathway: Long-term potentiation and the effects of enriched environment exposure  
Nadine Pow - MSc/PGDipCIPs (*Associate Professor Colombo*) Lost in a maze? Reward processing, spatial behaviour, and the hippocampus  
Saskia Righarts - PhD (*Dr Zajac*) Reducing the negative effect of cross-examination questioning on the accuracy of children's reports  
Abeda Roessler - MSc (Neuroscience) (*Associate Professor Franz*) Alpha and Mu brain rhythms and their role in imitation processes: An EEG study  
Simon Seal - MSc/PGDipCIPs (*Dr Tripp*) Visuo-spatial and verbal working memory in children with Attention Deficit Hyperactivity/Impulsivity Disorder (ADHD)  
Chanel Taylor - PhD (Neuroscience) (*Professor Abraham*) Secreted amyloid precursor protein-alpha modulates hippocampal long-term potentiation in vivo  
Tina Vater - MSc (*Dr Halberstadt*) The relationships among prototypicality, attractiveness and frequency in emotional faces

## **2007**

Donna Anderson - MSc (*Dr Halberstadt*) The influence of affect on internal information use  
Michael Banks - MSc (*Dr Hunter*) The effects of Intergroup discrimination on social identity  
Holly Hammond - MA/PGDipCIPs (*Dr Tripp*) The effectiveness of group parent behaviour management training: Impact on parent functioning and the quality of parent-child interactions  
Shelley Galloway - MSc (Neuroscience) (*Professor Abraham*) The effect of secreted amyloid precursor protein  $\alpha$  and long-term potentiation on transcription factors NFkB and Zif-268  
Donovan Govan - PhD (*Dr O'Shea*) Luminance and contrast as depth cues  
Nicola Henderson - MSc/PGDipCIPs (*Dr Zajac*) 'Don't it make my brown eyes blue' The effect of co-witness misinformation on eyewitness identification performance  
Karen Hughes - MSc (*Professor White*) Prospective memory and aging: Effects of cue-familiarity and environment on the components of remembering  
Fiona Jack - PhD (*Professor Hayne*) Childhood amnesia: Retrospective students, prospective studies and theoretical explanations  
Celia Lie - PhD (*Dr Alsop*) Punishment and human signal detection  
Xiaodong Lu - PhD (*Associate Professor Bilkey*) Contribution of the perirhinal cortex to the firing properties of hippocampal pyramidal neurons  
Bridget McDonald - MSc/PGDipCIPs (*Professor Hayne*) The effects of independent locomotion on 9-month-old infants' cognitive, perceptual, and social development  
Nadia Mullen - PhD (*Dr Leland/Dr Alsop*) Maintenance of interventions in organisations

Karen O'Brien - MSc (*Associate Professor Ruffman*) Do children who display advanced theory of mind also display advanced understanding of malicious intent?

Kimberley O'Hagan - MSc/PGDipCIPs (*Professor Knight*) Autobiographical memory in long-term survivors of severe traumatic brain injury

Keryn Pauley - PhD (*Associate Professor O'Hare*) Personal risk management in pilots

Alana Roughan - MSc (*Associate Professor Reese*) Reminiscing about the pretend zoo: The effects of elaborative and autonomy supportive conversations on children's event memory

Sarah Valentine - PhD/PGDipCIPs (*Dr Peace, Psychological Medicine/Professor Hayne*) Then europsychological functioning of patients before and after undergoing coronary artery bypass graft surgery 2007

Jayde Walker - MSc/PGDipCIPs (*Dr Murachver*) The importance of being empathic

Tina Walker - MSc (*Dr Murachver*) Implicit stereotyping in a New Zealand context

Karen Walsh - MSc (*Associate Professor O'Hare*) Is blame the name of the game? Aviation, case-based reasoning and attribution

Natalie Wyatt - MSc (*Dr Machado*) When do we use inhibition to respond effectively in the presence of distractors?

## 2006

Tracy Anderson - PhD/PGDipCIPs (*Professor Knight*) Evaluating dual tasking ability following traumatic brain Injury

Richard Batt - PhD (*Associate Professor O'Hare*) Aeronautical decision making: Experience, training and behaviour

Paula Cannan - MSc/PGDipCIPs (*Dr Zajac*) Cross-examination of sexual assault complainants: A developmental comparison

Craig Colhoun - MSc (*Associate Professor O'Hare*) Effects of PC flight simulator display configuration on flight performance, situational awareness, workload, and sense-of-presence

Maria Crawford - PhD/PGDipCIPs (*Professor Knight*) Speed of retrieval after traumatic brain injury

Nicola Davis - MSc (*Professor Hayne*) Do adults remember their sibling's birth? Implications for defining the boundary of childhood amnesia

Shaystah Dean - MSc (*Dr Halberstadt*) The mechanisms of reasons analysis and chronic reasoning in person perception

Amy Devine - MA (*Dr Machado*) When is inhibition utilised to reduce distractor interference?

Bruce Donaldson - PhD/PGDipCIPs (*Professor Knight*) The psycho-physiological consequences of depressed mood-related cognitive responses

Samantha Farrimond - PhD/PGDipCIPs (*Professor Knight/Professor White*) The effects of aging on remembering intentions: The virtual street task

Ruwani Kumari Fernando - PhD/PGDipCIPs (*Dr Halberstadt*) A good woman. Silencing the self, rumination, and depression in romantic relationships

Shelley Galloway - MSc (*Professor Abraham*) The effect of secreted amyloid precursor protein  $\alpha$  and long-term potentiation on transcription factors NF  $\kappa$  B and Zif-268

Sasha Gold - PhD/PGDipCIPs (*Dr Peace, Psychological Medicine/Dr Schaughency*) Cognitive functioning of patients who develop delirium after cardiac surgery

Tejwinder Kaur - PGDipCIPs

Jaimee King - PGDipCIPs

Carolyn Jones - MSc (*Dr Halberstadt*) Mood and partner choice: How one effects the other

Emma Jury - MSc/PGDipCIPs (*Dr Zajac*) The role of psychosocial factors in young children's responses to cross-examination style questioning

Mark Lewis - MA (*Dr Linscott*) Prospective memory in schizophrenia and related disorders

Lisa Maughan - MSc/PGDipCIPs (*Dr Franz*) An ecologically-relevant manual stroop-type task: An investigation of: Stroop interference in Parkinson's disease and lexical and paradoxical types of interference

Ghazi Metoui - MSc (*Professor Hayne*) The use of human figure drawings in interviews with young children: Catch-22

Richard Mullen - PhD (*Professor Gillett, Bioethics/Dr Linscott*) Delusions: Conceptual and phenomenological aspects

Robert Munn - MSc (*Professor McNaughton*) The effects of fluoxetine on hippocampal rhythmical slow activity and hippocampal sensitive behaviours

Nicola Perkins - MSc/PGDipCIPs (*Professor Hayne*) Does travel broaden the mind? The effect of independent locomotion on cognitive development during infancy

Kirsty Pinder - PhD (*Dr Murachver*) Shared factors in autobiographical memory and theory of mind development

Kirsten Robertson - PhD (*Dr Murachver*) Intimate partner violence: Gender symmetry and the victim perpetrator overlap

Vickie Saunders - PhD (*Dr Franz*) Semantic processing in Parkinson's Disease

Rachel Schembri - MA (*Professor Knight*) A pilot study for increasing early awareness following traumatic brain injury

Lisa Schröder - MSc (*Dr Reese*) "What was your job as the zoo-keeper?" The influence of elaborative and autonomy supportive talk on preschoolers' event memory. An experimental investigation

Maria Schuchinsky - PhD (*Dr Murray*) Effects of expertise in face perception: Processing configural information in own-race and other-race faces

Myalisa Stevens - MA (*Dr Halberstadt*) How do I love thee: Should I count the ways? Effects of reasons analysis on couplehood judgements

Katrina Sugrue - PhD/PGDipCIPs (*Professor Hayne*) False memories produced by children and adults in the DRM paradigm

Mele Taumoepeau - PhD (*Associate Professor Ruffman*) Stepping stones to others' minds: The relation between maternal mental and non-mental state input and social understanding in 15-, 24-, and 33-month-old children

Rebecca Walker - PhD (*Dr Murachver*) The emergence of the representational mind

Kirsty Whitehead - PhD/PGDipCIPs (*Dr Linscott*) Precursors for schizophrenia: Are schizotaxia and schizotypy related?

My Wilkstedt - MA (*Dr Murachver*) The physical punishment of children in Sweden and New Zealand

Luke Wilson - MSc (*Associate Professor Ruffman*) Social understanding and the amygdala hypothesis of autism: The ability of children with Autism and Asperger's syndrome to derive socially relevant information from faces

## 2005

Mark Alderton - MSc (*Professor Miller*) Force intensity effects arising from probability manipulations of stimulus onset asynchronies within the psychological refractory period paradigm

Leigh Anderson - PhD (*Dr Leland*) "Did I say that?" Using videotapes to aid young children's event recall

Clayton Badland - MSc (*Dr Halberstadt*) The influence of emotional response on social categorisation

Laura Barkwill - MSc/PGDipCIPs (*Dr Murachver*) Is pretend play an early manifestation of theory of mind?

Sue Bidrose - PhD (*Associate Professor Pipe/Professor Hayne*) Children's reporting and eyewitness testimony following stressful events

Michelle Bussell - MSc (*Dr Hunter*) Negative intergroup allocations and social identity theory

Nigel Edge - MA (*Associate Professor Ruffman*) Social and emotion understanding in the elderly: The deficits

Hayley Elkin - MSc (*Dr Hunter*) The belongingness hypothesis: Belongingness as a motivation for prejudice

Michael Francis - MA (*Associate Professor Colombo/Professor Hayne*) The ontogeny of transitive inference: Methods and mechanisms

Kay McKenzie - PhD (*Professor Hayne/Professor Smith, Children's Issues Centre*) Abused children in New Zealand/Aotearoa: Presentation and investigation

Jane Nicholls - MSc (*Professor Knight*) Age-related deficits in prospective memory using a virtual street computer task

Phillipa Pehi - PhD/PGDipCIPs (*Dr Hunter*) The need to belong as motivation for intergroup discrimination

Jonas Rose - MSc (*Associate Professor Colombo*) The neural basis of avian magnetic orientation

Anna Shamy - MSc/PGDipCIPs (*Dr Peace, Psychological Medicine/Dr Tripp*) The effects of adjuvant chemotherapy on the neuropsychological functioning of patients with breast or colorectal cancer: A follow-up study

Annie Subactagin - MSc (*Dr Murachver*) Dealing with others: Social competence in middle childhood

Ester Vierck - PhD (*Professor Miller*) Direct selection by colour for visual encoding

Vincent Waide - MSc/PGDipCIPs (*Professor Knight*) Comparison of 'Context Stability' vs 'Evolutionary Relevance' framework for the nonassociative model of fear development: Latent inhibition and the development of fear

Paula Watkins - MA/PGDipCIPs (*Dr Linscott*) Representational momentum in individuals at risk for schizophrenia

Nicola Wilson - MSc/PGDipCIPs (*Dr Tripp*) Social problem solving in children with Attention Deficit Hyperactivity Disorder (ADHD)

Calvin Young - MSc (*Professor McNaughton*) Distribution of slow wave activity in the medial cortex of the rat

## **2004**

Amanda Baird - MSc/PGDipCIPs (*Dr Tripp*) Predictors of incarceration: competence and resilience, childhood maltreatment, and adult psychopathology

Glenn Brown - PhD (*Professor White*) Memory and reinforcement

Steven Catty - MSc (*Dr Franz*) "To think or not to think?" An over complication account of reasons analysis

Magdalene Choo - MA (*Professor Miller*) Role of repetition in at-threshold priming

Bronwyn Clarke - MSc/PGDipCIPs (*Dr Linscott*) Schizotypy and depressive symptomatology in an adolescent sample

Amy Cockcroft - PhD/PGDipCIPs (*Dr Reese/Dr Tripp*) Talking about past emotions with children: Socioemotional predictors and implications for the developing self-concept

Emily Cross - MSc (*Dr Franz*) Talking hands: How gesture observation affects verbal memory

Stuart Ferguson - PhD (*Dr Leland*) Classical conditioning, craving and cigarette smoking

Nathan Findlay - PGDipCIPs

Jane Freeman - PGDipCIPs

James Green - PhD (*Dr Murachver/Dr Don Bayard, Anthropology*) Communication accommodation theory: Understanding language use in social interaction

Jan Hughes - MSc (*Dr Murachver*) Predicting language convergence to gendered language: The influence of individual differences

Gemma Irvine - PhD (*Professor Abraham*) Enriched environment effects on hippocampal synaptic transmission and plasticity

Anna Janssen - PhD (*Dr Murachver*) Communication in context: How writers, speakers, readers, and listeners do gender

Rachel Kyd - PhD (*Associate Professor Bilkey*) Prefrontal cortex influences on spatial responses of hippocampal neurons

Amanda Lewthwaite - PGDipCIPs

Jane Marshall Fitzgerald - MSc (*Dr Franz*) The effects of local context and proficiency on the control of vertical size in handwriting of 7 year old children - an analysis of the handwriting product and process

Sarah Mellor - PGDipCIPs

Evonne Miller - PhD (*Dr Halberstadt*) Media and body image: Exploring the discrepancy between body perception and satisfaction

Rhiannon Newcombe - PhD/PGDipCIPs (*Dr Reese/Dr Murachver*) Children's narrative style across the preschool years: The role of maternal style, context, and child characteristics

Kerry O'Brien - PhD (*Associate Professor O'Hare*) Situational awareness ability and performance in a complex dynamic real world task: Impact of higher order cognitive skills

Melissa Porritt - PGDipCIPs/MSc (*Dr Alsop*) The role of reinforcer magnitude in pigeons' response biases and their discrimination between stimuli

Joanna Prince - MSc (*Dr Murachver*) "Yes they did ..." The effect of interviewer status on compliance in children and adults

Stephanie Read - MSc (*Dr Reese/Dr Ruffman*) Language development and otitis media with effusion

Heather Rhodes - PhD (*Dr Leland*) Downstream effects of stream management information: An assessment of the behavioural and environmental outcomes of providing farmers with information about waterway management

Jenny Richmond - PhD (*Professor Hayne/Associate Professor Colombo*) The mismeasure of memory: Adults' performance on the visual paired-comparison task

Heidi Robertson - PhD (*Professor Knight*) Evaluation of social problem solving after traumatic brain injury

Jan Shen - MSc (*Dr Franz*) Effect of hand dominance on unimanual and bimanual reaction time tasks, in left- and right-handed controls, and in patients with unilateral stroke

Sarah Stewart - MSc (*Dr Reese/Professor Hayne*) Teaching mothers to reminisce elaboratively with their young children: Effects on child narration and language measures

Emma Willcock - PhD/PGDipCIPs (*Professor Hayne*) Individual differences in the effect of drawing on children's memory
