

## Student research projects 2021

Honours and SURV470 students, School of Surveying

Come along to hear what our 2021 final year students are working on this year for SURV590 (the Honours programme) and SURV470 (Professional Project):

Alex McCulloch	Laser scanning with an iPad Pro
Cameron Bartlett	Cultural perspectives in conservation
Daniel Gonzalez	Antenna calibrations for deformation monitoring
Devon Allen	Restrictive nature of covenants
Jeremiah Er	Detecting structural deformation with low-cost GNSS receivers and smartphones
Liam McElwain	Spatial analysis of comics
Harry Rattray	A future for Forbury Park ( <i>SURV470</i> )

*All welcome!*
