RESEARCH AND ENTERPRISE

Updates and Announcements from week commencing 8 July 2019

Lottery Health Research
Department of Internal Affairs – Lottery Health 2019 Funding Round:

- Research Project
- Research Equipment
- Post-Doctoral Fellowship
- PhD Scholarship

The University of Otago has a “Host Organisation Profile” and all researchers wanting to apply for funding, will need a Personal Profile on FLUXX. Please contact your Research Advisor for assistance with registering your Personal Profile. If you already have a Personal Profile but are having problems logging onto FLUXX, please contact your Research Advisor. See funding opportunities below for dates and link to website.

Matariki Network of Universities' Travel Awards
Applications are invited for the University of Otago's Matariki Network of Universities' (MNU) Travel Awards. The purpose of these Awards is to enable academic and professional staff at the University of Otago to meet with colleagues from MNU member universities to develop and/or enhance collaboration. That collaboration can be research or teaching/curriculum related. The Travel Awards are to be used in addition to regular conference or RSL funding, with the additional funding enabling a visit to a MNU partner that would otherwise not have been funded through either conference or RSL monies. Further information regarding the MNU is available at www.matarikinetwork.org

Applications are available from Lynda McIver (lynda.mciver@otago.ac.nz). Applications will be considered at the August Internationalisation Committee meeting (due date for applications 29 July 2019). A maximum of $2000 is available for each award.

Internationalisation of the Curriculum Initiative Grants
Applications are invited for Internationalisation of the Curriculum Initiative Grants. If you are a full or part-time member of staff for whom teaching or the co-ordination of academic courses is a substantial part of your job, and are interested in research that will lead to significant developments in the curriculum or your teaching practice (including content, delivery method and/or assessment practice), you may be eligible for the above grants. Priority will be given to applications that involve collaboration with staff from institutions overseas with which Otago has a current partnership agreement.

Applications are available from Lynda McIver (lynda.mciver@otago.ac.nz). Applications will be considered at the August Internationalisation Committee meeting (due date for applications 30 July 2019). Please note, there is a funding pool of $33k available.

Call for Abstracts – Matariki Workshop – “Energy and the Oceans”

Data Incubator
Click here for Data Incubator opportunities for Masters and PhD students and Postdocs
New Zealand Association of Scientists (NZAS)
Applications are invited for the following 2019 Science Medals from NZAS – closing date 31 July 2019
• Marsden Medal
• Shorland Medal
• Hill Tinsley Medal (formerly known as the Research Medal)
• Cranwell Medal (formerly known as the Science Communicator Medal)

How to apply:
• Interested applicants should apply directly, rather than seek a nomination.
• Please submit electronic applications. See the guidelines from the links below and email applications to: awards@scientists.org.nz and buchananp@LandcareResearch.co.nz by 31 July, 2019. Note that in 2018 some applicants received bounceback email notifications from the awards@scientists.org.nz address, so the second address is provided to minimise the chance of non-receipt.
• Individuals or Scientific Teams (of up to five people) may apply for the Shorland and Cranwell Medals
• Applications submitted in previous years will remain valid for five years from the original submission date (except for Hill Tinsley Medal applicants if the 15 year post-PhD limit is exceeded), but a previously submitted application should be updated annually using the current format.
For instructions and guidelines, please see: https://scientists.org.nz/2019-awards-applications

Sustainable Future Farming mission to France 14-18 October 2019
Created by the French Embassy in New Zealand, this programme aims at strengthening existing Research and Development partnerships between New Zealand and French institutions in the area of Sustainable Future Farming, through an agroecology perspective. Examples of such partnerships include co-development of research projects, technology validation and development of products, processes or services.

This call for applications is launched from 1 June 2019 until 22 July 2019. Up to five people will be selected by the French Embassy to attend a one week mission to visit their scientific partners in France.

More information and to apply:
https://nz.ambafrance.org/Call-for-applications-Sustainable-Future-Farming-mission-to-France-14th-18th

Fulbright New Zealand – Scholar Awards
Fulbright NZ offers a variety of awards throughout the year, some of these awards are in conjunction with Ngā Pae o te Māramatanga. Awards will be advertised on the following table in due course. Professor Phil Bremer is the Fulbright New Zealand Campus Advisor for the University of Otago; should you wish to seek further information please find Phil’s contact details here.

FUNDING OPPORTUNITIES from Week Commencing 8 July 2019
NEW Funding opportunities advertised for the first time in this edition of Research News are marked NEW
COD Funding opportunities already advertised in Research News but have had a date change are marked COD

TYPE AF Awards and Fellowships
ONLINE APPLICATIONS Where applications are to be submitted through an online portal, please note that a hardcopy of the application and signed CCW still needs to be submitted to your Research Advisor by the due date detailed below.

DUE DATE (Internal Deadline):
Deadline, for Dunedin Researchers, for the final signed hard copies of the Application and Costings and Consents Worksheet (CCW) to be received by your Research Advisor. Register your interest in a fund with your Research Advisor, who can assist you in the development of these documents, in the weeks prior to the DUE DATE.

University of Otago, Christchurch Researchers: To confirm your ‘Due Date’ please visit here for full details, or contact:
Karen Chaney, Research Advisor, University of Otago, Christchurch – karen.chaney@otago.ac.nz
Kosta Tabakakis, Research Advisor, University of Otago, Christchurch – kosta.tabakakis@otago.ac.nz

University of Otago, Wellington Researchers: to confirm your ‘Due Date’ please contact
Christine Groves, Research Advisor, University of Otago, Wellington: christine.groves@otago.ac.nz
Kate Sloane, Research Advisor, University of Otago, Wellington: kate.sloane@otago.ac.nz

If you have any queries or would like further information regarding any of these Funding Opportunities, please contact your Research Advisor. Our contact details are available on the Research and Enterprise Website.

Research News and Upcoming Funding Opportunities

If you would like the Research Opportunities emailed out to you fortnightly, you can join the ResearchInfo List. You can subscribe to the List by going to http://lists.otago.ac.nz/listinfo/researchinfo and enter in your email address, your name, and then click on Subscribe. If you have any problems subscribing please contact Research and Enterprise.

GENERAL INFORMATION REGARDING RESEARCH FUNDING AT OTAGO

When you need to contact us

Staff are reminded that every application for external research funding must come through Research and Enterprise, via your Research Advisor. If you are not sure, please call and we will be able to advise you. All grant applications and proposals should be submitted by academic staff. Please inform your Research Advisor if you intend to apply as Principal Investigator for any contestable funding, whether advertised here or not, at the beginning of the development of your application. The same situation exists if you have been approached by researchers at another institution/organisation to collaborate on a funding proposal where Otago is not the lead institution and/or is not submitting the proposal.

Costings and Consents Worksheet – Please use the latest version on website

A UoO Costings and Consents Worksheet (CCW) is required for all applications, signed by the applicant, their Head of Department/Resource Centre and their Dean/PVC, in accordance with University policy on externally funded research. You can download the latest version of our CCW here. For advice on the use of the CCW to develop costings for your project, please contact your Research Advisor.

Requirement for Field of Research (FOR) and Socio-Economic Objective (SEO) codes

It is now a requirement that Universities report to the Ministry of Business, Innovation and Employment on FOR and SEO codes for all research and commercial projects. These codes must be entered in the relevant section of the costing and consent worksheet. A maximum of three codes can be selected for each category and percentages should be in blocks of 10. A full list of the codes is included in the electronic version of the ccw. Please talk to your Research Advisor or Business Development Manager if you have any queries regarding these.

The UoO Policy Document on Externally Funded Research, which outlines both the need for and the usage of the CCW, can be viewed here.

Panui Rangahau Māori – Māori Research Consultation

Tēnā koutou. Ngā mihi mahana ki a koutou ngā kairangahau o te Whare Wānanga o Ōtāgo. Warm greetings to you the researchers of the University of Otago.

This will be a regular reminder of the cut off dates for submission to the Māori Research Consultation process. The next cut-off dates for the Ngāi Tahu Research Consultation Committee are 9 July 2019 and 13 August 2019. If you have a funding opportunity coming up that requires Māori consultation to have begun, then please have the research proposition lodged on the website by 9:00am on either 9 July 2019 or 13 August 2019.

For further information on Māori Consultation including contact details, please visit here. Please note Christchurch researchers MUST consult with Karin Keelan as the process is different for Christchurch staff and students.

Ethics and Regulatory Consents

The University requires that any research involving human participants and/or animals is conducted in accordance with the highest ethical standards. Where appropriate, compliance includes ethical approval from the relevant ethics committee. Please refer to our Ethics and Regulatory Consents webpage for further information.
Checklist for submitting grant proposals

Remember to include:
• Copy of the application (signed by applicant, and HoD/Dean if requested by funder)
• University of Otago Costing & Consents Worksheet (CCW) (signed by applicant, HoD and Dean/PVC)
• Evidence of Māori Research Consultation
• Ethical / Regulatory approvals (if required and already approved)

Research and Enterprise then obtains the authorised signature of the University for you (if required), copies the application, and sends it to the funding body by the due date.

Contact Details for the Research Advisor Team

For further information, advice and assistance regarding anything to do with contestable research funding, please contact the Research Advisor for your Division/Department:

Administrative Details

Extension and Closure of Research Accounts – Notice to all Departments

Extensions - All requests for an extension should be done before the end date of the contract. Researchers will need to contact their Research Advisor or Enterprise Manager in the first instance. This process replaces all previous notifications by Research and Enterprise. Research Finance Administrators, Research and Enterprise - Email: research.finance@otago.ac.nz

Closures - In order to help speed up the closure process of Research Projects, Research and Enterprise has provided a copy of the “Research Project Closure form” at link. This form can also be found on F1 under the chart enquiry screen.
Departments need to download and complete this form for each account that is to be closed and forward to the Research and Enterprise Office. Closure letters will be forwarded to FSD by Research and Enterprise. FSD will action any journals for surpluses or deficits.

Closure Form for Internally Funded Research Grants:
A form has been created and placed on the Research and Enterprise webpage - link
The sole purpose of this form is to instigate the closure and repayment of overspends within Internally Funded Research Grants (R accounts - University of Otago Research Committee funded grants).

University of Otago Bridging Scheme Register and Continuation of Research Achievement Grant (CRAG) for External-Grant-Funded Research-Only Staff
University of Otago Research Committee has introduced a **Bridging Scheme** to provide a mechanism to protect the continued contributions of Research-Only Principal Investigators. Further information regarding application for membership can be found [here](#).

The **Continuation of Research Achievement Grant (CRAG)** has also been introduced to support highly productive research leaders within the University in the event of significant grant failure. It is linked to the Bridging Scheme (see above) but also applies to academic staff with confirmed appointments. Application Forms and Guidelines can be found [here](#).

**Accounts Receivable Account Application Form (Research Funder):**
The current Accounts Receivable Account Application Form (Research Funder) can be downloaded [here](#).
